TEMISKAMING AND NORTHERN RAILWAY COMMISSION.

PUBLIC SALE OF TOWN LOTS

"The Temiskaming and Northern Ontario Railway Commission will offer for sale by public auction at Cobalt, in the District of Nipissing, on Thursday, May 17th, 1906, at three o'clock p. m., about 40 lots, situated in the town site of Cobalt, together with the mining rights thereon.

The Commission will also on Friday, May 18th, at eleven o'clock a. m., offer for sale by public auction at Englehart, (divisional point and formerly known as the White River crossing), about 100 lots, situated in the town site of Englehart.

In connection with the latter sale, train service will be provided, leaving New Liskeard at eight o'clock a. m., May 18th, returning to New Liskeard same day. Arrangements will also be made by which parties attending sale may obtain refreshments.

Further terms and conditions of sale will be made known at the time of sale.

Terms of payment—Twenty-five per cent. of purchase price must be paid at the time and place of sale and the balance within thirty days thereafter.

To wilful men the injuries that they themselves procure must be their schoolmasters.

A chief feature of a beauty show now prevalent is the absence of good-looking exhibits.

THREE TRYING TIMES IN A WOMAN'S LIFE

There are three periods of a woman's life when she is in need of the heart strengthening, nerve toning, blood enriching action of

MILBURN'S HEART AND NERVE PILLS

The first of these is when the young girl is entering the portals of womanhood. At this time she is very often pale, weak and nervous, and unless her health is built up and her system strengthened she may fall a prey to consumption or be a weak woman for life.

The second period is motherhood. The drain on the system is great and the exhausted nerve force and depleted blood require replenishing. Milburn's Heart and Nerve Pills supply the elements needed to do this.

The third and last change of life is when the woman reaches the age of

At St. John, N. B. May 5.—Henry McKeown, a resident of the town of Englehart, who was injured yesterday through the explosion of a dynamite mine, died at the hospital here.

A GOOD EXAMPLE

How a Young Man Made a Success of Life With a Very Modest Start

Rothwell & Co., the real estate subdividers and sellers of vacant property by lots, in a recent interview, with one of the Detroit dailies, among many transactions tell of how a young man started in a small investment, and is now well off. A Mr. E. A. Lawrence, ten years ago, bought through this firm a vacant lot on the corner of Michigan and Griffith avenues for \$1,000, and paid all the ready money he had saved down, \$300. He had a fair situation, but by economy and by having an object in saving, he paid on the lot an average of \$25 per month. It was not long before he had a half paid; he built a neat cottage on the rear end of the lot, moved in and saved house rent, which he applied on his purchase and building. In three years he had it paid for, and he then built a small store on the front part, in which his wife and son opened a grocery, the father maintaining at his work, and in three years he had it all paid for. The business was a success, and they made money, and two years ago he bought two more, and paid cash for them. Last year he bought another lot for \$600, and last week he bought two more lots and paid half cash, and to-day he is not worth a cent less than \$15,000. He remarked to Mr. Rothwell a few days ago that he laid his success to Major Rethwell for urging him to buy the lot, and he brought his son with him into the office. His son was just recently married. The father, in presenting him, said, "I want my son to buy a lot, and to start just as I did. He has \$25 to pay down and he will pay ten dollars per month." No doubt the son will become well off, for he has some object in view now to save his dollars.

Why do not more of our citizens encourage their sons in the same way?

STANDARD OIL CO.

Commissioner Garfield's Report is Very Outspoken Regarding the Octopus—President Roosevelt.

Washington, May 5.—Commissioner of Commerce and Labor Garfield has submitted a report on the oil industry, which has to do with the subject of transportation and freight rates. He says in part:

"The general result has been to disclose the existence of numerous and flagrant discriminations by the railroads in behalf of the Standard Oil Co. and affiliated corporations. With comparatively few exceptions, mainly of other large concerns in California, the Standard has been the sole beneficiary of such discriminations. In almost every section of the country that company has been found to enjoy some unfair advantage over its competitors, and some of these discriminations affect enormous areas.

"Discriminations in the transportation of oil embracing a variety of forms, the more important of which may be classed under the following heads: 1. Secret and semi-secret rates. 2. Discriminations in the open arrangement of rates. 3. Discriminations and rates of shipment. 4. Discriminations in treatment of private tank cars. Many of the secret rates discovered by the bureau of corporations have applied only on shipments of oil wholly within single states. The Standard Oil Co., which controls refineries in twelve states, is obviously in a position to make extensive use of such intra state rates, or as they are ordinarily designated, single state rates."

President's Comment.

President Roosevelt submitted Commissioner Garfield's report to Congress yesterday and accompanied it with a message, in which he said: "Through not bearing upon the question of railroad rates, there are two measures, the consideration of which is imperatively suggested by the submission of this report. The Standard Oil Co. has largely by unfair or unlawful methods, crushed out home competition. It is highly desirable that an element of competition should be introduced by the passage of some such law as that which has already passed the House, putting alcohol used in the arts and manufactures upon the free list. Furthermore, the time has come when no oil or coal lands held by the Government, either upon the public domain proper or in territory owned by the Indian tribes, should be alienated."

An Indignant Denial.

New York, May 5.—When the President's message, with the accompanying report of Commissioner Garfield, was received at the office of the Standard Oil Co. in New York, Mr. E. Elliott, general counsel of the company, was asked what reply he came to make. He said, in part:

"It is difficult to comment hurriedly and with due restraint on the astonishing report of Mr. Garfield. We must, however, in justice to ourselves and our shareholders, immediately express our unbounded surprise over Mr. Garfield's report and our unequalled declaration that it is absolutely unfair and unjust toward us. We do not hesitate for a moment to say that an unprejudiced study of the facts presented by us to Mr. Garfield's investigators will vindicate us absolutely. In this statement we make no reservation."

SOCIETY

Mrs. Morris, of Montreal, returned to her home on Wednesday, after visiting Mrs. Geo. T. McKeeough, Head street.

Mrs. (Dr.) J. W. Gray, St. Catharines, held a delightful reception at her residence this week, and was assisted by her mother, Mrs. J. M. Pike, of this city.

A number of her friends tendered Miss Pearl White a duster shower on Tuesday evening, at the home of Mrs. Milton Bogart. A very pleasant time was passed and at the conclusion of the entertainment a vote of thanks to the host and hostess was passed.

Manager Brisco has secured Gordon & Bennett's most impressive drama, 'The Holy City,' to play the Grand next Thursday. Lovers of the dramatic art and people of artistic taste will find in the play a combination of scenic, musical and dramatic features unequalled by any other production on tour. To the person of education and refinement, the fine language of the piece and its great historical worth will especially appeal. All Chatham's society should, and no doubt, will be present at the Grand next Thursday evening.

BOOKS AND MAGAZINES

The May number of The Quiver opens with "Children's Classics," by Bella Sidney Woolf, in which is given short sketches of such well known books as "Little Women," "Black Beauty," "Misunderstood and their Authors," "The Vicar's Stories," "A Novel Hospital Ship," "After Twenty-five Years," "Dr. Horton and His People," "After a Year of Blessing," "The English Mayor of Philadelphia," "Mistakes in Home Nursing," "Several stories and the usual departments all contribute to keep this number up to the high standard which is always to be found in The Quiver, which is published by Cassell & Co., New York. Subscription price \$1.50 per annum.

McClure's Magazine for May in addition to its sterling text, headed by the first of the Kipling stories and the Life Insurance article, is one of the best illustrated numbers of any periodical that has been on the stands in a long time. The following well known artists appear in its pages: Andre Castaigne, Jacksons, Tenn, Ditzler, Lowell, Wyeth, Taylor, and Sloan. In addition Prof. Woodberry's valuable essay on Milton is illustrated with good reproductions of rare portraits of the great poet.

The Review of Reviews, more than any other monthly magazine published, deals with the news of the month. "California's Catastrophe," "George F. Baer: Master-Spirit of the Antitrust Industry," "Municipal Ownership in Chicago," "Railway Rates and Court Review," "Congress and the Consular Service," "From New York to Paris by Rail," and "The New York Post Office" are among the titles of articles in the May number.

Twenty-two persons contributed to the varied table of contents in the May Canadian Magazine. Stories, sketches, poems, sporting articles, bits of history and more serious material make up the menu. Harold Sands recalls the fact that Simon Fraser started in May, 1805, for the exploration of the unknown district now known as British Columbia, hence the title of his article, "One Hundred Years in British Columbia." Accompanying this is an excellent plate of the first government office on the mainland. Bonnycastle Dale writes on shooting and fishing in the Trent Valley—which is one of the most delightful and typical sporting resorts in older Canada. Mr. Boulton's description of the circumstances under which he won a seat in the British House of Commons is quite entertaining. Mr. McCready, a veteran journalist, begins a series of reminiscences of the first Dominion Parliament.

Warm Home

Wooden frame work, covered with METAL SHEETS of imitation stone or brick, make a house that is warmer in winter and cooler in summer, than stone or brick.

With metal walls, ceilings and shingles—the house will be damp-proof and fire-proof—and far cheaper in the end than any other building material.

If you intend to build, let us send our illustrated catalogue of sheet metal material for interior and exterior work.

It's PRR if you state what you have in mind and mention this paper.

THE LITTLE JAPS

Mrs. W. A. Hadley and her Troupe of Bewitching Japs Will be a Feature of the Fair

"The Land of the Rising Sun" will be well represented at the coming Fair of Nations by the magnificent Japanese booth, which is now being fitted up. There will be two distinct sections of this booth, one part being Tea Room and the other a Pagoda.

In the former, a troupe of bewitching little Japs will serve Chop-suey, dishes of rice, and a host of typical Japanese dainties. Gold fish will be in evidence both as ornaments and wares, and anyone desirous of purchasing a bowl of these pretty fish will be able to do so.

The Tea Room is being constructed of bamboo and paper and will be modelled after true Japanese style. Its quaintness should prove an irresistible draw for the visitor, and there is no doubt that it will be well patronized.

The Pagoda will present a busy scene during the Fair, for it is in this part of the booth that the ladies will offer their wonderful collection of Satsumi, brass and bronze ornaments, baskets, and the hundred and one different classes of Oriental goods which they have secured right from Japan through the firm of Short & Co., Montreal, the biggest direct importers of Japanese goods in the Dominion.

Japanese lanterns, kites, dolls, fans, sunshades, kimonos and lacquered novelties, besides a bewildering array of strange and fascinating specimens of Japanese handwork, have been obtained and will be offered for sale at the booth, and it is safe to say that the Japanese portion of the big Fair will be enough to turn even a real celestial green with envy.

Mrs. William Arthur Hadley, the convent of the booth, is being assisted by the following ladies: Mesdames Simon and Post, and Misses Stephenson, Marion Thomas, Helen Thompson, Mary Shannon, and Edith Hall.

AUTOMOBILE BILL

Fixes Speed Rate at 15 Miles an Hour in the Country and at 10 Miles in Cities, Towns and Villages.

Toronto, May 5.—The fixing of fifteen miles an hour for the maximum speed for autos in the open country, and ten miles an hour in cities, towns and villages, is one of the new striking provisions of the new auto bill, which was approved by the municipal committee of the Legislature yesterday.

The bill fixes the owner of the auto absolutely liable for any damage done. In the case of accident, the onus of proof rests upon the owner or driver of the auto. Searchlights are prohibited, and numbers are required both back and front. A greater speed than seven miles is prohibited when another vehicle drawn by horses is being met or overtaken.

The driver of an auto must give aid when an accident occurs, and be ready to give in writing his name and address, those of the owner, and the permit number. Failure to adhere to rules re accidents, are liable to a maximum fine of \$50 for a first offence, \$100 for a second and a month's sentence in jail for a third, with cancellation of permit if it be within two years.

Bankers Are Arrested.

Oshkosh, Wis., May 5.—Five lumbermen and bankers, representing an aggregate wealth in excess of \$1,000,000, have been arrested by Federal officers on a charge of conspiracy to defraud the Government by means of alleged land frauds in Oregon. The charge is conspiracy to defraud the Federal Government by having furnished money to Oregon parties to make entries and buy homesteads in Oregon.

Fix Sessional Indemnity.

Regina, Sask., May 5.—The sessional indemnity for the Saskatchewan Legislature was yesterday fixed at \$1,000 by the casting vote of the chairman of the committee of the whole. Haultain moved to have it cut to \$700 and was supported by two Ministers and one other Liberal.

FRISCO DESTITUTE

191,637 Fed In Stricken City Camps—Refugees in Oakland 40,000.

Washington, May 5.—The question of caring for the destitute in San Francisco is causing the officials there great anxiety as shown by the following telegram from Gen Greely, dated Thursday, and received at the War Department over night:

Number of destitute being fed enormous, aggregating by to-day as just reported, 191,637, in San Francisco. Apparently conservative estimates placed destitute refugees at 40,000 in Oakland and Berkeley. How these terrible conditions are to be met is subject of most earnest consideration between Devine, finance committee and myself. "While daily hoping for great decreases in number of destitute am not confident, far-reaching extent of this disaster cannot be appreciated without personal observation."

Damage \$2,000,000.

Oakland, Cal., May 5.—Estimates of the damage wrought by the earthquake in this city total two million dollars.

An Adverse Report.

Washington, May 5.—The Senate committee on finance to-day will make an adverse report on the new lands resolution in relation to an investigation by Congressional committee of means of guaranteeing the credit of San Francisco.

If some people had their way everybody else would get out of it.

The fellow who sings his own praise is usually a soloist.

A grateful thought toward heaven is of itself a prayer.

WE ARE EVER

Giving better values by reaching out for more business. As we increase our output we increase our values.

Next month we open another store in Berlin, which is bound to give us more buying power and consequently lessen our prices—so watch us improve with growth.

In the meantime we are showing some exceedingly excellent things in Young Men's New Spring Suits.

"The Resistor" Rex Flintkote ROOFING

Resists Trouble Everything needed in the

You or Your Farm Hands Can Lay It Well

Rex Fluorene may be laid by any man following the plain directions and simple outfit (complete except hammer) which comes in every roll. The labor is simple and quick—entirely different from shingles or tile.

Rex Fluorene Roofing is made of light fibre wool felt, saturated with an acid, alkali and water-proof material, both sides being coated with water-proof and fire-retarding compounds, protected by a covering of flint—it is, therefore, fire-retarding and water, temperature, acid, alkali, rot and water-proof.

It may be used as a siding as well as a roofing, and will give absolute protection to the stock in most extreme weather.
