### "Banner" Spring Bed—\$8

Is Guaranteed for a Lifetime

There are Damascus Swords—200, 300 and 400 years old—which can be bent double and yet will spring back, straight and true, when released. These blades were tempered right. The "Banner" Spring Bed is guaranteed for a lifetime because the steel spirals are oil tempered like a sword—and will retain their strength and springiness through years of service.

It is the resiliency (or "spring") of the steel spirals, which makes the "Banner" Spring Bed so easy and comfortable.

The spirals, after being carefully tested, are japanned—to prevent rusting. Then they are attached to flat steel bands on edge, which are riveted to angle iron sides. This insures the "Banner" being absolutely noiseless—and enables it to fit iron beds without slats.

Springs that cost \$4 or \$5 and soon pull out of shape—like a hammock—are never restful and easy—and must soon be replaced. The "Banner" Spring Bed costs \$8—lasts a lifetime—and gives a lifetime of comfort and satisfaction. Who can doubt the true economy of the "Banner"?

Look for this trademark whenever you buy Spring Beds and Bedding. It is your protection and our guarantee.

### SPENT FOURTEEN YEARS IN A RUSSIAN PRISON

LONDON, April 24.—A tired man, wasted in frame and haggard in face, stepped from the boat train at Victoria railway station yesterday morning. He was met by his wife and daughter, who hung their arms round his neck and kissed him again and again. The traveller was Nicholas Luxemburg, who was wrongly arrested in Odessa, spent fourteen years in a Russian jail and, after repeated protests by the Foreign Office, was liberated with profuse apologies. Mr. Luxemburg related the full story of his terrible experience, prefacing his graphic narrative with the words: "I am glad to be at liberty; I am pleased that my ordeal is at an end." The traces of the rigorous treatment he received are evident. A hacking cough shakes him, and it will be a considerable time before he recovers from the fourteen days of practical starvation he endured.

### IRON PIPE WENT THROUGH BREAST

PERNIE B. C., April 24.—Details of an accident in the lumber mills at Waldo, in which H. Codes was killed, have been received. Codes was putting a belt on a pulley, and finding that it was too stiff for his hands he took a piece of heavy steam pipe with which to slip on the leather. As he was manipulating the belt the pipe was caught in the revolving pulley and instantly the iron was reversed and shot through his breast, entering the wall behind and pinning him there.

WESTFIELD, Mass., April 24.—A four story brick block in this business section of the town, occupied by two large firms and a number of small offices, was badly damaged by fire, water and smoke today, the total loss to all the occupants being estimated at \$35,000.

### DISABLED STEAMER TOWED INTO HALIFAX

The Delko Rickmers Lost Three Blades of Her Propeller and Was Picked up by the St. Bride.

HALIFAX, N. S., April 24.—The new German steamer Delko Rickmers, from Bremen, March 31, and Swansea, April 8, for Philadelphia with three blades of her propeller missing, was towed into Halifax this morning by the British steamer St. Bride, from Shields, April 9 for New York. Two days ago when 300 miles east southeast of Halifax, the St. Bride sighted the German steamer's signals of distress and the captain of the latter asked to be towed to Halifax. The weather was moderate at the time and no difficulty was found in passing the tow line, and a start was at once made for this port. The St. Bride made good headway with her tow, and reached Halifax at 2 o'clock this morning. She dropped the disabled liner at quarantine, and then came up the harbor and anchored until daylight when she will proceed to New York. The Delko Rickmers was spoken on April 21, in lat. 41.37; lon. 53.32, by the steamer Carmania.

"No visitors are allowed, except a father, mother, brother and sister. I complained of illness, but no doctor was permitted to see me. I wrote to the British consul, but he did not receive my letter until eight days had elapsed."

"He visited me on March 23, and on the following day I was brought down to the governor and questioned by some one who, I understood, had been sent from St. Petersburg. The visitor asked me a number of questions, such as where I came from and what business I was doing."
