MINERS AND

Steamer City of Seattle Reaches Port With a Crowd of Returning Goldseekers.

Swiftwater Bill and Sailor Bill Among Her Passengers-The Scroggie Creek Finds.

What the Discoverer Has to Say-The American Tug Wulloa on Mary Island.

steamer City of Seattle reached the wharf from Alaska about one ock this afternoon. She had on board ast number of Klondikers, miners points along the river, from Atlin, from Cook's Inlet and the Copper strict. There was, it is estimom \$100,000 to \$150,000 in aboard—Purser Thorndyke had district. \$70,000 to \$80,000 in his care. The dikers, who were the last continof the crowd which reached Skagabout two weeks ago, numbered g them some who have become notorious and are known to all have heard of the Klondike, among being W. C. Gates, or "Swiftwater, or "Slackwater Willie." The latname seems to be mostly used now although he still wears as many diais of yore, Swiftwater Bill is no 'Swift." Gates is a little man black suit, a long frock coat, and ordinary appearance. He has gold he had, although he talks uch as ever of his vast fortunes in old fields. A story was told by pasgers who came out with gers who came out with ill ran up against a freeze-out game White Horse on his way out and left 1,000 behind him. Gates is on his way of San Francisco. He will call at his palace in Oaklands, where he will reside this winter with Mrs. Gates, who will peaking of his cure from this terrible malady. "I am 35 years of age and live on the old house stands where I was horn, and have lived always since, and have lived always since, and who came out with him that

found on August 28th last. Stephens, who is a young man and a graduate of an Eastern mining school, says that the manner in which Scroggie creek was located was by simply studying the country and following up the mineral indications to the dome. He has an intergrating the country and following the country and following the more states. esting theory regarding the northern placer formations, and believes that the The coast range is a quartz pro-The Koyakuk, the Kloudike, the Stewart, for a portion of the distance, he Coeur d'Alene, the placers of Cali-ornia and of South America, are all the middle range, and just as soon the prospector works out too far towards the Rocky mountain range, where ey approach the middle range, sure does the miner find himself f the mineral belt. That is why so many men have found nothing on the ewart. They go up the river for a andred miles or so, and then follow up me stream towards the Klondike and nothing. In the northern country the placer comes from domes. At all the gold in that region comes the Bonanza dome.

Talking of his prospecting on the stewart, he said that as soon as the sarty reached there they found good intions—magnetic sand, mica, schist granite—and followed the lead ty-eight miles up the river, on the side, they came to the creek which Stephens named Scroggie creek. owing this creek for 20 miles they ound the Scroggie dome. They put own a hole and took out an average of to the pan in coarse gold. They news got around there was a stamthe country, and when Mr. phens left there were fifty-five cabins

and over 350 people will winter the discovery.
While Mr. Stephens was on his way at work.

Stephens tells of other finds, a strike having been made on Ex-

near the customs house, at 3 o'clock on the afternoon of Tuesday last. She was fast on the rocks when the Seattle left, and it is a matter of speculation whether she will be saved. It was high water when she ran on, and the falling water left her very fast. She was on

her way down from Skagway with the bark Columbia in tow.

The tug Resolute, which is towing the bark Mercury and the hull of the wrecked Whitelaw down, was lying in Safety cove when the Seattle passed Passengers from the Atlin country brought news of the discovery of the body of a dead man on Taku arm, about four miles from Taku City. The body was on the beach about forty feet from the water, having evidenty been washed un washed up.

The miners from the Copper river say that Captain Abercrombie, U.S.A., of the Copper River Exploring Expedition, had arrived at Juneau with the remainder of his command. He predicts a own party discovered anthracite and bit-uminous coal in quantity. Captain Ab-ercrombie says the general disappoint-ment of the past season has been due to the fact that men who should never the have left the plow handle, most of them grubstaked, undertook what they were incapable of performing, weakened, and remained in camp.

## An Epileptic Sufferer.

A FENELON FARMER TELLS OF HIS REMARKABLE CURE.

s winter with Mrs. Gates, who will a her husband there. He will go to ondon and Paris later in the season of return to Dawson next summer. Another man who is well known is stewart, of Nanaimo. It was he who was robbed at Skagway by the Soapy Smith element, and it was due to that robbery that the purging of Skagway, which resulted in the death of Soapy without any known cause and without any known cause and without any warning t was stricken down with which resulted in the death of Soapy and the running out of his friends, be gan.

Still another passenger who, if not as widely known as the others, is "Sallor Bill," W. J. Partridge, the Australian who for some time ran the hotel of that name in this city. He dooked as well as ever as he stepped off the gangplank with a big fur hat surmounting his furrowed countenance and decolette scarlet shirt peeping up above his vest. If reports be true, he has done very well in the Klondike country for Swiftwater Bill, in an interview with the Times, said that he had paid Partridge \$10,000 for a claim on Quartz creek. Partridge is said to have several wealthy properties on that creek. Another passenger well known in this city was J. D. Milligan.

The Dawsonites bring news that ice is thickening on the river below the White Horse. The Verkin and Laure. The Dawsonites bring news that ice is thickening on the river below the White-Horse. The Yukon and Lewes are noted for the suddenness with which they freeze, and those who start out from now on may find themselves imprisoned by the ice. A number of parties are said to have left Reports to prisoned by the ice. A number of parties are said to have left Bennett to take chances on getting through before the river freezes.

The day before the Seattle left there was a heavy fall of snow all along the coast and the mountain, ranges were covered.

A number of parties who had experienced curse from other reemingly incurable aliments, to try them. In November, 1896, I commenced and kept on taking them regularly for a year. The day dealed period passed again and again without a repetition of my trouble, and I felt that I was at last released News is given by J. Griffith Stephens, a mining man of Montreal, of the new finds on Scroggie creek, a tributary of the Stewart, about 20 miles from its mouth. This is the strike which has created such marked excitement at Dawson and caused a stampede from the Klondike district. Mr. Stephens, who went in last year with the party of Montrealers headed by E. B. Scroggie a Montreal dry goods man, is the who went in last year with the party of Montrealers headed by E. B. Scrogie a Montreal dry goods man, is the discoverer of Scroggie creek, which he found on August 28th last. Stephens, who is a young man and a graduate of who is a young man and a graduate of the scrope wings general agreement of the scrope with the green agreement of the scrope with the party of the scrope with the party of the scrope with the party of the scrope with the party of the scrope with the party of the scrope with the scrop

placer formations, and believes that the finding of gold on Scroggie demonstrates that his theory is correct. "As everyone knows," he said, "there are three great mountain ranges splitting the western portion of the continent—the Rocky mountain range, the middle range and the coast range. It is in the middle range that placer is found. You can follow this range from the Arctic ocean Dr. Williams' Pink Pills cure by going range that placer is found. You can follow this range from the Arctic ocean into South America and find placer addressing the Dr. Williams' Medicine Co., Brockville, Ont.

Pain from indigestion, dyspepsia, and too hearty eating, is relieved at once by taking one of Carter's Little Liver Pills imme-diately after dinner. Don't forget this.

WILLIAM AT BEYROUT. Beyrout, Nov. 5.—The Emperor and Empress of Germany arrived here to-day, but hey will remain on board the imperial racht Hohenzollern until Monday, when they will start for Damascus. The heat is tropical. Before embarking at Jaffa Emperor William promised protection to the German colonists at that place, who cheered his majesty enthusiastically

#### Consumption a Disease of the Blood.

In the blood of a consumptive there a foreign material, which does not exist in that of a healthy person, and where this substance is present there is a loss which is the Latin for a small swelling. In the lungs the tubercles produce at first irritation and cough. Tuberculous matter in the lungs rots the blood vessels, giving rise to bleeding of the lungs, and mixing located several good quartz claims copper ledge about a mile and from the Yukon, near Five Finand hectic fever. As the existence of the with the circulation, causing night sweats and hectic fever. As the existence of the tubercular matter in the system may be directly referred to the poorly and diseased ever gets into the courts the syndicate The one ran an ounce and 80 tubercular matter in the system may be dissin gold and 30 per cent, copper.

N. A. T. T. Co. have a group of condition of the blood, the first aim should mean by and a force of fifteen by and a force of fifteen be to enrich and purify this life-giving fluid, and with this end in view, and confident that a cure for consumption and all pulmonary complaints has been discovered or creek. He has a claim on Sona pup of Selwin creek. He says 150
winter there. Other strikes have
reported from Thistle creek. Tulare

Capt. Worsnop Leaves for England to Interest Capital in Development of the New Goldfields.

Next Summer.

The failure of the merchants of Victoria and other of the Canadian coast cities to profit to a greater extent from the Klondile much because in the control of the country the Klondike rush has not been lost upon them, and next spring when the tide of the gold seekers sets in to the newer ields of Atlin take and Pine creek, it great future in mineral and some of fields of Atlin lake and Pine creek, it agricultural development for the Copper will find the dealers of this city, at least, agricultural development for the Copperiver valley. He knows that coarse gold has been found, and states that his own party discovered anthracite and bitoms. The last two issues of the B. C. Gazette have contained notices of applications to be made at the next sitting of the house. One of these embodies a scheme to construct a railroad from Kamloops to Atlin, while a more recent notice contemplates the less pretentious one of a road from the outlet of Pine creek on Atlin lake, to a point where it joins the Surprise lake. Both charters ask for the privileges and powers for the respective companies usually be

Stowed in such cases.
One of the leading spirits in connec tion with the projects for opening ap the Atlin country is Captain Worsnop, who has been the agent at Bennett of the Chilcoot Tramway Company, and At Regular Intervals He Was Subject to er man the magnifude of the trade which Fits, a d Doctors Told Him The

From the Ma ady.

Trouble Trouble Trouble Trouble Trouble Was Incurable—Now Free

From the Ma ady. supplies passed through als hands of require for Dirvson. At Canadians are not prompt in seizing the opportuntes which the new gold fields afford Capt. Worsnop predicts a repetition of the Klondike business, so far as the relative prom of the Theresean and Canadian shipping houses is concerned. It is for the Dirpose of arging the importance of establishing branches at Bennett, to which shippinens could be made from here, that Capt. Worsnop is now interviewing the merchants of Victoria.

But he is not stopping at this. He will shortly leave for England, where among the manufacturing centres of Yorkshire and Lancashire, he hopes to enlist a large amount of capital in his enlist a large amount of capital in his cantry how ab washed his first

collist a large amount of capital in his schemes.

Already the company with which he is identified have decided upon the construction of two large screw steamers, about 60 feet in length, one of which about 60 feet in length, one of which which he was not attracted to the saketchewan, where he washed his first dirt; from that river he drifted north to Edmonton and struck overland to the Peace river country. The party had built and launched their boats and were will raily at Athin, and the other on Surwill ply at Atlin and the other on Surorise lake. As soon as the surveys can be made construction work will com-

mence between Taku Arm and Atlin, and a framway hurried to completion between these two points, a distance of about two miles. This will be the first road built, but it will be immediately followed by the construction of a line from the outlet of Pine creek on Atlin from the outlet of Pine creek on Atlin, following the course of the creek to a point where it joins Surprise lake, a distance of about 20 miles. Whether these rands will be operated by electricity or steam, or whether they will be aerial trainways, will be decided upon after the surveys are made. The steamers alluded to it was at first intended to have built in London, Eng., but it is possible that the contract may be let in

Captain Worsnop has implicit faith in the country, and says there is now no country in the world offering such re-turns for investment and that the next five years will afford ample opportuni-ties for men with sufficient good sense to take advantage of them. He says that, country has the alluvial mines to at tract, the quartz mines to retain, and the farm lands to support a large popu-He believes that there will lation. trade sufficient to warrant the step he and his associates contemplate, and that the construction of these roads and steamers will materially aid in developing the country. He was the originator of the Bennett Lake and Klondike Nav igation Company, and like all the schemes with which Capt. Worsnop has been connected, it has been a complete

Almong those who are associated with him in the venture are Fred White, of the V. Y. T. Co., and Lyman P. Duff, barrister, of this city. Capt. Worsnop's brother, who was in the city a few weeks ago, has already gone to England, and is probably by this time in Manchester, taking the preliminary steps to interest capital to properly finance the schemes.

RIVAL CHARTERS CLASH. V., V. & E. Charter Owners are Obstructing the C.P.R.

The holders of the Vancouver, Vic toria & Eastern railway charter are evidently getting into deep water, and as this railway project was a sort of side show to ex-Premier Turner's political spectacular, the managers of it cannot expect much assistance from the Sem in administration, says the Nelson Min-

The V., V. & E. railway charter was secared by its owners for speculative purposes. They gave an option on it to Messrs. Mackenzie & Mann, who were supposed to be acting for the Canadian Pacific Railway Company. By the terms of the charter actual operations were to have been commenced in August last and continued till the work was completed. Some time after the secur-ing of the V., V. & E. charter the Canadian Pacific Railway Company secured the Heinze railway interests, including the Columbia & Western railway charter, which covers about all the Boundary Creek section which the big railway company purposes to reach. The acquisition of this charter has rendered the V., V. & E. charter comparatively valueless to the C.P.R. and it is said that the ollowing this creek for 20 miles they and the Scroggie dome. They put of strength and vitality. When in the blood, its particles are small and are to the pan in coarse gold. They ashed out quite a little and filed over asovery and came out. As soon as sovery and came out. As soon as sovery and came out, as soon as sovery and came out, as soon as sovery and came out. As soon as sovery and came out, as soon as sovery and came out. As soon as soon as sovery and came out, as soon as sovery and came out. As soon as sovery and came out, as soon as sovery and came out. As soon as sovery and came out, as soon as sovery and came out. As soon as sovery and came out, as soon as sovery and came out. As soon as sovery and came out, as soon as so air cells of the lungs, forming tubercles, to prevent the Canadian Pacific Railway Company from building into that section by securing an injunction preventing it from encroaching upon the V. V. & E. territory, which generously in-cludes an area of 100 miles from Pentic-

charter speculators may find that they will come out at the small end of the horn in their efforts to prevent a bona fide railway company from doing that which admittedly they are unable to do themselves. They have admitted that they will be unable to undertake the work for which they have secured a provincial subsidy of \$4,000 per mile unable to the secured a provincial subsidy of \$4,000 per mile unable to the secured a provincial subsidy of \$4,000 per mile unable to the secure of less they receive an additional subsidy from the federal government, and it will require more stretching than their charter will stand to persuade any sane man that in having an engineering party News is brought by the Seattle of the Address. The T. A. Slocum Chemical Co., Toronto, giving express and postoffice with the condition of commencing actual construction and continuing such operations.

MORE SMELTERS.

The Miner is pleased to announce this morning that Pilot bay and Golden will soon be the scenes of extensive smelting operations. It is expected that the Pilot lay works will resume smelting as soon as they can be supplied with Fernie coal via the Crow's Nest Pass. The plant consists of a modern 125-ton concentrator and a lead stack with a capacity of about 150 tons per day, and it is one of the best of its kind ever built. Pilot bay is in the very heart of the Kotenay galena belt, and situated as it is on the shore of Kootenay lake, is easily accessible from every silver-lead mine now being worked in southeastern British Columbia. The inauguration of a cheap fuel supply and the stiffening of the price of silver are, doubtless, the chief reasons for the resumption of operations. By/careful management it is possible for the Pilot bay people to complete under existing conditions with the American smelters. Of course Pilot bay has the advantage over Omaha, Helena, Everett and Pueblo in the matter of freight rates, but the 2 1-2 cents per pound duty on lead buillon shipped into the United States is a very severe strain on the prodits of the local enterprise.—Rossland Miner. soon be the scenes of extensive smelting

has been closely confined in the Chirchemidi military prison, will be released to-day.

FROM NEW ZEALAND.

Reefton, New Zealand, Nov. 23, 1896. I am very pleased to state that since I took the agency of Chamberlain's medicines the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good results they have received from it, and know its value from the use of it in my own household. It is so pleasant to take that we have to place the bottle beyond the reach of the children.

THE TWO NAVIES.

C. P. Wolley, who returned from the Stlkine river country a few days ago, was interviewed at Wrangel by the Stlkine River gountry a few days ago, was interviewed at Wrangel by the Stlkine river country a few days ago, was interviewed at Wrangel by the Stlkine river country a few days ago, was interviewed at Wrangel by the Stlkine river country a few days ago, was interviewed at Wrangel by the Stlkine river country a few days ago, was interviewed at Wrangel by the Stlkine river country a few days ago, was interviewed at Wrangel by the Stlkine river country a few days ago, was interviewed at Wrangel by the Stlkine river country a few days ago, was interviewed at Wrangel by the Stlkine river country a few days ago, was interviewed at Wrangel by the Stlkine river country a few days ago, was interviewed at Wrangel by the Stlkine river country a few days ago, was interviewed at Wrangel by the Stlkine river country a few days ago, was interviewed at Wrangel by the Stlkine river country a few days ago, was interviewed at Wrangel by the Stlkine river country at the had been in this country in the had been in this country in the had been in this country only one year, and being heavily interested here he made it a rule not to talk much about the countr as we are satisfied that the country will just'ty us in building it and not before. As I said before, we are satisfied as far as we have gone."

. KIDNEY-BLADDER TROUBLE.

There is no more serious menace to good health in the present age than Kidney disorders, and it's an appalling fact, but a true one, that four-fifths of the country's eople have the taint of this insidious di-ease with them. Dr. Chase's Kidney-Liver Pills cure all Kidney d'seases.

ASKING FOR MONEY. Witnesses in Bella Adams Case Claim Payment for Time They Allege They Lost.

Some of the witnesses in the Be Some of the witnesses in the Bella Adams case who were subpoented by the crown are making complaint that they have not received from the government the compensation to which they think they are entitled and which they claim was promised them. The morning paper publishes a statement of the men's claims, and a Times man attempted this morning to discover how much of that statement is

Attorney-General Martin is at present out of the city attending the assizes on the mainland in his official enpacity, and it is therefore impossible to obtain the facts as they are known to him. It will however, be remembered that the witness Atkinson is the man whom the presiding index criticized as severely and it will Atkinson is the man whom the pressung judge criticized so severely, and it will also be remembered that Mr. Gregory, at the trial, urged that it was quite evident that all the four witnesses referred to in the statement publ'shed this morning were really witnesses for the defence, and had carefully and studiously nisled the crown with the express purpose of having them. carefully and studiously misled the crown with the express purpose of having themselves called by the crown so that they could not be cross-examined. It is stated by some of those likely to know that this action was dictated by another consideration, viz., to assure themselves of receiving expenses, which they could not have received from the defence, for the received that we herewithal was not forthon that the wherewithal was not forth-

coming.

A Times man learned this morning that while the police did agree to guarantee the board and lodging of Beaven and another witness at the Grand Pacific hotel, it was ascertained that the witnesses at the control of the cont tel, it was ascertained that the witnesses did not board nor lodge there at all, but took the amount out in cash and a certain amount of liquid refreshment. But so anxious was the attorney-general to do what was guaranteed that an effort was made to find where Beaven did board, and when it was found that the Empire hotel proprietor was a creditor for the amount of one week's board for Beaven the amount was paid. of one week's board for Beaven the amount was paid.

After the manner some of the witnesses were scored in court, it would, in the opinion of most of those talked to this morning, have displayed better discretion on the part of the men had they allowed the matter to drop, for, it is asserted, there will be little difficulty in proving that the court of the men of the part of the part least were employed. that some of them, at least, were employed and in receipt of wages during a portion, at any rate, of the time for which they are claiming to be paid by the gov-
