BASKET BALL

PORTLAND V. M. A.'S DEFEAT ALGONQUINS.

The St. Paul basketball team sprang a complete surprise on the local followers of the game last night by defeating the Marathons, the score standing 19 to 15.

The other game of the evening was between the Portland Y. M. A. and Algonquins.

The games were played in St. Paul's gymnasium. A large crowd was present at the matches and increased interest is being taken in the games.

The players are also showing the result of practice. As a result the play is much snappier than at the beginning of the season.

The teams lined up as follows for the first game:

Marathons, 18. Forwards: T. Ledingham, Gandy, J. Ledingham, Centre, Stubbs, Defense: Birmingham, Crawford, Sande, Thorne, Robinson, Anderson, Sande, Thorne, Robinson, Anderson, Sande, Thorne, Robinson, Anderson.

The second game was a good one, and by it the Portland Y. M. A. have practically won the league. They play one more game with St. Paul's. The teams lined up as follows:

Portland Y. M. A., 18. Algonquins, 10. Forwards: D. Roberts, Coram, Centre, Chase, Howard, Defense: Finley, Wilson, Thorne, Robinson, Anderson, Sande, Thorne, Robinson, Anderson, Sande, Thorne, Robinson, Anderson.

ROLLER SKATING

CINCINNATI, Jan. 30. — Harley Davidson of St. Paul won the five mile championship at Mason Hall tonight in the international roller skating tournament.

Time, 15:15.5. There were six skaters. James Henry held the lead until the beginning of the third mile, when Davidson swung in ahead, retaining this advantage until the finish.

Albert Cookson of Boston, Louis the champion, finished second, and Oscar Naumann of Detroit third. There was a very large attendance.

ON THE ALLEYS

R. J. NORTON WON.

In Black's bowling alleys last night the monthly roll off resulted in favor of R. J. Norton, who ran up a score of 194. There were twenty-one contestants, and up to the last frame the game was very close.

The night there will be a match between the Ramblers and North Stars.

HOCKEY.

MARATHONS DEFEATED SUSSEX LAST NIGHT.

SUSSEX, Feb. 4.—The hockey game this evening resulted in another defeat for Sussex, though at the end of the first half the Sussex supporters began to feel sanguine. The score was 4 to 2. Mooney shot a goal for the Marathons five minutes after the game opened. Sussex then got into the game, and Doyle scored from a nice combination.

Coggon netted another for the home team before the half ended. The second half was fast and furious and rough play was plenty on both sides, five men being off the ice at one time. The Marathons' defense was good and many hot shots were stopped. St. John scored again early in the half, and shortly before time was called two more goals were shot. The Sussex defense was seemingly equalled. M. W. Doherty refereed.

EXPECTS A FORTUNE IN GRASSHOPPERS

Maine Man Takes a "Tip" From a Fisherman and Lays in a Big Stock.

LEE, Me., Feb. 4.—What he believes to be a new road to riches has been discovered by James Ludgate, a farmer living north of here. If it doesn't pan out, Mr. Ludgate will be extremely disappointed, particularly as the experiment has already cost him \$14.

Last spring a city business man had him here from fishing, declared that if he could only get some grasshoppers he would be willing to pay liberally for them, as he believed they would prove great bait along the trout streams. He pointed out the fact that trout could always obtain plenty of worms and flies when the season opened, but that they had to wait until August for grasshoppers. He would be willing to pay two cents each for some, and he knew scores of other fishermen who would give as much, he said.

This set Mr. Ludgate to thinking, and when grasshopper time came he hired all the boys in the neighborhood to catch the insects at the rate of one cent per dozen. He sent his own children out in the fields, and when the crop had been gathered he possessed about seventy-five thousand hoppers of all kinds, ages and sizes. As fast as the insects were taken they were placed in a corncrib, which had been made airtight by pasting paper over the cracks. The crib was then filled with hay and banked with leaves to keep it warm within.

Thus far during the winter the grasshoppers have stood the cold, and Mr. Ludgate sees no reason why they should lose more than ten per cent, by spring. Having made up his mind to now making boxes in which to ship the insects when the fishermen want them, he can get two cents each for the hoppers he will make about \$1,200.

CONSERVATIVE CONVENTION.

OTTAWA, Feb. 4.—It is said that there will be a big Conservative convention in Ottawa next summer. It will be held, so the report says, at the Canada Central Fair, when a large number of people will be in the city. Last year there was to be a convention in Winnipeg but it fell through.

GOLD SHOULDER TO THE COLONIES

No Liberal Expression of Sympathy With Their Aims — Balfour on Fiscal Reform.

LONDON, Feb. 4.—Right-Hon. Arthur Balfour, speaking at Hull, said that monthly bulletins of his opinions were not needed, as they were not subject to monthly variations. Further, he thought that study of the fiscal question but confirmed the opinions he had already expressed. He asked whether it was not a serious thing that colonial ministers were coming here in a few weeks, and the party in power had not one little thing publicly indicating that they sympathized with the means, which the great self-governing colonies pressed for carrying out the unification and solidification of the Empire.

He added that he could not accept the policy of driving every Unionist into a single orthodox fold of fiscal reform. There remained the main constructive plank of the Unionist programme, but let them not become a party of one idea, because if they did, they would fall to carry even that idea to a successful issue.

The Times, apropos of Mr. Balfour's speech, having remarked on the hopefulness of conversion of many Liberal ministers, said that it was not certain as some appear to suppose that tariff reform will remain the monopoly of the Unionist party. Among unlooked for changes in the near future it would not be wholly surprising were considerable alterations to occur in the aspect of the controversy. Tariff reform may emerge from the grouping of political atoms markedly different from that in which the movement had its origin.

MILITARY TRAINING FOR DALHOUSIE STUDENTS

HALIFAX, N. S., Feb. 4.—A movement has been worked out during the past year between Lieutenant-Colonel Ward of the Royal Canadian Engineers, and the engineering department of Dalhousie University, under which an engineering corps of the Dalhousie College University Engineer Company, is to be formed among the engineering students and the general organization will be similar to that of cadet organizations.

It is proposed to organize similar companies at other universities and colleges of the different colleges in Canada along the same lines as those of the Dalhousie University Engineer Company.

Dalhousie University Engineer Company will assist in maintaining the defence of the city, and in the event of a military emergency will be called upon to perform the duties of a battery for exercise.

An officer of the Royal Canadian Engineers will be in charge of the instruction given to the students, and the engineering camp attended by the engineering students, forty of whom have enrolled.

CANADIAN LITERATURE.

A most attractive programme was furnished last evening at the St. Stephen's Church Guild. The subject for the evening was "Canadian Literature." Hon. C. N. Skinner gave an able and interesting address. The judge said there never was and never would be a Canadian literature, there never was a literature of Greece. Literature led people out beyond themselves and when they got their places in the world and is useful to the whole world. He referred to the Pentateuch as the first literature containing the ten commandments which could not be limited to any nation any more than the sun could be limited. Literature is a Canadian or an American but it belongs to mankind and nations must take a back seat and witness the progress of the world. The songs of Longfellow belonged to all nations. Canadian literature, there never was of the greatest works of literature have been written by Canadians but belong to the world. That did not write with other blessings such as health, etc., and made a strong plea for their protection.

Miss Trueman read a selection from Bliss Carman and Mrs. Patterson a selection from Drummond.

Two patriotic choruses were rendered by the children and solos were sung by Miss Nane and S. J. McGowan, each of whom kindly responded to an enthusiastic encore.

At the close a hearty vote of thanks to Judge Skinner for his splendid address, which was listened to with close attention, was moved by R. G. Leavitt and cordially tendered by Douglas McArthur, vice-president of the guild.

Patterson made the presentation, and read the address. Rev. Mr. Stachhouse made a very appropriate and feeling acknowledgment of the gift.
