The Engine is the world's best. There is a large shipment of Engines on the way here now, and the quicker you send in your order the quicker it will be filled.

2. The signal in case of alarm will consist of 15 strokes to be repeated at least three times on the fire alarm bell at the Central Station and at the West End, and on St. Thomas's Church bell and St. Joseph's bell for the East End.

3. In the event of the alarm sounding it is recommended that everyone out of doors should seek shelter, all others remaining indoors; but they should not go down into cellars.

This of course does not apply to anyone detailed for some de-finite work in connection with the Red Cross or Civic control, or other defence measures.

Many people are acutely sensitive to the odors arising from excessive perspiration, and yet under no circumstances is it wise to completely check perspiration for it is essential to health—many of the impurities of the body are gotten rid of by perspiration.

O'MARA'S PERSPIRATION DEODORANT does not unduly check perspir-ation, but when properly ap-plied it keeps the body comfort-able and sweet—it counteracts

FOR SALE--A \$100 HORSE!

Here's a good horse for \$100, buy him and work him for full twelve months, and after paying expenses you can pocket a whole \$3.00 as your profit.

That kind of a deal doesn't appeal to you, maybe, but you're buying THAT horse every time you lend your \$100 to another party, who condescends to give you \$3 out of his year's profits.

Is there any kind of a machine on earth that you would be satisfied to own for \$100 if it only gave you net profits every year of \$3?

Let us tell you what to do with \$100 for one year, so that it will earn you anything from twenty per cent. upward.
