Lump Jaw

The first remedy to cure Lump Jaw was
Fleming's Lump Jaw Cure
and it remains today the standard treat-
ment, with years of success back of it,
known to be a cure and guaranteed to
cure. Don't experiment with substitutes
or imitations. Use it, no matter how old or
bad the case or what else you may have
tried—your money back if Fleming's Lump
Jaw Cure ever fails. Our fair plan of sell-
ing, together with exhaustive information
on Lump Jaw and its treatment, is given in

Those who believe that calves from
mature cows make better dairy animals
than the first-born of a heifer, will find
one notable exception in the case of the
great Jersey cow, Jacoba Irene, the
world's champion long-distance dairy
cow, who was the first calf of her dam,
born before her mother was two years
old.—Jersey Bulletin.

GOSSIP.

Young registered Lincoln breeding ewes
in lamb, and ewe lambs of choice qual-
ity and breeding, sired by Toronto, Lon-
don and Chicago prizewinning rams, are
advertised for sale by **S. W. Edwards,**
Watford, Ont., G. T. R., thirty miles
west of London. This flock is founded
on stock bred by those excellent judges
and successful breeders, **Graham Walker,**
of London Township, and **William Oliver,**
of the same place, and should be well
worth looking after. The ewes offered
have averaged over 11 lbs. of washed
wool for a number of years, and are
good representatives of this excellent
breed.

SHORTHORNS AND COTSWOLDS AT GLENGOW.

Wm. Smith, M. P., & Son, at their
farm, Glengow, Columbus, Ont., are just
now offering some rare bargains in
Scotch-bred Shorthorn heifers and young
bulls, sired by the well-bred, mellow, and
good breeding bulls, **Broadhooks Prince**
=81055=, a son of the great sire, **Imp.**
Bullrush, a Cruickshank Butterfly, and
out of the cow **Broadhooks Beauty 2nd,**
and the grandly-bred **Claret bull, Royal**
Clare. The dams of these young ones
on blood lines are the ever-popular **Wed-**
ding Gifts, Kilblean Beautys, Strath-
allans, and Crimson Flowers, better than
which for the dual-purpose of the ordi-
nary farmer there is none. About half
a dozen young bulls, and over a dozen
heifers, can be spared, and the quality
of the offering and the prices asked,
should very soon clean up the lot. In
Cotswolds, the offering is sixteen ewe
lambs and five ram lambs, of remarkable
uniformity of type and covering. These
can also be bought at very easy prices.
Parties wanting either Shorthorns or
Cotswolds will certainly be doing them-
selves a favor by getting in touch with
the Messrs. Smith, at Columbus P. O.
or Myrtle Station, C. P. R., Oshawa or
Brooklin Station, G. T. R.

CLYDESDALES AND HACKNEYS AT MOUNT VICTORIA.

Another visit to the splendid farm,
Mount Victoria, at Hudson Heights,
Que., by a representative of this paper,
developed a pleasant surprise at the
splendid condition and high-class char-
acter of the Clydesdales and Hackneys.
Continual improvement in breed char-
acter, individual excellence, and superb
quality, seem to be the order of things
on this well-managed farm, and surely
the owner, **T. B. McCaully,** of Montreal,
was very fortunate in his selection of
E. Watson for manager. At the head
of their splendid Clydesdale stud are
the three noted sires, **Netherlea (imp.),** win-
ner of championship honors at Glasgow;
the well-known Canadian first-prize
and championship winner, **Lord Aberdeen**
(imp.), and the noted sire of winners,
Lord Mac (imp.). It is seldom that
three such horses are found in one man's
barn, but it only bears out the motto
in vogue on the farm, that "the best is
none too good." The same high-class
character is manifested in the mare and
filly end of the stud, the 1912 importa-
tion making a decided acquisition to the
quality of this end, notably the big,
drafty filly, **Miss Sally (imp.),** by the
Royal champion, **Diploma,** dam by the
renowned **King of Kyle,** and **Ida (imp.),**
by the noted prizewinner, **Baron Mitchell,**
dam by the popular **Ormonde.** These
are both two-year-olds, the former in
foal to the Royal and Highland first-
prize horse, **Prince Shapely.** At the
head of the Hackney stud is the many-
times champion, **Christopher North**
(imp.), a son of the great **Polonias.**
Assisting him is the St. John and Sher-
brooke champion, **Silver King.** Another
is the high-class **Mathias 2nd** imported
in dam, by the famous **Mathias.** The al-
most unbeaten record of these great
horses at the leading shows is the best
guarantee of their high-class individual-
ity and all-round action. Among the
mares are such celebrities as the un-
beaten champion **Cynbal (imp.),** the
Ottawa, Quebec and Sherbrooke cham-
pion **Ophelia's Heiress (imp.),** and the
many-times winner, **Royal Ophelia,** im-
ported in dam. In breeding, there are
also eight imported Shetland mares,
probably the best lot in Canada. Their
produce will be for sale.

Why Wood Silos are the best

Many Government experiment sta-
tions, especially in the United States,
have made exhaustive experiments as to
the most suitable material for silo con-
struction, and the general conclusion
seems to be expressed in the following
statement from a recent experiment
station bulletin: "A round, wooden stave
silo, taking all things into consideration,
has proved most satisfactory."

The reason for this is simple.
The very best silage is obtained when
the whole mass is kept at an even tem-
perature and all air excluded. Cement,
stone or brick silos conduct away the
heat generated in the silage and thus pre-
vent proper fermentation; furthermore,
both cement and brick are porous and
permit the air to get at the silage, thereby causing it to spoil.
The many experiments and tests made have gone to show
that frequently as much as one-third of the silage in a cement
or brick silo will be spoiled and unfit for use, while in prop-
erly constructed wood silos the only spoilage will be a little on
the top.

Due to our colder Canadian climate wood is the only material
suitable for silo construction. If you have any doubts on this
point write to us, and we will be glad to give you further informa-
tion on this vital subject and show you why it is to your interest
to erect an Ideal Green Feed Silo in preference to any other
kind, not only from the standpoint of first cost, but also from
the standpoint of more satisfactory service.

We are the oldest and best known silo manufacturers in
Canada. Thousands of our Ideal Green Feed Silos are in
use on many of the most prosperous farms, and they always
give entire satisfaction.

Send for our new Silo Book. It will explain fully why the
