Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The members of Anna Rebekah Lodge held a banquet in the lodge room in honor of Mrs. Carrie Watson of St. Thomas, president of the Rebekah Assembly of Ontario. The following evening the president and a number of the Rebekahs motored to Mount Brydges to celebrate the 12th anniversary of Edna Lodge, and report having a grand time.

Gilbert McLean, who has been ill for a few weeks, although much improved, is not recovering as rapidly as his many friends would wish.

About a week ago Ed. Elmore had occasion to go to the home of a neighbor, Duncan McLean, a bachelor, who has lived alone for a number of years. Rapping at the door, he received no response. Looking around, he noticed that there were no traces in the snow. Not being able to recall seeing him around for a few days he repeated the rapping. Finally he heard a movement and discovered that a key was being put under the door to him. Mr. Elmore unlocked the door and entered to find that Mr. McLean had been ill for some time, although he could not recall what happened or when it happened. Hearing the rapping, he had managed to get to the door but was too weak to turn the key to unlock the door. Broken dishes were found on the floor, where he had dropped them while trying to prepare food, but was too weak to hold them in his hands. As near as can be learned he took a week spell and was without fire or care for at least four days, as it was Thursday noon when Mr. Elmore called and Monday's mail was still in the box. A doctor and neighbors were called and Mr. McLean was removed to the home of his nephew, Neil McLean. His condition is much improved but he has not yet fully recovered.

The Epworth League gave the people of the community a real treat at their last regular meeting by arranging with Prof. Gibson Hume of Toronto University to give a talk on life's problems and life's ideals. Although the gathering was not sufficiently large to meet expenses, the Leaguers did not regret the arrangement and another lecture may be arranged for in the near future. Prof. Hume emphasized the fact that an idea is not an ideal. Many people have an idea but do not have an ideal, which it is necessary to have if a person is going to be a success. The musical part of the program was given by Mrs. (Rev.) B. Snell of Alvington, W. Reid, S. Carruthers, Mrs. Theaker and Miss Snell. The pastor, Rev. Dr. Brown, occupied the chair.

It Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

The Many-purpose Oil.—Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chafes. Horses are liable very largely to similar ailments and mishaps as afflict mankind and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

Drives Asthma Before It. The smoke or vapor from Dr. J. D. Kellogg's Asthma Remedy gives asthma no chance to linger. Our experience with the relief-giving remedy shows how actual and positive is the success it gives. It is the result of long study and experiment and has not been submitted to the public until its makers knew it would do its work well.

Friendship—Yes! But—

"The Bill will not let in Canadian wheat, but will save to the American farmer the right to raise a bushel of wheat instead of transferring that right to Canada."

Mr. Fordney, in introducing the Fordney Emergency Tariff Bill which has shut millions of dollars worth of Canadian foodstuffs out of the United States market.

While ties of friendship unite Canada and the United States, the attitude of Uncle Sam is that of "Business First," and Canada cannot and should not hope for any consideration from the United States where the interests of the farmers and business people of that country are involved.

Uncle Sam has built the Fordney Tariff directly against Canadian agriculture, and new additional Tariff proposals are now under consideration to shut out from the United States Canadian goods of every kind.

These measures are due to the insistence of the American farmer that the United States market shall be retained exclusively for him and that the influx of Canadian farm products into that country must cease. They are also due to a like insistence of United States manufacturers and workers, who have seen their country develop tremendously and grow rich under a Protective Tariff, and who believe that a still further increase in Tariff is the only means of assuring continued prosperity.

CONTRAST THE ATTITUDE OF THE UNITED STATES LEADERS WITH THAT OF CANADA'S WOULD-BE LEADERS, CRERAR AND KING

Crerar proposes to allow American goods to enter the Canadian market free of duty.

King proposes that the present reasonable Tariff on the products of the American factory and farm shall be greatly reduced, and that the home market of the Canadian farmer and manufacturer alike shall be thrown open to our Southern neighbour, in the face of the United States Emergency tariff, which practically shuts out Canadian farm products from these markets, and also in the face of the permanent tariff now under consideration at Washington, which gives every promise of being even more drastic than the Emergency Tariff so far as our products are concerned.

In view of the attitude of the United States, what folly it is for Crerar and King to propose throwing open the Canadian market to a flood

FRIENDSHIP WITH THE UNITED STATES? YES, BY ALL MEANS!

BUT—

let us defend our home market, our industries, our farms, our workmen, our homes by the same methods as are used so effectively against us.

Let us work out our own destiny—that of a strong, self-contained nation within the British Empire group of Nations, courageous, self-reliant.

Canada Needs Meighen

The National Liberal and Conservative Party Publicity Committee

"If we are to build up a self-sustaining agriculture here at home, the farmer must be protected from unfair competition from those countries where agriculture is still being exploited."—President Harding. The very spot chosen to deliver this speech—Minnesota—shows that Harding had the Canadian North-West in mind.

Does any sane Canadian believe that Crerar or King, hat in hand, could persuade the United States Government to completely reverse its Tariff policies and agree to reciprocal trade in face of American public demand for a high protective Tariff?

The people of the United States conduct their affairs and protect themselves by the principle that "Business is business." Why should Canada do otherwise?

Unlike Crerar or King, MEIGHEN stands firm for a reasonable Tariff to protect all our industries—those of the farm, the sea, the mine, the forest, the factory, and for the building up of a bigger and better Canada through the full development of the home market.
