British Columbia Timber

THE eyes of lumbermen everywhere are turned toward British Columbia as the last great supply source of timber in America. More than \$100,000,000 of United States capital and vast amounts of British capital have been invested in B.C. timber limits and mills within the last six years.

The development of the Canadian prairies and the diminution of the world's timber supply is enhancing the value very rapidly.

NATIONAL FINANCE CO., LTD.

Through its thorough organization and its field experts, this company has accurate information about a large proportion of the available timber properties in B.C. at the present time.

Moreover, we are interested and in touch with some of the largest lumber concerns of Western Canada and have additional

information from this source.

If you wish to purchase for yourself, we shall be glad to take the matter up with you.
