

THE FARMER'S LIBRARY

The following is an excellent list of books which can be had through the FARMING WORLD

No person has as much time for reading and study as the farmer. The evenings are free in most farm homes and afford an excellent opportunity for acquiring information about agriculture and kindred subjects. It is also well to note that no calling demands a greater diversity of knowledge than does the farmer's. He must know a great deal about many subjects and everything about some subjects. No citizen can make a better use of a good library than he.

To enable the farmer to acquire this information at the least cost to himself, the following list of books has been compiled with great care and selected with a view to their meeting the needs of the farmers of Canada. These books can be had without any cash outlay. Secure the requisite number of new subscriptions and the book is yours, postpaid.
