My dear Will, -

Thank you for the very timely

New Year's letter we received yesterday, and for all the loving wishes you have expressed for me and welfare during 1920. We are glad to know that the Humidor arrived in good condition and that it may fill a long felt want. I remember very distinctly in my Ottawa days "the height of hospitality" with which you allowed your good cigars to invite the frequent visitor to help himself. I remember a number

I know myself feeling that I should like to take one and being tempted very sorely to do so, but I think I am honestly say I never did without your permission. It is to be hoped that the Humidor with Lock and Key may prove helpful in assisting in making the smoke to invite as well as in reducing the proportions of your cigar bill.

From a letter we received from you just after writing you a week ago, we were greatly pleased to hear of what an influential factor your associations with Dr. Rockefeller had been in securing for Canadian universities
