

Herman Moll's Atlas, The World described, or a new and correct set of maps, showing the several empires, kingdoms, republics, principalities, &c., in all the known parts of the earth, wherein the errors of the ancient *geographers* are corrected according to the latest observations of travellers as communicated to the *Royal Society of London*, and the *Royal Academy of Paris*. EACH MAP is engraved on copper by HERMAN MOLL, *Geographer*, and printed on two sheets of elephant paper, whereby the scale being large, admits of showing the cities and chief towns in the most distinct manner. To render these maps the more acceptable several of them are ornamented with remarkable prospects, plans, etc. *Title mounted inside the cover*. No collection of early and rare American books can be complete without a set of these fine maps, of which this copy is of the largest size, each map being *coloured* and nearly six feet square, with curious engravings, titles and letterpress descriptions. Tall folio, calf, \$22.00. Circa, 1715-20. 3

Short collection of the American Portion, Title mounted on the inside cover. 1. The World in Hemispheres, dedicated to his most sacred majesty George II, with astronomical and other information. As for ye Dutch Maps (says Moll) all of 'em yet extant, are much alike and far enough from correctness. Now it being a great hazard we run in undertakings off this nature, and labouring under ye frequent hardships of having our MAPS copy'd upon us in Holland, etc., brought over hither, Publickly advertised and sold under other names to their Profit, and to the manifest defrauding of us, etc., etc. 2. North America, dedicated to Lord Sommers, with insets of ten harbour plans (including Boston, New York and Charlestown) 23 x 38 in. [*Title by Vertue, engraving of the manner of the New-found-land codfish industry; tracts of Hudson, James and the Galleons; several places are named as newly by the French in 1712*]. 3. [*Title with Douglas arms, dedication dated 1715, fine views of "ye CATARACT of NIAGARA, some make this waterfall to be half a leagu' while others reckon on it no more than a hundred fathoms," "ye Industry of Beavers," account of the continental posts and the fishing rights, the Iroquois, fortifications of Charles-Town, etc.*] 4. The North Parts of America CLAIMED BY FRANCE, with insets of Mouth of Mississippi and Harbour of Annapolis Royal; 40 x 25 in. [*Title with Bromsall Arms, and very quaint note by Moll dated 1720, capital engraving of the Indian Fort of Sasquesabanok (Penna.) Really a map of North America, on a French basis, shewing the English colonies crowded to the sea, the French touching the Atlantic in S. C. and Georgia. Most valuable as an illustration of French N.A. at its greatest extent*]. 5. New Map of the WELLS INDIES or the Islands of America in the North Sea, insets of four harbours; 40 x 23 in. [*Title with view of shipping the treasure; map devoted chiefly to the proceedings of 'he Spanish "Gallions and Flota."*] 6. SOUTH AMERICA; 38 x 23 in. [*Dedicated to Earl of Sunderland, engraving by Vertue, view of the Potosi. Attack on rival maps, about 200 words.*] 7. The Coasts, Countries, and Islands within ye limits of ye SOUTH SEA COMPANY; four coppers, together, 19 x 26 in. The detached plates are Chiloe, Guaiquil and Baldivia, insets on large plate of Magelean, Pepys Island, Juan Fernando, Acapulco and others.
