

## It Will Pay You to Investigate

CAREFULLY THE MERITS OF DIFFERENT MAKES OF LITTER CARRIERS BEFORE BUYING AN OUIFIT.

DON'T BE SATISFIED with any style of litter carrier that is offered to you. If possible, see different makes in operation and compare them. Should you be unable to do this, we will be pleased to send you our new catalogue, which describes and illustrates the "BT" Litter Carrier. By reading this carefully you will get complete information, and we know you will be pleased with our outfit.

The "BT" LITTER CARRIER will stand your most careful inspection. It is simple in construction, and is built to last a lifetime. We use double purchase in lifting, and have a straight sprocket-chain connection for lifting, with which it is possible to attain an efficiency of from 70% to 80%. Most firms use a worm-gear lift, and with them from 50% to 60% of the energy of the operator is lost in friction. Is it any wonder that the "BT" Litter Carrier elevates easier and quicker than others?

Send us a sketch showing the lay-out of your stables, with measurements thereon, and let us know where you wish the litter carrier to run. We will then be pleased to give you an estimate as to the cost of installing, and send complete information.

Now is the time when a litter carrier is most useful, and you should get information and prices at once. Our catalogue is free, and will be mailed to anyone interested on request. Write us to-day.

**Beatty Bros., Fergus, Ont.**

We also manufacture Steel Stalls, Stanchions and Hay Tools.

## THE SINGED CAT

Those who have paid dearly for the use of cheap cream separators, through many unhappy experiences, know now—what they doubted then.

Their unanimous testimony—

VANCOUVER—WINNIPEG

## The "BACON" Seed Drills and Cultivators

The only Rear-Wheel Driven Seed Drill on the market. The feed in the "Bacon" handles seed without bruising or breaking, and seeds evenly to the last seed. Machine instantly converted from a regular seed sower into a hill dropper. Feed Cut prevents waste of seed when turning rows. For sowing Sugar Beets, Parsnips, Radishes, Carrots, Onions, etc., the 1908 model of the "Bacon" is unequalled for strength, lightness, easy running and good work. Write for our complete catalogues.
