When a newspaper offers its advertising space at a nominal figure, it is a practical admission of "no eirculation." THE KLONDIKE NUGGET asks a good figure for its space and in justification thereof guarantees to its advertisers a paid circulation five times that of any other paper published between Juneau and the North Fole.

#### THE MINISTERIAL VISIT.

It appears now that Sir Wilfrid Laurier, the premier, will not be included in the ministerial party which will visit Dawson in August. This conclusion must be regarded as a disbeen recognized at Ottawa that accurate intermation has often been wanting when legislation affecting the welfare of this country, has been under

It has been quite apparent since the visit of the governor general that a radical change has taken place which to advance wages to the figure demandto the fact that his excellency made such practical use of the intermation which he gleaned during his short stay

One thing has been clearly established. Oranges can be placed in Dawson within less than three weeks after being taken from the trees. We see no eason, therefore, why the people of Dawson should want for such luxuries as long as they are willing to pay fancy prices therefor.

#### Trouble at Skagway.

There were very few developments in the longshoreman's strike Sunday and yesterday. A crew of non-union, men was obtained to discharge the cargo of the Danube, as told in Sunday morning's issue, and she was gotten away at 6 o'clock in the evening, which was tinct misfortune. The fact has long about the time Agent Dunu expected to get her out before the labor difficulty arose. When the Al-Ki of the Pacifi Coast company, came in Sunday Agent Kelly had a crew ready to proceed with the unloading of her and the cargo which consisted of lumber, shingles and general merchandise was taken out iu good time. \_

The Dolphin was provided with 22 non-unionists by Agent Frank E. Burns and he says there were more applicants

The fight, however, is not over, ac cording to some of the union men They think the surplus labor in the city will be greatly reduced in a few days now that navigation is open, and then they expect the steamship companies, which will be doing a big busipess in freight, much of which will have to be handled expeditiously, will be more ready to consider a proposition must be attributed in a measure at least |ed by the strikers. They say the fight is not yet fairly on, and that it will be conducted in an orderly manner. A good deal of missionary work is being done by the members of, the union to. induce outsiders to abstain from work-Were the premier to accompany his ing the boats during the pendancy of able results.

The situation is now that plenty of men can be had to discharge the carwhich the agents are willing to allow. #### SUCCESS AND FAILURE.

#### The Higher the Purpose the Rares the Achievement. If by success we mean the full ac-

complishment of an end, the actual reaping of a harvest of results, then it is undoubtedly true that the higher and nobler the purpose the rarer will be the success. If we aim to relieve a man's hunger, we can quickly succeed in the easy task, but if we aim to inbread the work is more difficult and the success far more problematical If we would restrain a thief from robbery, the prison bars and locks insure sincess but if we would make an honest man of him our task is a complex one and success may be afar off. undertake to teach a child to read.
