

been at one time Forest
 Warden in charge of said
 Reserve, but recently
 removed from his office
 and consequently having
 no longer a right to
 reside thereon. The house
 in question, it appears,
 was erected by H. E. Lean,
 and occupied by him
 for over thirty years, but
 it was made with material
 taken from the Reserve.
 It appears that there
 was no foundation to
 the house: it being
 merely placed upon
 stone blocks.

Will you be
 good
