Peigan Agency, MacLeod,
Dec. 2, 1907.

Ref. Your Letter 23 Nov. 1907, No. 24/20.

Sir,

With further reference to suicide of Manyan,
I beg to advise you that the coroner did not consider an in-
quest necessary; deliberate self destruction being very
evident .

The finding of jury mentioned in my letter
of former date had reference to the murders near Raymond.
Investigation by the police failed to establish the fact
that liquor had anything to do with the tragedy.

It was quite evident that though Manyan may have
been intoxicated when he murdered the three near Raymond
he was undoubtedly sober when he shot himself.

No one having any knowledge of the murders for
some time after, it is difficult to arrive at any reliable
conclusion as to cause.

Your obedient servant,

(sd.) E.H. Yeomans,
Indian Agent.

The Indian Commissioner,
Winnipeg .
