

How Can You Give So Many Things Away?

That is the question inquirers of our premium plan ask every day when examining our premiums.

Here are the reasons:—

We manufacture a great many of the lines we sell, and the goods we do not make ourselves we buy direct from the manufacturer, thus saving wholesaler's, jobber's and retailer's profit.

We sell for cash and save the expenses of book-keepers and of collection.

When \$25.00 worth of goods has been purchased at our store the customer gets a \$5.00 premium, that is \$5.00 worth of anything in our store absolutely free.

To learn of this plan means that YOU will become a satisfied customer.

SIXTY CANADIANS FLEE FROM FLOOD

Seven Hundred Miles Submerged And Thousands Take Refuge on Higher Ground—Crops Destroyed.

Pekin, Sept. 10.—The Chinese government is concentrating troops for the purpose of suppressing the alarming disturbances in the province of Szechuen, in case the provincial forces are insufficient in numbers or prove disloyal. Sixty Canadian Methodist missionaries are among the Chengtu refugees. These in all number about 100, of whom 40 are American, and nothing has been heard from them for the past four days. It is believed that they are being escorted by Chinese troops in the direction of the Yangtze Kiang. The government has promised to submit to the American legation a comprehensive statement on the flood as soon as the facts are ascertainable.

Shanghai, Sept. 10.—The Yangtze river is 45 miles wide at places. The great floods stretching over a territory 700 miles in extent. Seventy thousand survivors surround Nanking where 300 are dying daily. Similarly distressing details are being received from many cities. It is feared that the waters will not subside before the middle of October. The floods this year are unusually early and caught the crop before it had matured.

SWISS VILLAGE SCENE OF BAD CHOLERA RIOT

Rioters Burned Hospital Containing Many Suffering Patients — Police And Soldiers Called.

Chlasso, Switzerland, Sept. 9.—Wild scenes took place in Massafra, a town in the Italian province of Lecce. While the municipal council of Lecce was in session today discussing the best means for combating the cholera, thousands of demonstrators howling "death, death" gathered about the city hall. The mayor and councilors suspended the meeting and escaped from the building. The mob then moved toward the cholera hospital, keeping up a running fire with pistols who were unable to stop the marching crowd. Several policemen and some of the towns people were seriously injured. The hospital was surrounded by rioters, and the rioters were easily overthrown. The crowd piled burning wood against the building and smashed in the doors with axes.

When further resistance was impossible the doctors and nurses escaped from windows by ropes, but were pursued by the rioters. Stones were thrown and one of the doctors was dangerously wounded. All of them, however, made their escape on barricades found at the station. Although the police and carabinieri offered on a passive resistance to the mob, six of them were wounded. When the rioters entered the hospital several of the wards were already on fire. A woman patient was crying desperately which further excited the mob, who interpreted the cries as proof of cruelty practiced by the representatives of the tyrannical government.

"Listen how she suffers from pain and fright," shouted the leaders, "they want to finish them before our arrival." The smoke and flames added to the terror and distress of the patients. Some of them were picked up and transported on mattresses, others were laid on carts. The crowd around them intoxicated by their triumph, danced and shouted and made carnival comparable to the dance of the devils. Meanwhile two women patients left the flaming wards and were carried while other patients who were left to their homes died before reaching them.

The ghastly horror of the scene would be impossible to describe. Fortunately the rioters forgot to cut the light wires and the authorities were informed. Police, soldiers and carabinieri and even sailors were rushed to the burning hospital. They succeeded in putting down the rioters, 40 of whom were arrested as the leaders. These include nine women. The announcement was then issued that order had been re-established, but the measures that have been taken to check the cholera have not been without effect. It is certain to ravage the country throughout Massafra for a long time to come.

GERMANY WAS CORNERED BY PARIS BANKERS

Moroccan Difficulty Led French Financiers to Cut Off Credits—Reply to France From Berlin Not Satisfactory.

Paris, Sept. 10.—Germany's counter proposals to those submitted by France regarding the settlement of the Moroccan difficulty reached Paris last night. M. De Selves, the foreign minister after taking cognizance of them, immediately carried the document to Premier Caillaux. The two ministers made a lengthy examination of its contents and decided to submit the counter proposals to specialists on Moroccan questions, notably M. Regnaud, the French minister to Morocco. When they have formed an opinion the premier will call a meeting of the cabinet, probably on Thursday and lay the whole matter before them for discussion.

In accordance with an agreement made with the German government, no communication was made to the press concerning the text of the document, but it is understood that Germany in return for the recognition of France having a free hand in Morocco demands economic guarantees which amount to privileges, and which would be unacceptable to the French, but to all the other powers, as they would practically suppress commercial equality in Morocco.

It appears certain that the financial difficulties of Germany are partly the result of the operations of French financiers. The German monetary worth was caught at a time when it was unable to resist the sudden hostility of the Paris bankers. A thorough examination of the situation. There is no disposition among the Paris bankers to push matters too far, but they exercise a strong influence in setting the Moroccan controversy. It is known that the financial flurry has been intensely annoying to German statesmen.

WAR AMONG BRITS IN VICTORIA-MADAWASKA

Feud Between Pius Michaud And Aug. Bernier Causes Many Liberals to Desert Their Party.

Special to The Standard.
Victoria, N. B., Sept. 9.—In the counties of Victoria and Madawaska, the struggle for clean and better government is a bitter one. Fighting against a majority of nearly 1,200 in the last election, the Conservatives have rallied their forces, and in the present campaign under the leadership of Pius Michaud and Aug. Bernier, they are making a determined effort to carry the constituency.

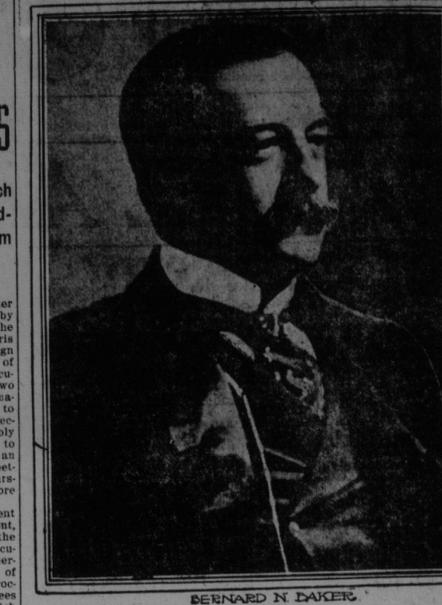

Liberals Divided.
A party which is divided against itself cannot stand. In the county of Madawaska where a convention has not yet been held, Mr. Aug. Bernier openly declares that he will oppose Pius Michaud for the Liberal leadership. Many prominent supporters of Mr. Michaud are leaving the Liberal ranks on account of this dispute and are joining the well organized Conservative party.

J. P. Manzer has come out as an ardent supporter of reciprocity. Mr. Manzer is favoring the pact merely from a business standpoint. He has bought potatoes for 60 cents in Aroostook Co. and shipped them to Cuba. He has bought New Brunswick potatoes for \$1.25 and shipped them to the Montreal market. Mr. Manzer may find it to his advantage to buy on the other side of the border, but what benefits him may not benefit the farmers of Victoria and Madawaska counties.

"Never have I seen," said N. A. Hanson, of Andover, "the members of the Conservative party so enthusiastic and so united as they are to-day. We will not only cut down Mr. Michaud's majority, but we will return Max Cormier, one of the ablest men in the campaign today."

Abuse of Franking.
The Liberal party are abusing the franking system. They are resorting to this method in distributing their campaign literature. On Saturday St. John was flooded with literature sent in an envelope which was impressed with the frank of W. S. F. M. P. The envelope contained two pamphlets, one entitled "The Good Thing For Canada," and the other "The Bargain Itself." When the house is in session it has been the custom of members of both parties to forward literature to their respective constituents in franked envelopes, but during vacation and dissolution this system is not allowable.

B. N. BAKER FORMS \$15,000,000 STEAMSHIP COMPANY.

B. N. Baker, of Baltimore, is the moving spirit in the organization of a \$15,000,000 steamship company which has for its object the development of commerce through the Panama Canal. The new company is to be known as the Atlantic and Pacific Transport Company, which was incorporated at Trenton, N. J. Mr. Baker's plan for a strictly American built and owned line of steamers to run from New York to San Francisco and Seattle through the canal have the approval of President Taft, the Canal Commission and the last Pan-American Congress.

SOCIALISTS WILL FIGHT THE RULING

Order Prohibiting Street Meetings Not Popular with Socialist Speakers who Place Blame on Pugsley Organs.

The Socialist speakers were prevented from holding the usual street corner meeting last evening. About 8 o'clock when about 200 people had gathered at the corner of Union and Coburg streets, the police appeared and informed the soap box orators that they had received orders to stop all street corner meetings in future. The Socialist speakers asked permission to disband the crowd and in doing so they exercised their right of assembly. The Pugsley organs were responsible for the prohibition of the meeting.

"Last Sunday night," said the speaker, "when we were attacking the reciprocity pact, we saw the editor of one of Mr. Pugsley's organs in the crowd. On Tuesday we held another meeting, and after it was over a Liberal and a Conservative got into an argument over reciprocity and one chap punched the other on the nose. Next day the Times published a story saying that the Socialists were responsible for a row in the street. This is everybody's business and it is not our business to put up with it. We held a meeting at the corner of Waterloo and Union streets on Friday night and were not interfered with by the police."

"We shall interview the authorities and find out if it is the intention to make a distinction between different kinds of public meetings, and if so we shall make a fight for equal rights."

PETTY TACTICS RESORTED TO BY HALIFAX BRITS

Special to The Standard.
Halifax, Sept. 10.—It is plainly evident that the Liberals of Halifax are badly frightened. They are watching their voters like an old hen watches her chickens. The machine tried to conceal their fright for a time, but they have made a move which demonstrates clearly that the Brits of this city and county know full well that Borden and Crosby are to be elected, and that the only way of defeating them is by stooping to mean and detestable tactics.

On the occasion of the Laurier meeting here the Conservatives cancelled all committee meetings so as to give their supporters an opportunity to hear the Liberal side of the reciprocity question. They heard, but instead of changing their opinions regarding the pact, Sir Wilfrid's remarks had the effect of making them more determined than ever to vote against the government.

R. L. Borden and Sir Charles Tupper are scheduled to address the electors of Halifax tomorrow night. On Tuesday their supporters are expected to issue a number of provincial districts official notices declaring that the fears of war are entirely unfounded and informing the public that the sensational reports from various irresponsible sources are unworthy of credence. Local officials have been ordered to post notices to this effect in public places. Foreign Minister Von Kiderling-Waechter also is reported to be giving a reassuring statement to a leading financier this evening regarding the situation.

SCARE UNFOUNDED.

Berlin, Sept. 9.—The financial panic which has been aroused in Germany through the delayed Moroccan negotiations has caused the government to issue a number of provincial districts official notices declaring that the fears of war are entirely unfounded and informing the public that the sensational reports from various irresponsible sources are unworthy of credence. Local officials have been ordered to post notices to this effect in public places. Foreign Minister Von Kiderling-Waechter also is reported to be giving a reassuring statement to a leading financier this evening regarding the situation.

PREPARING TO CAPTURE CANADIAN FISH TRADE

American Company Working for Passage of Reciprocity to Drive Maritime Province Fishermen Out of Business.

It has been frequently claimed that the Fielding pact enables the big American fishing concerns to capture the fish business of the Maritime Provinces, and by eliminating the competition of the small Canadian firms, compel our fishermen to accept any prices they are pleased to give. That the Americans recognize this possibility and are already preparing to take advantage of it, is made evident by the announcement that a big company is being formed to carry on fishing operations from the Canadian coast, and that it will probably have its headquarters at St. John.

The New York Journal of Commerce published the following article regarding the organization of the new company:

Plans are being completed in the formation of a new corporation which will engage in the North Atlantic fisheries and possibly on the North Pacific coasts. Strong financial interests centered in New York and Boston are supporting the formation, which only awaits the signing of the reciprocity agreement with Canada before the final steps are taken.

The ground, it is stated, has been thoroughly gone over by a competent expert and the plans for the new corporation have been most carefully arranged ahead until little is left to put everything in good running order. The first branch office of the corporation will operate a fleet of the most up to date steam trawlers between Yarmouth and Digby, N. S.

It has been shown by fishing statistics from different parts of the world that fish can be landed at an average cost of not more than 50 or 60 cents per hundred pounds. Today local firms handle curing concerns pay in the winter season prices from \$2 to \$3 per hundred for their green fish caught by ordinary vessels and boat fishermen. It can be readily seen that with a fleet of well equipped steam trawlers operating between the points as well as covering other ground, that the proposed corporation will be in a favorable position to control the fishing industry of the above mentioned and later other localities.

The increasing population of Western Canada offers great possibilities for the further development of the so-called finnan haddock industry, and it is in order to supply this want and to take advantage of new conditions, that the proposed corporation has been formed. It will be registered under Canadian law, with probable headquarters at St. John, N. B.

The new corporation, it is understood, has nothing to do with the Bay State Fishing Company, or the Atlantic Fisheries Company. Both of these are Boston concerns and are likely to register subsidiary companies in Canada later on.—New York Journal of Commerce.
