MANAGING COMMITTEE OF THE Y. M. C. A.—The regular monthly meeting of the managing committee of the Y. M. C. A., will meet this evening in the parlor at 9 o'clock to receive the reports of the committee and make plans for the work during next month.

THE PUBLIC SAFETY.—The board of public safety will ask the common council on the 17th inst., to give them authority to appoint a committee to investigate the matter of liquor being sold in the city after hours. They will recommend that Capt. Jenkins' pay be $1.65 per day.

LECTURE BY H. A. MCKEOWN M. P. P.—H. A. McKeown M. P. P. will lecture in the Y. M. C. A. parlor this evening on the "Possibilities of Youth." The Y. M. C. A. orchestra will play several of their best selections during the evening. The lecture is open to the public.

THE REFORMATORY.—At the meeting of the Evangelical Alliance yesterday it was decided that the mayor be requested to call a meeting of the citizens committee on reformatory matter. Rev. Mr. Bruce was added to the committee to wait upon the mayor with the object of trying to get the reformatory scheme in to working order.

THE SCOTT ACT CASES were called on before Justice Olive at Fairville, yesterday afternoon in the temperance hall. C. W. Weldon, Q. C., and C. N. Skinner, Q. C., have been retained by the liquor dealers. On the opening of the case Mr. Skinner, in behalf of his clients, made several objections to the proceedings, and an adjournment was had for one week.

THE SKATING RINKS.—Work has been commenced at the Palace rink to prepare it for winter use. The stage is to be taken down, the rooms fitted up in good style, and the rink flooded so as to have it ready for skaters very soon.

The Victoria rink has already been flooded and the windows were opened today to give Jack Frost an opportunity to make the ice.

A SHOOTING TRIP.—Dr. White has just returned from a shooting trip in Cumberland county, N. S., where he has been for the last three weeks. At the mouth of Apple River, the doctor shot a duck with a one bullet cartridge at a distance of 450 yards. A cow moose which he also brought down has been sent to this city, where it will be divided up among his friends. He intends presenting a quarter to the Union club. The moose was in the country market this morning.

ORANGE OFFICERS.—Johnston lodge, No. 24, met in the Orange hall last night and elected officers as follows: Wm. Simpson, W. M; Uriah Belyea, D. M; Geo. Shaw, chap.; M. A. McLeod, R. S.; Alfred Hodge F. S.; E. S. Thurston, treas.; Eli Northrup, D. of C.; John B. Nelson, lec.; John Woods, foreman of committee; Robt Wills, No. 2; J. R. Gordon, No. 3; Geo. R. Corey, No. 4; Wm. Rodgers, No. 5; Chas. Magaw, I. T.; Wm. Hodge, O. T. The officers were installed by County Master Geo. R Vincent, and the brethern partook of refreshments before separating.

THE STRIBOFF MYSTERY is yet to be explained by the scientific men of our day. It consists of a common mail-bag in which a small boy is placed, the bag being securely tied up and sealed and placed in the Davenport spirit cabinet which Prof. Barrael has on the stage. The bag is no sooner placed in the cabinet when the boy is instantly released without the ropes being untied or seals broken. Besides this and many more mysterious manifestations, there will be given the great test of twelve gentlemen from the audience trying to press down to the floor a large table that is floating in mid air. Prof. Barrael is to perform these wonders at the Mechanics' Institute tonight, Tuesday and Wednesday evenings. Popular prices are to prevail.

100 dozen cherry pipes at two cents each, bargain. Smoke Pace's Twist Mixture pure tobacco. Louis Green, 59 King street.

SPIRIT OF THE TIMES.

The Rifle.

The executive committee of the P. R. A. met yesterday. The lease of the new range was reported.

It was decided to have the range in the form of a continuous parapet of logs above the ground, seven feet high, 250 feet long, which, it was stated, would furnish space for 13 targets 12 feet apart. Ten of these will be sufficient for regular matches and three for specials. The material is to be hemlock, about seven feet at the base and five on top. The sash target will be adopted; that hitherto used has been worked with a lever.

A building to contain the secretary's office, a room for the executive and a place to shelter marksmen from the rain will be erected, and a verandah that will accommodate spectators. The present quarters have not been at all adequate.

Curling.

The first meeting of the season of St. Andrew's Curling club will be held this evening at the rink at 7.30 o'clock.

Foot Ball.

A cablegram from London says the Canadian-American foot ballists scored their eleventh victory Saturday, defeating the Swindon eleven by three goals to two.

Manager Wright and the rest of the Yale football management are said to be dissatisfied with their share of the receipts of the Thanksgiving-day game as tendered them by the Manhatten Athletic Club of New York. The Yale men think the attendance was much greater than the clubs figures show. Manager Wright was offered a check for $14,000, which is estimating on a basis of attendance of 22,000. The Yale management claim that there was an attendance of 32,000, which would make a difference in their receipts of about $5,000. The Yale men say that next year they will run the game themselves.

Copper in Albert County.

Some twenty-five years ago attention was first called to the existence of copper ore on the McKinlay grant, near Alma. A party of St. John gentlemen, numbering four, of whom Mr. James I. Fellows was one, visited the premises. The exhibit then consisted of specimens that had been turned over by Mr. McKinlay when ploughing his field. No vein had then been discovered. Some years later Mr. Fellows found on this farm a small cross vein of three or four inches and removed several tons of ore of a very fine quality, but owing to the narrowness of the vein, it could not be profitably worked, and was abandoned. Of latter date still, a boulder of about three hundred pounds, carrying about eighty per cent of copper was uncovered in a road ditch not many yards from the cross vein, and gave rise to numerous cuttings and tunnelling without finding the parent vein,—search for which was again abandoned.

During the past autumn the Mineral Developing Company of this city instituted a further search by an expert of wide experience in silver and copper mining, with the result that discovery has been made of a very broad and lengthy fissure vein of copper bearing quartz, extending for a mile or more across and beyond the McKinlay, Boyle and other grants, and supposed to carry the parent vein from which the cross vein is an off-shoot.

Newfoundland Must Pay Duty.

Last evening Collector of Customs Ruel received the following telegram from Ottawa:

OTTAWA, Dec. 7.—You are hereby instructed to exact from this date, under provisions of schedule B, tariff item 650 to 665 inclusive, duty on all fish and productions of the fisheries imported from Newfoundland.

W. G. PARMLLEE,
Assistant commissioner of customs.

THE CRUISER "ST. NICHOLAS" which has taken the Dream's place, left this morning for St. Andrews, where she will take in provisions. She is to be repainted and will look like a new boat when she comes to St. John again.

ATTENTION IS DIRECTED to the change in position of Messrs Barnes & Murray's advertisement. They appreciating the increased circulation of the GAZETTE have doubled their regular space, which will be found on the front page lower corner left side.

MESSRS J. & A. MCMILLAN will shortly publish the second edition of "A Word Book of English History" by Rev. J. DeSoyres M. A. It contains brief explanations of technical terms and phrases found in history, and will be of much assistance and interest to those who are giving attention to this subject.

THE NEPTUNE rowing club held their monthly meeting last evening. On Friday evening a meeting of the club will be held in Messrs. Vroom & Arnold's office, Prince William street, at 7.30 o'clock. A full attendence is requested, as the business of arranging plans to secure money to build the new boat house that is to be erected this winter is to be taken up.

POSES PLASTIQUE.—Those who admire classical work should go to the Opera house Dec. 10. Representations of ancient Greek statuary will be given by six young ladies in costume. Tableaux arranged by Miss Alexander and presented by her pupils. The whole programme will prove interesting and instructive, and the school of music, should be encouraged by a large audience.

AT CHAMBERS.—Before Judge Palmer, on motion of Mr. Alward, the habeas corpus application re Andrews, the alleged train wrecker, at Sussex, was taken up and partially proceeded with, but, his honor requiring further information, the matter stands adjourned till 10 a. m. Thursday.

On motion of Mr. A. W. Macrae, for A. M Ferguson, Judge Palmer issued a writ of habeas corpus returnable this afternoon. The ground of the application is that Ferguson was attending before Mr. Earle for examination; while so attending he was arrested under a county court writ. Ferguson was discharged, the arrest being illegal under such circumstances.

SPIRITUALISTIC PHENOMENON AT THE INSTITUTE.—The twelve gentlemen who went up on the stage to discover the secret of Prof. Barrael's powers went back to their seats as thoroughly mystified as they were confident when they went there to make the discovery. Every one went away well pleased with the fine entertainment given. The professor is certainly very quick, and it is hard for the average mind to understand how he takes off the handcuffs and ropes, then takes off a coat, puts on another borrowed from a gentleman in the audience and when the cabinet is opened and an examination made be tied just as securely as at first. Yet this is what was done last night. To-night the great "Striboff Mystery" so called will be given for the first time. The prices are popular and Prof. Barrael closes his engagement to-morrow night.

No Proper Berth for the Steamer.

The Steamer Duart Castle arrived today from the West Indies and could not get a proper berth at which to discharge her cargo. A berth with warehouse accommodation and railway connexion on the eastern side of the harbor was required, but the only berth possessing these advantages was occupied by the ship Kelvin which is discharging a cargo of sugar there for the Moncton refinery. In discharging the sugar the warehouse is sometimes used when there is not a sufficient supply of cars on hand to take the sugar away as fast as it is hoisted from the vessel. As there has been plenty of cars this time the warehouse has been required very little. Mr. S. Schofield, agent for the West India Line, desired to get the berth for the steamer Duart Castle. Mr. Robertson, of the I. C. R., was willing to give it to the steamer but could not order the ship away. Messrs Wm. Thomson & Co. the consignors of the Kelvin would not consent to have the ship moved to the end of the wharf because they contend that the end berth is not a very safe one for a wooden vessel at this time of the year and that she would chafe too much there. The harbor master was applied to but stated that he could not order the ship away.

Mr. Schofield says that if the railway extension was completed the steamer could discharge at the corporation pier, but at present there is only the one berth having warehouse accommodation with railway connexion and if they are not sure of getting it for the steamers it will become necessary to inform people abroad that if they ship freights to this port for transhipment by rail it will be at the risk of having it landed at a city warehouse without railway connection and where the topwharfage and cartage must be incurred before the goods can be transhipped.

This I. C. R. berth on the eastern side of the harbor where the Kelvin is now discharging sugar and the C. P. R. berth on the western side where another cargo of sugar is being discharged are the only two berths for vessels in all St. John where there is the proper warehouses and railway accommodations for handling the cargo of a large steamer. There is a railway track to the warehouse on the New York pier but the warehouse is not large enough for the purpose required and has until recently been in constant use. It is stated that Halifax possesses over thirteen berths for steamers, all of which are provided with the necessary warehouses and railway accommodations.

Police Court.

William Kee, aged 25, was fined $4 for being drunk on Sydney street.

Andrew Irvine, aged 24, was fined $4 for being drunk on Sheriff street.

Richard Merrick, Patrick Murray, and John Cain, arrested yesterday afternoon for raising a disturbance in Mrs. Walsh's bar room on Brussels street, also for beating the bar tender, Frank McCullough, and breaking a large window were fined $10. The bar tender did not wish to press the charge. These three men went into the bar room yesterday afternoon about 2.30 o'clock and asked for drinks. It were given to them and as soon as they drank it the bar tender asked for his pay but the men made for the door. The bar tender then caught hold of Merrick and demanded his pay, but the three men threw the bar tender on the street and began beating him with their fists. When Merrick saw the officers coming he paid for the drinks and paid the bar tender 50 cents for the glass he had broken. Officer Caples arrived and arrested Merrick who resisted violently. The row gathered a large crowd.

Edward Hickey was reported by the police for keeping his store on Main street open after prohibited hours.

Albert County Mining.

The general disfavour which met the mining act of last session is fast being removed.

The surveyor general by holding enquiries in the counties, thus affording the owners of the lands or those in any wise interested an opportunity at their own doors of resisting the application of speculators instead of having to appear at Fredericton with witnesses involving much expense is doing a great deal towards bringing the new act into favor.

An important inquiry was held recently at Hillsboro. The prospective value of the property applied for created considerable local interest. The contestants were J. D. Wolf Spurr of St. John and C. A. Peck of Albert County. The business was transacted under the 138th section of the act. The rights of the owners and those of Mr. Peck as assignee seemed to be protected, and the general impression was that the license must go to Mr. Peck and his associates.

The property was advertised.

The Floral Concert.

A very large audience gathered in the Opera house last evening to witness the floral cantata, the music of which had been arranged by Mr. Morley McLaughlan. The object of the performance was to obtain funds for the completion of the nurses' home and we are glad to learn that this object has been completely fulfilled. The performance itself was a very pleasing one, and the hundred or more young ladies and little girls who took part in it presented a fine appearance. All who were present thoroughly enjoyed the performance, and as the demand for seats was so great that it could not be met last evening, the affair was repeated this afternoon at 2:30 o'clock. Lady Tilley is entitled to the thanks of all our citizens for her spirited and successful efforts in behalf of the nurses' home.

Among the Shipping.

Schr. Newburg, Capt. Marsters, at New York from Windsor, reports Dec. 4th., 8 p. m., while at anchor off Captains Island, was run into by an unknown two-masted lumber laden schooner, carrying away foretopmast, and all head gear. Also lost anchor, and 90 fathoms of chain.

The bark Countess of Dufferin, Capt. Doble, sailed at 4 o'clock this morning for Londonderry. This is probably the bark reported outward from Point Lepreaux at 9 o'clock.

Steamer Duart Castle, Capt. Harrison, from Demerara, West India Islands, and Bermuda, arrived in port about noon today, and anchored in the stream. She will probably discharge at the Intercolonial wharf as usual.

The Bar Harbor steamer at Bangor yesterday reports a three-masted vessel sunk off Cranberry Isles during the gales of Saturday morning. The sunken vessel belongs to Nova Scotia, and is loaded with 1,900 tons of plaster for New York.

RING FOUND.—A gentleman found a diamond ring on King street this morning. Owner can have same by applying to James B. Gillespie, 14 Chipman's Hill and proving property.

Went on a Big Time.

Edward Washington and William Lang, sons of two well known and respected restaurant keepers, went on a big time last night. They were in the habit of visiting Albert Hodge's house on Duke street, when they were sober, and spending a joyful evening. Last evening they spent a more joyful evening raising Cain and beating Mr. Hodge's wife. Harrison Thompson, who boards at the house, got hurt also. Mr. Hodge was away at the time of the disturbance. Mrs. Hodge and Thompson laid information at the police court this morning against these two young gentlemen for beating and assaulting them in their house on Duke street. The case will come to-morrow morning at 10 o'clock.

Equity Court.

In this court Judge Palmer in the case of Jones vs Jamieson made the usual decree of sale. The hearing of the main case in McLaren vs Grant has been set for Thursday at 11 a. m.

IT IS DRAWING
near Christmas and you should not forget to keep an eye out for a place to buy a serviceable gift that will be thankfully received and cherished in years to come.
OUR PLEASURE
is almost lost when we attend the New Opera House and cannot plainly see everything on the stage, all because we are not the happy possessors of a pair of Opera Glasses.
AT A DISTANCE
we all know it is very difficult to distinguish objects. Yet we strain our eyes and keep on squinting until we are compelled to buy not only a pair of Opera Glasses, but a pair of Spectacles.
REMEMBER THIS
or it will be too late to save your eyesight, and too late to have a first choice of the fine large stock shown at my store.

COAL.
SPRINGHILL COAL ex "Mary C."
THIS COAL has no superior as a Stove Coal, makes less soot then any except Acadia, will keep in all night, and carry a longer flame than any other coal. Try it!!
PRICE LOW.
$4.75. We are taking orders for Victoria Sydney to arrive at this price.
R. P. & W. F. STARR.

RESERVE.
LANDING ex barque Ashlow, at Robertson's Upper Wharf 900 TONS above House Coal.
The only Coal mined in Cape Breton that does not make soot. The Reserve Coal makes a strong, lasting fire. We do not claim impossibilities for it; but we do say that it is far superior to any other coal brought to this market. The coal is fresh mined, double screened, and all orders will be filled with coal entirely free from slack.
We do not recommend our customers to use a coal which burns so quickly that it almost keeps a person busy putting it on.

A STRONG SUPPORT.
Furniture that is not pleasing to the eye is fit for nothing but a barn. Elegance is one thing and strength is another, but there is not the least reason in the world why the two should not go together in furniture. To say that a thing is cheap does not necessarily make it cheap. To say that our furniture is cheap scarcely does it justice. Take our $26.50 Bedroom Outfit as an illustration, which is about one third less than you would have to pay for the same articles elsewhere. An equally forcible illustration of cheapness is our $40 Plush Parlor Suite.
