I offer THE HERALD to the public, be-

local news, and by having upon its staff an experienced city editor, who will devote his whole time to the local work, it will be able to give a complete and reliable report of the events which happen in Fredericton and vicinity.

In the selection of general news, regard readers of the HERALD can be reasonably will be given in condensed, terse form, s that much will be compressed into small space. No effort will be spared to make this journal, as nearly as possible, a complete record of current events.

Long editorials will be discarded as rule, and in this department the subjects dealt with will be those of a present in terest and which have some bearing upon the affairs of the people of Canada.

In politics the HERALD will be LIBERAL. Canada is essentially democratic in sentiment. Their manner of living, their education, the example set them by their fathers, are such that self-government and BOY WANTED. Enquire at the Office. JOHN RICHARDS equal rights must ever be the birthright of Canadians. It follows therefore that system of administration which favors one class above another, are antagonistic to public sentiment and the best interests of the country. An important epoch in the history of this country is not far distant. Changes in the political status of the Dominion may be brought forward to be dealt with practically at any time. The HERALD will enter upon the discussion of such subjects as these with a determina tion to consider them from a Canadian standpoint, and to favor and advocate anything calculated to advance the mate rial interests of the people.

In discussing the political issues now before the people, this journal will act in sympathy with Her Majesty's Loyal Oppo-

The so called "National Policy" is simply the outcome of past and present extravagance, and cannot be justified by reference to any principle other than this that the country ought to meet its en gagements as they fall due. The people not being willing to have resort to direct taxation, it follows, as a matter of course, that whatever party is in power will be Nevertheless such alterations ought to be made in details as will make the burden of taxation bear as lightly as possible upon the staple industries of the country and the laboring classes. The nearer we can ap proach to free trade the better, in view as w ll as of the interests of our own people as of the relations in which the Dominion stands towards the other parts of the Empire and the United States.

Upon the Temperance question the HERALD will occupy no uncertain position; but will give its assistance to any well devised attempt, either by legislation or otherwise, to suppress the use and traffic in intoxicating liquors.

The HERALD will endeavor to keep its readers informed as to the progress o thought in the domain of religion and philosophy, without occupying any extreme or partisan position: neither pubassails some generally recognized opinion Correspondence upon all subjects of public interest is invited upon the same
