issue, entitled

**"Some Fine Day, Bill"**

It has an interesting message for YOU

**Fencing? Yes, but what kind?**

The farmer who thoroughly examines the relative merits of the various brands of wire fences offered to him will not have any difficulty about deciding upon the one he ought to have. Let him decide by that most unerring of all tests—weight. Why judge by weight? Because weight means strength, and strength means durability and long life. Of the different makes of wire fences, there must naturally be one that will weigh heavier than the rest.

**The heavy-weight among fences  
is the "Ideal"**

The reason is that all the wires are full gauge No. 9 hard steel wire; every wire is full of life and strength, and heavily galvanized to properly protect and preserve that strength. You therefore get longer service from "Ideal"—most for your money in strength, durability and all-round satisfaction.

**Ideal Fence**

It is to your interest before buying fencing to get a copy of our catalogue; a postal will bring it.

**Write TO-DAY for FREE BOOK  
on SILO CONSTRUCTION**

**BURLINGTON PERFECT SILO**

Any farmer can erect this silo without outside help—the best silo on the market to-day. Can be put up in 10 to 15 hours absolutely without scaffolding. In the

2 x 6 inch Norway pine, selected dry stock, is used, with air-tight adjustable doors, all treated with special preservative, and painted dark red. Our patent galvanized steel cable bands are stronger than iron bands, and have many other advantages over iron rods, having sufficient elasticity to permit of the expansion and contraction due to change of seasons, keeping the silo tight at all times. You will be surprised, not only at the low cost of the Burlington Silo, but at the easy way it is erected. The book tells all about it. Write to-day, using the coupon below.
