Wonders

Are wrought by the use of Ayer's Hair Vigor.

Vigor in restoring gray hair to its original color, promoting a new growth, preventing the hair from falling, keeping it soft, silky, and abundant, and the scalp cool, healthy, and free from dandruff or humors.

The universal testimony is that this preparation has no equal as a dressing, and is, therefore, indispensable to every well-furnished toilet.

"I have used Ayer's Hair Vigor for some time and it has worked wonders for me. I was troubled with dandruff and my hair was becoming bald; but since using the Vigor my hair has ceased coming out, and I now have a good growth, of the same color as when I was a young woman. I can heartily recommend any one suffering from dandruff or loss of hair to use Ayer's Hair Vigor as a dressing."—Mrs. Lydia O. Moody, East Pittston, Me.

"Some time ago my wife's hair began to come out quite freely."

Ayer's Hair Vigor

not only prevented my wife from becoming bald, but it also caused an entirely new growth of hair. I am ready to certify to this statement before a justice of the peace."

H. Hulse, Lewisburg, Iowa.

"Some years ago, after a severe attack of brain fever, my hair all came out. I used such preparations for restoring it as my physicians ordered, but failed to produce a growth of hair. I then tried, successively, several articles recommended by druggists, and all alike fell short of accomplishing the desired result. The last remedy I applied was Ayer's Hair Vigor, which brought a growth of hair in a few weeks. I think I used eight bottles in two years, more than was necessary as a restorative, but I liked it as a dressing, and have continued to use it for that purpose. I believe Ayer's Hair Vigor possesses virtues far above those of any similar preparation now on the market."

—Vincent Jones, Richmond, Ind.

Ayer's Hair Vigor

PREPARED BY

DR. J. C. AYER & CO., Lowell, Mass.

Solely by Druggists and Perfumers.

Why is your hat like an advance agent? Because it goes on ahead of you.

The Lady Godiva must have had exceptionally long hair since it completely concealed her lovely person. Since Ayer's Hair Vigor came into use such examples are no longer rare.

It not only promotes the growth of hair but gives it a rich, silken texture.

Winks—So you married a divorced woman whose husband is still living. Don't you hate him? Jinks—Well, I felt that way at first, but now I'm beginning to sort of sympathize with him.

A gray beard on a man under 50 makes him look older than he is. The best dye to color brown or black is Buckingham's Dye for the Whiskers.

Here is a fair bit at the singer. "Mamma, I asked a little girl, 'why is it they sing in church.' 'We're going home to dine on more, and they go right home and dine!'"

Kinard's Liniment Cures Dandruff.

Mothers. Castoria is recommended by physicians for children's ailments. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste, never causes harm. It relieves constipation, regulates the bowels, quiets pain, cures dandruff and wind colic, always feverish, destroys worms, prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mother's friend. 35 cents, 55 cents.

Mrs. Locket—Can't you find the pocket? Mr. Locket—Yes, Lucy, I found the pocket. Then, why don't you bring me my things? "I found the pocket, but I have not found the way into it."

C. C. RICHARDS & Co. Gents—I took a severe cold, which settled in my throat and lungs and caused me to entirely lose my voice. After six weeks I suffered great pain. My wife advised me to try MINARD'S LINIMENT and the voice came back. I was after only three doses and an outward application, my voice returned and I was able to speak in the Army that night, a privilege which I had not enjoyed for six weeks.

Charles Plumbe, Yarmouth.

Customer—"How does it happen that these things have suddenly gone up fifty per cent?" New Boy (amazed at customer's ignorance)—"Why haven't you heard? Tax tariff duty on these things has gone up five per cent."

Oh, What A Cough. Will you heed the warning. The sign, perhaps of the sure approach of that terrible disease Consumption, is a cough. If you neglect it, you may find it too late to cure. The sign of a cough is a warning. The sign of a cough is a warning. The sign of a cough is a warning.

John Hopkins. 86 Union St., St. John, N. B.

Ethel (ambitious)—"What would you do if you had a voice like mine?" Maud (spiteful)—"I'd try to put up with it."

The Rev. Geo. H. Thayer, of Bourton, Ind., was a child who cried for Castoria.

When she was a child, she cried for Castoria.

When she became Miss, she sang to Castoria.

When she had children, she gave them Castoria.

She (in the parlour)—Oh, Charley, I didn't know it was so late! Just see my watch! I'm almost one! He (reproachfully)—Oh, my darling! Almost now! Let me hope that you will make up your mind fully.

When Baby was sick, we gave her Castoria.

When she was a child, she cried for Castoria.

When she became Miss, she sang to Castoria.

When she had children, she gave them Castoria.

At the recent Church Congress, the Dean of Rochester made a strong appeal to the Prince of Wales to use his influence in the world of society to do away with betting and gambling. It seems to be the general opinion of those best acquainted with high society and what influences it, that the Prince's power with upper London is so great that if he were to frown upon gambling, society would drop it. Even the Pall Mall Gazette, which does not overrate the power of princes, thinks the prince ought to try what he can do, as more than any other man, would be likely to prove successful.

Farm and Household.

RULES TO KEEP A CHILD HEALTHY.

Twice, or even three times a day, in very hot weather, the whole surface of the body should be sponged with water at a temperature of 80° F., and after dried with gentle rubbing. The bracing effect of the bath is greatly increased by the addition of rock-salt or concentrated sea-water. Care should be taken to wet the child's head, and to see that it is not in a current of air. The following rules being a portion of those recommended by the Obs. et Dis. Soc. of Philadelphia, and published by the Health of that city, are concise and worthy of quotation:—

Rule 1. Bathe the child once a day in lukewarm water. If it be feasible, sponge it all over twice a day with lukewarm water and vinegar.

Rule 2. Avoid all tight bandaging. Have light flannel as the inner garment, and the rest of the clothing light and cool, and so loose that the child may have free play for its limbs. At night undress it, sponge it, and put on slip. In the morning remove the slip, bathe the child and dress it in clean clothes. If it cannot be afforded, thoroughly air the day clothing by hanging it up during the night. Use clean diapers, and change them often. Never dry a soiled one in the room in which the child sleeps, never use one for the second time without first washing it.

Rule 3. The child should sleep by itself in a cot or cradle. It should be put to bed at regular hours and be taught to go to sleep without being nursed in the arms. Without the advice of a physician never give it any spiritous, cordial, carminative, soothing syrups, or sleeping drops. Thousands of children die every year from the use of these poisons. If the child frets and does not sleep, it is either hungry or else it is, it needs a physician. Never quiet it by any opiate or by cake; they are common causes of diarrhoea.

Rule 4. Give the child plenty of fresh air. In the cool of the morning and early evening have it out of doors, for a little; take it to the shady side of broad streets, to the squares, to the park, or make frequent excursions on the river. Whenever it seems to suffer from the heat, let it drink freely of water, which has been boiled and cooled by the ice. Keep it out of the room in which washing or cooking is going on. It is excessive heat that destroys the lives of young infants.

Rule 5. Keep your house sweet and clean, cool and well-ventilated. In very hot weather let the windows be open day and night. Do your cooking in the yard, in the shed, in the garret, or in an upper room. Whitewash the walls every spring, and use the cellar is clear of all rubbish. Let no slops collect to poison the air. Correct all foul odors by pouring chloride of lime into the sinks and privies. Make every effort yourself, and urge your neighbors to keep the gutters of your street or of your court clean.

Should an infant be attacked with summer diarrhoea the prompt attention of a physician is imperative, and since these articles are intended to point out the methods of preventing the ill effects of the "second summer" rather than of curing them, I shall avoid entirely the therapeutic aspect of the subject.
