## ATTENTION ALL YORK UNIVERSITY STUDENTS STUDENT CENTRE REFERENDUM

On March 6, 7, 11, 12, 1985, the Board of Governors is sponsoring a referendum regarding the possible construction of a Student Centre Building. The question will read as follows:

For several months, the Student Centre Steering Committee has been developing a proposal to construct a Student Centre building in a central, prestigious location on the main campus of York University. Among the university-wide services housed in the Student Centre could be such things as services administered by student governments (including meeting and club rooms), services provided by the University Administration, student-run services (such as a restaurant or pub), commercial establishments and services to the wider community (such as daycare).

The Steering Committee's proposal envisages that financing of the new building would be covered by an increase in student fees of approximately ten dollar for each full course. This increase would not be permanent and would be phased in after the project is initiated.

As part of the next phase in the development of the project, a Board of Trustees, representative of the student body at York University, and members of the University Administration would be put in place to oversee the design and construction of the building. A similar organization would also be created to handle the management of the building once construction is completed.

It is understood that final decisions regarding the timing, location, size and financing of the building will depend on detailed study and negotiations between the student body, the University Administration and the Board of Governors.

On this basis, do you approve, in principle, the construction of a student-financed and student-controlled Student Centre building at York University?

YES NO
