M. reference to the preparation of Broma, appeared in a latenumber of the Boston Medical Journal:—

A few years since a great manufacturer of Broma sought the opinions of many medical gentlemen of distinction, for the purpose of having an unobjectionable food for invalids, and was assured that he had fully succeeded. Hospitals, infirmaries, and households generally, should always be provided with. When gruel, arrowrot, groats, barley, starch, rice, fazina, and many other things ordinarily resorted to for patients are of no utility, the Broma is sometimes relished. It is believed that those no use it as a beverage will have manifest diatetic advantage over the consumers of tea and codice. We see it stated that during the last summer those individuals who were continually using Chocolate or Broma neither had attacks of choiera or dysenteric affections, while others of the same families, taking their daily potations in tea, coffee, or simple cold water, were the sufferers. If any.—We cannot vouch for the truth of this, but it has recalled to mind the statement that the oil dealers in London have been free from Cholera or the choleroid symptoms. And it has been further observed that persons who were taking cod liver oil for chronic difficulties, during the prevalence of the late epidemic, were not affected by it. Vegetable oil in the first instance, and animal oil in the last, taken internally, would appear, by these statements, to have secured those who took them from the shafts of the postilence. It is certainly a point well worth while to determine, whether the chocolate drinkers have been secure in other infected cities."

Mott's Broma has now been before the public for a considerable period, and along with the commendations of the Modical Falculty of this and the neighbouring Provinces, it has received the approbation of all classes of consumers.—It is held to be an article of standard reputation, and the demand for it is constantly increasing.

HOLLOWAY'S OINTMENT,

CURE OF RECUMATISM AND RHEUMATIC GOUT. Extract of a Letter from Mr. Thomas Brunton, Landlord of the Waterloo Tavern, Contham, Yorkshire, late of the Life Guards, dated September 28th, 1848.

To Professor Holloway,

To Frefessor Holloway,

Sig.—For a long time I was a martyr to Rheumatism and Rheumatic Gout, and for ten weeks previous to using your medicines, I was so bad as not to be able to walk. I had tried doctoring and medicines of every kind, but all to no avail, indeed I daily got werse, and felt that I must shortly die. From seeing your remedies advertised in the paper I take is, I thought I wenld give them a trial. I did so. I rabbed the Ointment in as directed, and kept cabbage leaves to the parts thickly spread with it, and took the Pills night and merning. In three weeks I was enabled to walk about for an hour or two in the day with a stick, and in seven weeks I could go any where without one. I am now, by the blessing of God and your medicines, quite well, and have been attending to my business more than seven menths, without any symptoms of the return of my old complaint.

Besides my case of Rheumatic Gout, I have lately had proof that your Pills and Ointment will heal any old wound or ulcer, as a married woman, living near me, had had a bad leg for four years, which no one could cure, and I gave her some of your Pills and Ointment, which soundly healed it when nothing else would do it. For your information I had the honour to serve my country for twenty-five years in the first regiment of Life Guards, and was eighteen years a corporal. I was two years in the Peninsular War, and was at the Battle of Waterloo. I was discharged with a pension on the 2nd September, 1833. The Commanding Officer at that time, was Colonel Lygon, who is now a General. I belonged to the troop of Captain the Honourable Henry Baring.

CURE OF A BAD LEG OF TWENTY-ONE TRARS' STANDING. Extract of a Letter from Mr. Andrew Bruck, Blacksmith, Eyemouth, near Berwick, dated the 10th of August, 1848.

Eyemouth, near Berwich, 1848.
To Professor Hollougay.
Sta,—With pleasure and gratitude I have to inform you that after suffering for 21 years with a bad leg, which yielded to no kind of treatment, although I consulted, at different times, every medical man of eminence in this part of the country, but all to no purpose. I was frequently unable to work; and the ain and agony I often endured no one can tell. My leg is now as sound as ever it was in my life by means of your Fills and Ointment, which I purchased from Mr. I. Davidson, Druggist, Ber wick-upon-Tweed, who knows my case well, and will, I am sure, be happy to certify with me, if necessary, as to the truth of this wonderful cure.

AMPUTATION OF TWO TOES PREVENTED.

Extract of a Letter from Mr Oliver Smith Jenkins, dated Falkirk, August 13th, 1848.

To Professor Holloway, Sir,-I was superintending, about six months ago, the Siz.—I was superintending, about six months ago, the erection of one of our Railway Bridges, and by the fall of a large stone my right foot was seriously bruised, which ultimately got so bad, that I was advised to go to Edinburgh to consult some of the eminent Surgeons, which I did, and was told that in order to save my foot, two of my toes must be taken off. In despair, I returned home to impart the melancholy news to my wife, intending to submit to the operation, it was then a thought struck me to try your valuable Ointment and Pills, which I did, and was by their means in three weeks enabled to resume my usual occupation, and at this time my toes are perfectly cured. Landers of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and vigour.

The number of Diseases mentioned above, as cured by this preparation of Sarsaparilla, may seem large; but we are, nevertheless, propared to prove, by an extensive array of certificates, that such is the fact. A fraction of the evidence which we possess concerning each disease, would be received before any judicial tribunal as complete demonstration. It must be remembered that all this frightful array of maladies, though appearing in an endless variety of forms, are yet similar in their origin and causes; for they all spring directly or indirectly from a corrupt fountain. If the blood were in a pure, healthy, and active state, it would drive all these complaints from the system, and chronic disease would be impossible.

Mr. S. Story, 3rd.,

General Agent for Dr. S. P. Townsend's Sarsaparilla, for British Provinces.

Dear Sia,—My wife has been declining in health for the last fifteen years with weakness and general debility, but it the last 12 months she had been getting worse and worse, being under 3 doctors' hands, and taking various kinds of Medicines, but found she was getting no better, being troubled with palpitation of the heart, &c.—Her frame became emaciated, and her appetite and strength failed, and she was considered, as she undoubtedly was, in the last stage of Consumption. I was informed kindly by one of her doctors that he could do nothing more for her and did not wish to put me to any more expense. As a last resort I purchased a bottle of your valuable Sarsaparilla, from your agent in Kentville, Mr. B. Calkin, at the same time expecting it would be of no use. But I am free to confess that I was disappointed; my wife commen ced using it, and before one bottle was exhausted she experienced a decided relief. She has used about 7 bottles, and her health and strength are restored afid appetite good, and rests well at night. I carnestly recommend it to suffering mankind as a valuable Medicine. You are at liberty to publish this.

Respectfully yours as AMUEL STARR.

THIS MEDICINE has acquired a very extended and catablished reputation wherever it has been used, based entirely on its own merits, which its superior efficacy has alone sustained.—The unfortunate victim of hereiflary disease, with swollen glands, contracted sinews, and bone half carious, has been restored to health and vigour. The scrotulous patient, covered with ulcers, loathsome to bire self and his attendants, has been made whole. Hundred of persons, who had groaned hopelessly for years, under cutaneous and glandular disorders, chronic rheumatism, and many other complaints springing from a derangement of the secretive organs and the circulation, have been raised as it were from the rack of disease, and now with regenerated constitution, gladly testisy to the efficacy of this inestimable preparation.

The following is an extract from a letter received from Mrs. Bevan, who had been afflicted several years with Scrotulous Ulcers, Dyspepsia, &c., and recently with an affection of the throat and chest:—

Messrs. A. B. & D. Sanne: Before I commenced using your Sarsaparilla, my sufferings were almost past expression; bay throat was completely ulcerated, I had a dreadful cough, and there were frequently weeks together that I could not speak above a whisper; and besides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking the Sarsaparilla a short time, my health improved, and my throat is now well; I am as free from cough and tightness of the chest as ever I was and can hear quite distinctly. My throat has been well about three months, the cure of which has been effected entirely by the use of your Sarsaparilla. Your friend, LOUISA R. BEVAN.
