## Deering Haying Machines

ALTHOUGH the weather and the hay crop are beyond your control, your success at haying time in getting the crop safely into barn or stack depends largely on methods and machines.

Many years of trying out in many fields have proved that you cannot do better than to make your choice from the Deering line of haying tools—mowers, rakes, tedders, side delivery rakes, windrow hay loaders, etc.

Deering haying tools are carried in stock or sold by IHC local agents who can take care of you quickly in case of accident. It is their business to see that you are satisfied with the Deering haying machines and tools you buy from them.

Write to the nearest branch house for the name of the nearest dealer handling Deering haying tools, and we will also send you catalogues on the machines in which you are interested.

### AVOID ENGINE TROUBLES

Poor lubrication is the cause of most of them. Tractor lubricants should be oils made especially for the purpose.

## Polarine

is an ideal tractor oil. It leaves practically no carbon deposits and gives the fullest possible lubrication. Especially suitable for tractors with close-fitting bearings.

### STANDARD GAS ENGINE OIL

Especially suitable for long stroke, low compression engines. "Stands up" and lubricates properly in the hottest cylinder. The farmer's defence against tractor breakdowns.

Our non-leakable steel barrels give an economical and cheap method of handling oils on the farm.
