An Oshawa woman who celebrated her sixteenth birthday this year is a grandmother. She was born on the 26th of February.

"A trapper's fight with a pack of wolves" will be used as an illustration in Mr. Howson's address next Sunday evening to the young men of Glencoe.

A lively hockey game played at Dutton on Wednesday night of last week between Glencoe and Dutton teams was won by Glencoe. Score 4 to 2.

So far this has been the coldest March since 1885, but the snowfall has been only slightly above the normal. Friday was about the coldest St. Patrick's Day in recollection.

The council did a kindly act and one which the ratepayers will approve when they decided to continue up to the end of the present year the salary of the retiring clerk, whose resignation through ill health was announced last week.

At the funeral of the late Mrs. James Lockwood, in Lowwood cemetery on Friday, one of Currie's double sepulchers was used, and the remains of deceased's late husband, who died five years ago, were raised and deposited along with hers.

George A. Elliot, Member of Parliament for North Middlesex, was presented with a handsome stickpin by several of the older members whose lives he undoubtedly saved by his heroic action at the time the parliament buildings were burned.

The Battle Hill Relief Society last week sent to Hyman Hall, London, to be forwarded to the trenches, a box containing 27 day shirts and 9 pairs of socks. They also forwarded a parcel containing 2 day shirts and 2 pairs of socks to Corporal Harry Hailstone, who is at present in France.

C. P. Doherty, who was employed on the Transient some six or seven years ago, has enlisted and joined the band of the 13th Highlanders at Hamilton. For some years after leaving Glencoe Mr. Doherty in partnership with his brother conducted a job printing business at Preston.

The Ontario Government, it is expected, will bring prohibition into effect as a war measure without a referendum, with a vote to be taken after the war to determine whether prohibition shall continue or not. Licenses may be given an extension of about four months from the first of May.

David Leitch, agent for the Dominion Sugar Beet Company, has secured 200 acres at Walkers, 80 acres at Glencoe, 40 acres at Ferguson's Crossing and 40 acres at Appin for growing this season. Any person wishing to contract for acreage is requested to communicate with Mr. Leitch, at Route 1, Walkers.

Alex. Service, who came here recently to take a position with the Woodburn Milling Company, moved to Tillsonburg on Monday and will leave in a few days with his brother, Dr. Service, for the Peace River District in Alberta. The doctor was here for a few days and disposed of a number of town lots at Peace River to Glencoe people.

It is practically certain, says the editor of "The Automobile," that all car manufacturers will have to raise the price of their machines for next year. If they do not do this and hold the prices where they are they will have to cut the quality. This is the unanimous opinion of men who are close to the present condition of the material market.

Stirring addresses and a fine musical program are looked forward to at the Town Hall tomorrow evening on the occasion of a big recruiting rally for "The Pride of Midwestern" Battalion. Lieut.-Col. Robson, officer in command of the battalion, will be chairman for the evening. Lieut.-Col. R.B. Hamilton, of the Militia Department, and Capt. S. N. Dansey, of the British Secret Service, will speak. Capt. Dansey's address will be particularly interesting in view of the fact that he has recently returned from the front and was in the trenches for some time behind the German lines.

CANADA'S WHEAT CROP IN MOTION PICTURES

Canada's 1915 wheat crop is attracting world-wide comment, with all previous records shattered. It is interesting to know that motion pictures of the vast yield are to be seen at the Picture Show theatre on Saturday night, March 25th, especially so, since the government has commandeered a large percentage of Canadian wheat. The pictures are a part of the Ford-Canadian monthly of current events and were taken December 9th, since the setting in of winter.

Port Arthur, Ontario, the chief Canadian shipping point for the Great Lakes, is shown fairly alive with freight steamers and train loads of wheat on the way to the world market. Over 50 freighters with a carrying capacity of 12,000,000 bushels were loading at Port Arthur recently when the pictures were being taken. The spectator is taken on a powerful ice-breaking tug-boat up the river past a series of huge grain elevators, each of which has a group of steamers alongside loading wheat through great spouts.

One of these vessels, the W. Grant Morden, is the longest bulk freighter on the Great Lakes. It was loaded to capacity with 700,000 bushels of oats, valued at \$35,000, believed to be the largest single cargo of oats ever carried out of any port in the world.

A tour of the large freight yards on the top of a box car gives one an idea of the tremendous railroad shipments of grain arriving from the West to be loaded on the waiting steamers. One hundred and fifty train crews were required to handle this traffic.

The film also shows the recent benefit football game between the Toronto Argonauts and Hamilton Tigers, the proceeds of which went to "Glad" Murphy, an Argonaut player who was injured in one of the earlier games between the two teams. In this game the Argonauts were decisively the victors despite the fact that they had been twice defeated by the Tigers earlier in the season.

The film concludes with a laughable animated cartoon depicting the activities of "Professor Seesitall" with his marvellous telescope and the remarkable discovery he made.

PARALYSED AND HELPLESS

Prominent Merchant Restored to Health by "Fruit-a-tives"

Bismarck, N.B., July 25th, 1914.
"I had a stroke of Paralysis in March, and this left me unable to walk or help myself, and the Constipation was terrible. Finally, I took 'Fruit-a-tives' for the Constipation. This fruit medicine gradually toned up the nerves and actually relieved the paralysis. By the use of 'Fruit-a-tives' I grew stronger until all the palsy left me. I am now well and attend my store every day."

ALVA PHILLIPS.
Fruitjuice is nature's own remedy and 'Fruit-a-tives' is made from fruitjuices. 50c. a box, 6 for \$2.50, trial size 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

More than 1,000 strong the 135th Battalion, popularly known as "The Ride of Middlesex," concentrated on the first occasion since the organization of the Middlesex County Battalion that all the companies have been brought together at one time.

The first of these companies, the 1st, was in the front line with special pride and admiration upon "D" Company from Glencoe, in command of Major Tanton and Captain Spero.

AND STILL STUDEBAKER LEADS IN DETROIT

In Detroit, the hub of the Motor Car industry, where everybody knows motor car value about as well as it can be known, Studebaker continues to lead in sales of all cars except one, which lists below \$500.00.

Here are the percentages, based on the actual registration figures for the entire year 1915:

Studebaker... 100% Buick... 63% Cadillac... 90% Packard... 62% Overland... 85% Reo... 51%

Ask yourself, "Why do the best informed people in the world on automobile values, prefer Studebaker? You know the answer: quality and service—and cannot fail to drive home to every prospect that convincing argument."

Competition in Detroit is the keenest in the world. Every automobile concern has its most skilled salesmen at Detroit; nothing is left undone to sell "the home folk." And "home folk" are always of the "from Missouri" type.

Heretofore, many a Studebaker dealer could not make Studebaker the leader in sales because he could not get half enough cars to fill his orders. With a production of 100,000 quality Studebakers in 1916, no dealer, who gets his orders and specifications in early, can have that excuse.

McCLARY'S RANGES

SHERWIN-WILLIAMS PAINTS

\$5,000,000

The above figures represent the estimated loss by farmers through SMUT in grain crops in Ontario in 1915.

If you had a field of oats, barley or wheat you no doubt contributed to the great loss. By reason of the prevalence of Smut last year the danger is rendered greater this year. There is one way to prevent this and that is to

TREAT YOUR SEED FOR SMUT

The method usually adopted is as follows:—Mix one pint of FORMALIN with forty gallons of water or two tablespoonfuls to one pail of water. Place the grain to be treated in a heap on clean canvas or floor, sprinkle the formalin solution over the grain, then shovel. Repeat this until every grain is moistened by the solution; then cover the pile with sacking and leave for 3 or 4 hours. At the end of this time spread the grain out thinly to dry; shovelling it over three or four times will hasten the drying. Forty gallons of the formalin solution is sufficient to sprinkle thirty or forty bushels of grain; smaller amounts in proportion.

Immersing the grain in the bag is sometimes practised and is equally effective. (1 pint of Formalin to 40 gallons of water).
