

Gleaned by the Way

"Put Yourself in His Place" was the title of an excellent novel, and it is also a maxim well worth following. It helps many a person out of an uncomfortable position.

For a burn or scald apply Chamberlain's Salve. It will soothe the pain almost instantly and quickly heal the injured parts. For sale by all dealers.

Children Cry FOR FLETCHER'S CASTORIA

"But the evidence," said a judge, shows that you threw a stone in this case.

"As" the look as the man through I hit 'im' was Mr. O'Toole's trenchant reply.

Sick headache results from a disordered condition of the stomach, and can be cured by the use of Chamberlain's Stomach and Liver Tablets. Try it. For sale by all dealers.

Fancy socks are now being displayed in the window, and though our fancy does not turn to lizard effects and rainbow hues, yet these fancy socks may be said to cover a multitude of sins.

Fell in a Faint

Mr. Edwin Martin, of the city, writes "before using Dr. Chamberlain's Food I was in a terrible condition. My appetite would come and it would go again. I could not sleep without fainting. Dr. Chamberlain's Food has so built up my system that I can walk and do my household work. Your medicine cured me when doctors had failed."

The Learned One—Do you know that in milk there are over three million bacilli to the cubic inch?

The Other—Bah, how is that so? But I'm not surprised—everything is so beastly overcrowded nowadays.

Children Cry FOR FLETCHER'S CASTORIA

Lady—I must ask you to take back that parrot I bought some time ago. He shocks all my lady friends by his dreadful language.

Fancier—Ah, you've got to be careful 'ow you talk before 'im. 'E's terrible quick to learn!

Tired-Out Kidneys. Kidney troubles are so frightfully common because the kidneys are so easily upset by overwork or excess of eating and drinking. Care is effected not by whipping them on to renewed effort, but by awakening the action of liver and bowels by the use of Dr. Chamberlain's Liver Pills. This resets the kidneys and makes them well. Backache and urinary disorders then disappear.

PILES

Dr. Chamberlain's Ointment is a certain cure for hemorrhoids, piles, itching, burning, bleeding, and all other ailments of the rectum and anal opening. It is sold by all druggists and chemists. For sale by all dealers.

Two tramps had acquired a live chicken by the simple process of laying on of hands.

"Look here," said William, "we've got to divide fair."

"That's right, pard," rejoined Hungry Harrison. "Now I ain't had nothing to eat for three days, and you've ain't had no sleep for three nights, so I'll take de pullet for me breakfast and you'll take de feathers, spread 'em on dat ole plank and proceed tew enjoy yerself."

CASTORIA

For Infants and Children. The Kid You Have Always Bought Bears the Signature of J. C. Fletcher.

A countryman visiting Dublin for the first time took a seat in a tram. Being next to a pompous looking well-dressed man, he commenced conversation in a rather free-and-easy style.

"My good man, reserve your conversation for one of your own equals. I'd leave you know I'm a K. C."

At this the countryman stood up with outstretched hands, exclaiming: "Shake hands, namsake, I'm a Casey myself."

AFTER SUFFERING YEARS

Cured by Lydia E. Pinkham's Vegetable Compound.

Pox Creek, N. B.—"I have always had pains in the legs and a weak, nervous system. When I saw the advertisement for your Compound, I bought a bottle and used it. The pains disappeared and my system was restored."

Chief Justice White is a Southerner, and knows many negro stories. A writer in Munsey's Magazine cites the following as one of his favorites:

Two Louisiana negroes who work on Mr. White's father's plantation got into a quarrel with a third laborer, who carried a pistol. The man with the revolver began to shoot, and the two others ran to cover. When they were out of range, one of them said to his companion:

"What you been dar'nted bullter?" "What I did, I heard it twice." "What do you mean by that?" asked the first one.

"I heard dat bullet when whod it bopped me, and den again when I jumped it," was the answer.

Minard's Lament—Lumberman's Friend.

Atlantic Travel

It is said that one and one quarter million people crossed the Atlantic last year. This year it is expected that this record will be broken. Coincident with the development of Atlantic travel there has been the most remarkable progress in shipbuilding. So rapid is progress in this respect, that the average life of an Atlantic liner is twenty years. The greatest liner of the present day is the Olympic, 45,000 tons. This vessel is 882 feet long, 94 feet in breadth, and 175 feet from the top of her funnel to her keel. She has a passenger capacity of 2,500, and carries a crew of 860.

Billousness and Constipation. For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Bismach and Liver Tablets. The tablets relieve the liver, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally. Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by all dealers.

Vibration of the Earth.

A writer in a Paris journal says that the earth is subject to constant vibrations due to other causes than earthquakes. Breakers dashing against the rocky coasts will, by causes, cause the vibration to very considerable distances inland. At points in the interior of Germany oscillations of this character have been found to be due to the North Sea breaking on the southern coasts of Norway. Violent winds and even frosts will produce a similar effect.

There will be three camps at Aldershot this year. The first will open June 13 and will be for the field artillery. Batteries from Yarmouth, Digby, Pictou and Sydney will attend. The second and third camps will be on August 29th and September 18th, and will be for cavalry and infantry. The 6th Annapolis Regiment is to attend the second camp.

Customer—I see you advertise a fire sale. What have you that is marked down?

The Public Benefactor—Well, we have some smokin' jackets unt meerschaum pipes slightly damaged by smoke, and some rats coats slightly damaged by water.

For instance of the masses whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by all dealers.

The man about to pay his fare on a pay-as-you-enter car dropped a dollar, which fell to the pavement and rolled across the pavement into an opening where it disappeared. The loser watched its course. It wouldn't have gone half as far if I'd have spent it," he said.

Agent—Madam, have you a piano?

Housewife—Yes.

Agent—I am selling an attachment which I am sure—

Housewife—We have one.

Agent—What make is it?

Housewife—Sheriff's.

"Bliggins says he loves his work."

"I should think he would. He's one of the men whose work leaves them about half the day to play golf."

"All de reward you's liable to git job tryin' to seem too smart," said Uncle Eben, "is to make folks suspicious about doin' business wid you."

It is easier to enrich ourselves with a thousand virtues than to correct ourselves of a single fault.—Bruyere.

\$3,600 in Cash Prizes for Farmers

Tell Us How You Did It

You may win a prize by doing so

Suppose your friend Bob Wilson, on the next concession, "piled up" at your front gate on the way back from market and asked about that silo or barn foundation you built, you would be glad to tell him, wouldn't you? And it wouldn't take you long, either, would it? And, as a matter of fact, you'd find as much pleasure telling him as he would in listening—don't that right?

First you would take him over to view the silo or barn foundation. Then you would start to describe its dimensions—the kind of aggregate used—the proportions of cement used—number of men employed—number of hours' working time required—method of mixing—kind of forms used—method of reinforcing. If you had a concrete work shown by photograph sent in was done up—and finally, what the job cost. So that by the time you finished, neighbor Wilson would have a pretty accurate idea of how to build, whether building the particular piece of work which you described, or about building a similar piece of work which you described. Now couldn't you do the same for us, with this difference—that you stand a good chance of getting well paid for your time? In Prize "A" of our contest, open to the farmers of Canada, we offer \$100.00 to the farmer in each Province who will furnish us with the best and most complete description of how any particular piece of concrete work shown by photograph sent in was done up. The size of the work described makes no difference. The only important thing to remember is that the work must be done in 1913 and "CANADA" Cement used. It is not too particular about grammar or spelling or punctuation. Leave that to literary folk. Tell it as you would tell it to your neighbor. What we want are facts, plainly and clearly told. And it is simple. And surely it is well worth your while when you think of the reward in view. Now sit right down, take your pen or pencil—fill out the attached coupon—or a post-card if it's handier—and write for the circular which fully describes the conditions of this, the first contest of the kind ever held in Canada.

Every dealer who handles "CANADA" Cement will also be given a supply of these circulars—and you can get one from the dealer in your town, if that seems more convenient than writing for it. Contest will close on November 15th, 1913—all photos and descriptions must be sent in by that date, to be eligible for one of these prizes. Awards will be made as soon as possible thereafter. The decisions will be made by a disinterested committee, the following gentlemen having consented to act for us, as the jury of award: Prof. Peter Gillespie, Lecturer in Theory of Construction, Ontario Agricultural College, Guelph; and Prof. M. MacDonald, Editor of "Construction."

Having decided to compete for one of the prizes, your first step should be to get all the information you can on the subject of Concrete Construction on the Farm. Fortunately, most of the pointers that anyone can possibly need, are contained in our wonderfully complete book, entitled "What the Farmer Can Do With Concrete." A large number of Canadian farmers have already read it and obtained copies of this free book. Have you got your copy yet? If not, you'd better send for one today. Whether you are a contractor for one of our prizes or not, you really ought to have this book in your library. For it contains a vast amount of information and hints that are invaluable to the farmer.

German Brewers' Anti-Tetotal Crusade.

No longer can Germany be regarded as the beer-drinking paradise. Amassed at the inroads being made by the total-abstinence movement, in their very midst, the brewers of the Fatherland are hastily organizing a nationwide anti-tetotal propaganda, by means of which they hope to stem the tide of public opinion, which is so rapidly setting against them. No recent event in the progress of reform throughout Europe is more significant. The astonishing paradox of a defensive movement which is felt to be required by the brewers in Germany is a graphic flashlight on the changing ideas of the people and the rapidly-growing sentiment in favor of total abstinence. An alliance against the spread of the tetotal movement, in which brewers, saloon keepers, wine dealers, vineyard owners, liquor machinery makers and other have combined, has just been organized with headquarters at Breslau. So urgent appears to be the need of their educational propaganda that large advertisements have already been inserted in nearly all the leading newspapers of Silesia, trying to prove to the people "The Value of Alcohol" and "Facts and Fictions of the Brewing Industry." The chilly transformation from happy contentment and security to an attitude of alarm and anxiety must be a novel though disagreeable experience for these big brewer barons of Emperor William's domain.—National Advocate.

Seven as a Symbol. What is the number 7 the symbol of? Why, it is the symbol of perfection. Seven is the perfect number. Well, here are seven wise counsels from the "Abstainer's Advocate," which form a perfect ideal for members of Bands of Hope:—

1st—Present yourself a perfect example of entire abstinence from all intoxicating liquors as a beverage.

2nd—Do all you can to influence others to take the total abstinence pledge, and live a temperate and sober life.

3rd—Invite and urge all friends of the cause to join us, that by a strong union and compact organization we can present an undivided front to the world about us.

4th—Treat the traffic as the scourge of humanity, and do all you can by voice, pen and vote to outlaw and destroy it.

5th—Fight the drink. It is the drink which brings all the evils of the temperance about us.

6th—Attend your Band of Hope every meeting as far as possible—and thus encourage and strengthen the members and sustain and perpetuate the cause throughout the land.

7th—Never be discouraged. The battle is the Lord's. Be faithful to the end. Carry your principles with you wherever you go. This terrible scourge of the earth shall yet be driven from the world.

What to do with a Law Abiding Saloon.

In a temperance talk to men, in connection with the 3rd annual convention of the Dominion Alliance, held last week in Montreal, Mr. Clinton Howard asked, "What was a law-abiding saloon? A saloon, he replied, that breaks the law, and then followed all with a denunciation of the saloon-keepers for the breaking of the law in the Dominion, and the eternal condemnation of them." They thought themselves, he said, to be a privileged class of criminals above the law of the land. And if they asked what proportion of saloons were law abiding, he would reply that in round numbers they were one hundred per cent. What should we do with a law-abiding saloon when we found it? He thought like a white rhinoceros, skin it and stuff it and send it to the National Museum at Ottawa. The saloon was federated with every organization of evil. The grocer, the butcher, every other industry stood close, but the saloon was in league with every vile influence.

Surely so many church members are sympathetic concerning the drink traffic only because they have not so fully awakened to the fact that the saloon is in league with every vile influence! Can any one deny the fact? Let any one who has been indifferent ponder over it and he will not be afraid to be called a fanatic in the discussion of his fight against the traffic.

CRIPPLE FROM RHEUMATISM

NOW IN PERFECT HEALTH THANKS TO "FRUIT-A-TIVES"

Vancouver, B.C., Feb. 1st, 1910. "I am well acquainted with a man, known to thousands in Vancouver, Victoria and New Westminster, who for nearly a year was practically a cripple from Rheumatism. He was so troubled with the disease that he found it difficult to even turn over in bed. His heart appeared so weak that he could hardly walk up stairs.

Last June he received a sample of "Fruit-a-tives." He used them and dated his recovery from that time. Today, there is no man in Vancouver who shingles a good part of the roof in a driving rain, without suffering any bad effects."

Mr. E. E. Mills, (assistant postmaster at Knowlton, Que.) also writes: "I honestly believe that 'Fruit-a-tives' is the greatest Rheumatism cure in the world." Try it yourself.

Box, a box, 6 for \$2.50, trial size, 25c. At dealers, or from Fruit-a-tives Limited, Ottawa.

A story in which pathos is mingled with humor comes from East London. A minister gave a poor boy a suit of clothes, which seemed like a dream of heaven to him. After a week had passed, the minister met his little friend again, and, knowing the drunken habits of his parents, who had pawned every thing for drink, he was pleased and surprised to see the boy still wearing the suit. "You have still got it," he said. There was a world of pathos in the boy's reply. "Yes, sir; I always sleep in it!"

Now is the time to get rid of your rheumatism. You will find Chamberlain's Liniment wonderfully effective. One application will convince you of its merits. Try it. For sale by all dealers.

The difference between the prohibition and license States is thus graphically told by Governor Glenn: "In Maine if I wish to find a place where one might get a drink, I am compelled to get a guide for the purpose. In New York it takes a guardian to keep a man from getting a drink, even when he doesn't want one."

J. M. Howell, a popular druggist of Greenburg, Ky., says "We use Chamberlain's Cough Remedy in our own households and know it is excellent." For sale by all dealers.

Woolen breadboards are kept in better condition by rubbing them with sand than by simply using soap.

Flavor

in tea must be distinctive, pleasing and unvarying to merit continuous use. The flavor of Red Rose Tea is all its own, and it never fails to win and hold approval because it never fails in quality. Try it.

RED ROSE TEA "is good tea"

Poultry Raising That Pay It All Back—And More

Many a dollar is invested in poultry raising and never comes back—why? For the simple reason that the necessary knowledge has not also been invested. The way to get your money back, and a lot more with it, is to know exactly what to do, and how to do it.

You cannot get this practical knowledge from a book. You have to get it from those who have made big money raising poultry through right methods. The help and guidance of such experts are given you in the Poultry Course of the International Correspondence Schools. Every phase of successful poultry raising is covered in detail, such as: Practical way. Here are several of the subjects:

How to select most profitable breeds; feeding; incubating; hatching; raising; caring for profitable chickens; raising ducks; raising geese; raising turkeys; water fowl; quail; etc.

Besides all this, the I. C. S. is associated with the largest poultry farm in the world—the Henshaw Poultry Farm—where specimens of every kind are made for the benefit of those taking this Course.

The attached coupon will bring you descriptive circular of this great Poultry Raising Course. Fill it in and mail it today.
