Protection at Graveside in Case of Rain at Funeral

NEW PLOT FOR GRAVES

Annual Care Price Advanced—Some Criticism of Proposed Street Railway Route—Nearly 80 Bodies in Receiving Tomb in Last Winter

An important meeting of the directors of the Fernhill Cemetery Co was held yesterday following the spring visit of the lot committee to the grounds on Saturday. They reported that the new lots in South avenue are completed and these, with those lately cleared from rock in Central avenue are now being sodded and will be ready for sale at once.

It was also decided to procure frames and awnings for use on wet days so that service may be held at a graveside with protection for minister and people. A new plot will be at once laid out on the lower part of Willow avenue near the front gate and divided into cheap lots to be sold at from \$25 each and upwards.

The route of the street railway was before the board, and some adverse criticism was made that the line will run within a few feet of the cemetery gate which, it was declared, would not only affect the entrance but in winter the snow would be plowed through the gate and make much work in keeping a passage clear.

There is a large force of men now at the usual spring work on the grounds and many improvements will soon be noticed as a result of the systematic work under the direction of the superintendent. Last week more than fifty bodies were removed from the receiving tomb and buried in sections of the cemetery, and all lots are now being prepared and sodded.

In a fast and exciting game of baseball last evening the Brookville tilters defeated the diamond stars from Torriburn by the close score of 5 to 4. The battery for the losers was made Jos. Gallagher and John Gallagher, while Leonard McLaughlin and Herbert Whalen were between the points for the winners.

Mrs. Thomas H. Lawson Completes Making Of Remarkable Quilt

A wonderful work representing a period of several winters in leisure hours has been completed by Mrs. T. H. Lawson, of Princess street, a handsome quilt made up of 9,000 pieces of silk. She recently finished this task. Several years ago on a visit to a local exhibition Mrs. Lawson saw a quilt which took her fancy and she determined to have one like it, but the result of her work shows it to be far superior to that on display at the time.

BRUSSELS STREET HOUSE VISITED BY POLICE; FOUR ARE BROUGHT TO COURT

Policemen Gibbs and Kane raided a flat at 178 Brussels street last night between 12 and 1 o'clock, and as a result two men and two women with a baby in arms were taken to central police station and were brought before Magistrate Ritchie in the police court this morning. The prisoners pleaded not guilty. The police said that the house had a reputation for being disorderly, and they gave the women a bad name. Policeman O'Neill, who had been on the beat several weeks ago, said that he had often passed the house and heard cursing and swearing from within, and was nothing of the clinking of glasses. He said he knew one of the women when on the Sheffield beat several years ago. Policeman Gibbs said that there was no drinking in the house last night as far as he knew, and the only refreshments in evidence were periwinkles which all enjoyed with the exception of one of the women who expressed a violent dislike for them.

THE BLASTING

Contractor John Flood Gives Evidence

CASE IS GONE INTO

Suit For Injunction and to Recover Damages—Evidence Has to do With Nature and Effect of the Blasting Work

The case of the Provincial Chemical Fertilizer Company, Limited, vs. the Norton Griffiths Company, Limited, came up before Chief Justice McLeod this morning. This is a suit for an injunction to restrain the defendants from surface blasting at East St. John, and also to recover damages. At the outset F. R. Taylor, appearing for the defendants, said that his clients would admit their liability for any damage resulting from their blasting. He thought \$100 would cover the damage, but if the defendants were unable to estimate the same, his clients would be willing to repair in the usual manner, but not put up entire new buildings. Mr. Taylor also made this statement, thinking that it might effect the question of costs at a later date.

His Honor said that if there was any question of damages he would simply refer the matter to a master in chancery for assessment. The only witnesses examined this morning was John Flood who was called by G. Taylor, K. C., for the defendants, a little outside his turn on account of his leaving the city this evening on an extended tour. Mr. Flood said he did not wish to effect the burden of proof, or make the plaintiff assume something he was not called upon to assume, by calling the witness.

Mr. Flood said that he was a general contractor, and builder, and had to do with blasting for thirty-five years. He explained that surface blasting was simply putting the explosive on top of the rock, while in other cases holes were drilled to contain the explosive. The shallower the hole the greater the danger would be from concussion and flying rock, and in surface blasting, he thought the danger would be still greater. Blasting by drilling holes was much more expensive than the surface blasting, but was always possible.

Cross examined by Mr. Taylor, the witness said that he had had no experience in surface blasting and would not care to compare the two or say anything about surface blasting. He had seen large pieces of rock used in the breakwater. He said the reason he thought surface blasting would cause more concussion was because there would be no resistance from the rock and the atmosphere would have to take it all. He had never seen any work of this magnitude before and had never seen the explosive covered in large blasting operations, where there were no buildings in the vicinity.

Mr. Taylor—If you think the blasting at Courtenay Bay is so dangerous how is it that the steam shovel and plant adjacent do not suffer? Witness—I have often wondered how they were able to do that. Mr. Taylor—There would be very little steam shovel left. Re-examined by Mr. Flood, the witness said that there were boulders as large as twenty-five tons removed in the blasting at Courtenay Bay. These would have to be broken up before they could be used.

Adjournment was here made until twelve o'clock on next Monday. A. H. Hamilton, K. C., appeared with Mr. Flood for the plaintiffs.

MICHAEL J. BARRY IS DEAD IN BOSTON

Well Known as Livery Man and Hotel Proprietor Here

It was with a feeling of regret that the death of Michael J. Barry was learned of in the city this morning. The news of his death was brought to the city in a telegram from Mrs. Barry in Boston to relatives here, saying that Mr. Barry had died there this morning. Although he had not been in the best of health for the last few months, Mr. Barry's death came as a great shock to his many friends, who will extend heartfelt sympathy to his bereaved wife.

Mr. Barry was born in this city about fifty years ago, and was a son of the late Patrick Barry, who was engaged in stovering work about the harbor front. When a young man he entered the employ of Michael Blackall, livery stable owner, and was with him until he started in business for himself on the south side of King Square, about 1888. Three years ago Mr. Barry disposed of his stable business, and after a short vacation in the west, took over the Park Hotel, from which he retired last fall.

HEAD OF NURSES SAVES HOSPITAL AND MAY BE LIVES OF MANY

London, Ont., May 12—Miss Margaret Galbraith, formerly of the Royal Victoria Hospital, Montreal, saved the new Strathroy hospital, of which she was recently appointed superintendent, and the lives of many patients, when, single handed, she fought a fire which started a little before last midnight. An explosion of gasoline occurred where a sterilizer was being started, and as a few seconds a fierce blaze was in progress. Miss Galbraith seized an extinguisher, and not only kept the fire in the room where it started, but finally got it out.

DENOUNCED AS IMMODEST Women's Dresses and Latest Dances Receive Swiss Archbishop's Condemnation

Geneva, Switzerland, May 12—The Catholic Church, having condemned immodest attire of women, has carried the war a step further. The Archbishop of Besancon has issued a warning to parents, through all the abbots and curas in his diocese, which touches the Western Swiss Frontier, that in the future neither confirmation nor communion will be given to young girls who are dressed in the present extreme fashions, which in his opinion are indecent. Following is the order issued to the congregations: "Young girls must not have their arms naked, and above all they must not come to church décolleté. If the present ridiculous fashion continues we shall be obliged to make examples by refusing to admit to confirmation and the communion young girls dressed up in the images of the modes."
