LAST NIGHT'S WAR CABLES

London, Nov. 2.—Premier Asquith's stinging speech in the house of commons today on the policy and plans of Great Britain monopolizes the attention of Europe tonight, and the fighting, although it has been severe on some of the fronts, is receiving little thought.

The Austro-Germans and Bulgarians continue their advance in Serbia, and are daily drawing closer to Nish, making the position of the Serbian army in the north more precarious. It is believed here, however, that the Serbians will be able to withdraw to the mountains and resist the invaders until the assistance which the Entente Allies have promised draws some of the pressure from them.

The British and French troops which were landed at Saloniki already are doing this in the south, and the news of a Russian contingent, which is variously reported as having landed at Varna, or to be approaching Bulgaria, through Roumania, is anxiously awaited.

On the western front, except for some fighting in Champagne, there is little or nothing doing, but on the eastern front at least three or four big battles are in progress.

The Germans continue their efforts to approach from the west, the Russians are attacking west of Odessa, and the latest south of that city-wide attacks and counter-attacks are almost continuous on the Sty river, in Volynia and along the Stripa in Galicia. Both sides are claiming the advantage.

The offensive of the Italians against the Austrians also continues, although Vienna reports that it is meeting with no success.

JOFFE AND KITCHENER TALK ONE-STAFF PLAN

Closer Co-Ordination of the Allied
Armies Reported Aim of Two
Chiefs

London, Nov. 2.—A new plan of co-ordinated military control for the allies, and particularly for France and England, is believed to have been the subject of the conference between General Joffre and Lord Kitchener. The Balkan situation, it is stated, made the conference of the two military leaders a more closely co-ordinated military policy among the allies.

For some time the necessity for a more unified effort by the allies has been voiced by both political and military leaders. The inclusion of the Balkans in the field of general operations has brought the issue to a head.

It is stated that the subject of the conference concerned a more closely co-ordinated military policy among the allies.

THOUSANDS OF BABIES
DIE BEFORE ONE YEAR

It is estimated that thousands of babies die in this country before the age of one year, and it is stated that one-half of these deaths are needless if all mothers were strong and infants were breast-fed.

Expectant mothers should thoughtfully strive to increase their strength with the strength-building fats in Scott's Emulsion which improves the blood, suppresses nervousness, aids the quality of milk, and feeds the very life cells.

Physicians prescribe Scott's Emulsion; it is doubly important during nursing. No drugs. Every druggist has it. Always insist on Scott's—the white food-medicine. No advanced prices.

DANDRUFF ON HEAD
IN DRY CRUST

Hair Came Out. Scalp Itched and Burned. Scales Like Sawdust. Cuticura Healed in Six Weeks.

"The Pan, Manitoba."—Four years ago I began to lose my hair. It used to come out any time that I combed it. I think it was because my head was full of dandruff. Whenever I brushed it the scales flew off like sawdust. My scalp also itched and burned and my head was like a dry crust. The dandruff showed very plainly.

"I applied several remedies but found no improvement till I used Cuticura Soap and Cuticura Ointment. After using Cuticura Soap and Ointment a few days I found a great difference so I continued with them six weeks and they completely healed me." (Signed) L. D. Lockwood, June 4, 1914.
