

The Church classes, meeting at close of Sabbath School, have been well maintained and productive of excellent results.

Our returns from the different classes show a total of 43 who have professed conversion during the year, many of whom have united with the church. There are about 170 members of the church among our scholars. The Total Abstinence Pledge rolls show an enrollment of 370 names.

The missionary spirit has full play in the school, as evidenced by the liberal missionary givings and hearty sympathetic interest in all mission work. On the first Sunday in October last we asked for \$50 of an offering to pay the yearly instalment for the education of Sada Endo in Japan, and received in response \$72.90, much of the money being earned by the donors themselves. Letters from Miss Hargrave, in Japan, have been most gratefully received from time to time. We also received a letter from Sada Endo, written in Japanese, which was forwarded by Miss Hargrave, along with a translation of same. The reading of this letter in our school created intense interest and enthusiasm. The story of the entrance of the Gospel into her home seemed like a chapter of the history of Apostolic times.

We gladly acknowledge the valuable aid rendered by the students of Wesley College, who have so often acted in the capacity of auxiliary teachers. We also express our indebtedness to all the friends of the school who have assisted us in one direction or another.

It is a matter of thankfulness to be able to say that Young Church is proving a success in every way. The Sunday School there is doing excellent work and steadily increasing in numbers and interest. Rev. Mr. Riddell, who has charge of the Bible class, Mr. Fowler, the Superintendent, and those associated with him, are capable, consecrated, faithful workers. They have now a total membership of 83.

In closing this report the Superintendent desires to make mention of the earnest, loving, loyal service rendered by the teachers and officers of our school, who have stood like sentinels at their posts of duty, ready for any department of the work which needed them most.

We have *faith in our work ; it is important ; it is the Lord's*. We cannot measure its results by figures. Looking into the be-
