London, March 16.—The Russians again are advancing in North-western Bukowina, according to a despatch received here by the Exchange Telegraph Company from Bucharest, Rumania. The operations are going forward slowly because of the bad weather. Near Novo Sultze, Russians carried certain Austrian trenches at the point of the bayonet, the Austrians retreating with heavy losses.

WERNER HORN'S BRITISH FLYING CORPS IS  
REQUESTS  
REFUSED

Federal Court denies motion that District Attorney return Dynamiter's private papers to the prisoner.

Boston, March 16.—The Federal Court denied today the motion of Werner Horn, the United States district attorney, in this city, return private papers and personal effects taken from the prisoner at the time of his arrest in connection with his attempt to destroy the international railway bridge at Vancouver, Maine.

Horn's counsel insisted that the papers were absolutely necessary for the proper presentation of the prisoner's case before the United States commissioner at Bangor, on Thursday, when his removal to Boston, on an indictment charging illegal interstate transportation of dynamite, will be sought. Counsel claimed that the papers were wrongfully taken from Horn. They included, he said, Horn's commission as a lieutenant in the 17th Prussian regiment. The court said that no evidence had been introduced to show that the district attorney in seizing the documents had acted unlawfully.

ATTEMPTS OF OPPOSITION TO MISLEAD PEOPLE OF PROVINCE RECEIVED A SEVERE JOLT

Answers given in Legislature yesterday show moneys from guaranteed Bonds of Valley Railway are safely invested.

Special to The Standard.  
Fredericton, March 16.—Efforts to stampede the people of New Brunswick into the belief that the provincial moneys from guaranteed bonds of the St. John Valley Railway were not properly secured were given a severe jolt this afternoon when Hon. Mr. Murray, who leads the House at the opening of today's session, in answer to an inquiry by Opposition Leader Dugal, as to the amount of such proceeds held by the Prudential Trust Company of Montreal, and as to how such an amount was invested, answered that the amount remaining in the hands of the Prudential Trust Company is \$294,458.93.

Mr. Stewart's speech last Thursday evidently understood the member for Northumberland to have spoken exactly as he reported in the official synopsis report, and many of the members of the House made it plain this afternoon that they believed Mr. Stewart had been correctly reported. The House met at 3 o'clock.

Mr. Stewart (Northumberland) rose to a question of privilege and said that he wished to correct an error which appeared in the synopsis report of his speech on last Thursday. The official proceedings of the opening day had been a good report, but he had been made to say certain things which he did not say, and for which he did wish to take the credit. Referring to the flotation of the new issue of bonds, he had been made to say that the province was in no better position because of the transaction. He was not one man to pay another. He did not use these words, but was really only poking fun at the congratulatory tone of the paragraph of the speech referring to the transaction. He was not criticizing what had been done, but he believed it was the only and obvious thing to do. He also believed the government was to be commended for having placed these bonds directly in the hands of the purchasers, thus saving the commission charges. He also believed it was wise on the part of the government to have made bonds for short term, because, at the end of five years it was believed the war would be over and peace and prosperity would reign once more, accompanied by cheaper money.

As a matter of financing he was entirely in accord with what had been done. He had also been made to say that the St. John Daily Telegraph had supported each party in turn as its necessities for the time being dictated. He had said that the St. John Telegraph had been the leading organ of each party in turn, but the other words had been put into his speech. He went on to explain what had caused the Telegraph to support the various parties at various times, and also to eulogize the late Mr. Elder, at one time the editor of the Telegraph.

Hon. Mr. Clarke rose to a point of order and said that he wished to call the attention of Mr. Speaker to the fact that the honorable gentleman was out of order and under the rules of the House was required, when he arose to a question of privilege, to keep within the matter involved in any remarks which he might make. He should not make any long speech nor should he give the House a lecture on the good qualities of the late Mr. Elder or the reason why the St. John Telegraph had changed its support from one political party to another at various times.

THE JOY OF GOOD HEALTH IS NOW EXPERIENCED

Nervousness, Dizzy Spells and Sleeplessness Are Now a Thing of the Past.

This is a cheerful letter from Mrs. Peacock, and it should bring joy to the heart of many a reader of this paper. Dizzy spells and sleeplessness are symptoms of an exhausted nervous system. I began using Dr. Chase's Nerve Food, and in a few days I was able to sleep again. It entirely freed me of the symptoms stated above, built up my health generally, so that to-day I feel as if I am quite all right.

In a more recent letter Mrs. Peacock writes:—"Dr. Chase's Nerve Food has made a world of good, and I would be pleased to tell everybody so."

In nearly every issue of this paper you will find letters about Dr. Chase's medicine. If this one does not describe your case watch for others of the same kind. Dr. Chase's Nerve Food, 50¢ a box, 4 for \$2.50, all dealers, or Edman, Bates & Co., Limited, Toronto.
