

# You Have it in You to be a Speaker

Demosthenes, the great Greek orator, stuttered badly; but overcame it by practicing with pebbles in his mouth. Lincoln's first audiences were the cows in his father's stable. Every famous speaker had to learn how. So can you.

Before any man can do himself justice when he rises to say a word at a public meeting he must feel at ease. That confidence comes with knowledge. A little quiet preparation and your neighbors will open their eyes. You can do it.

**Rhode Island Red**—Are in every way the same as their Single Comb cousins, except comb. Their combs are low down and frost proof. Rhode Island Reds are pushing to the front as a popular variety and they deserve it, as few other breeds equal them as a general purpose fowl. The color of plumage is a dark red, tails and wings edged with black. They are good egg producers of large brown eggs. They are very hardy, bear confinement well, but make good foragers if allowed to roam, and for a market fowl they are unsurpassed. They make good setters and careful mothers, very seldom breaking an egg.

**Barred Plymouth Rocks**—For a general purpose fowl are far in the lead. Their plumage is a beautiful blue barred. They have good size, bright yellow legs; are accustomed to any locality, whether the climate be hot or cold; are the best layers and are hardy and vigorous. The hens make good mothers, and the chicks grow and fatten quickly for market.
