

SAYS HER RECOVERY IS ALMOST LIKE A MIRACLE

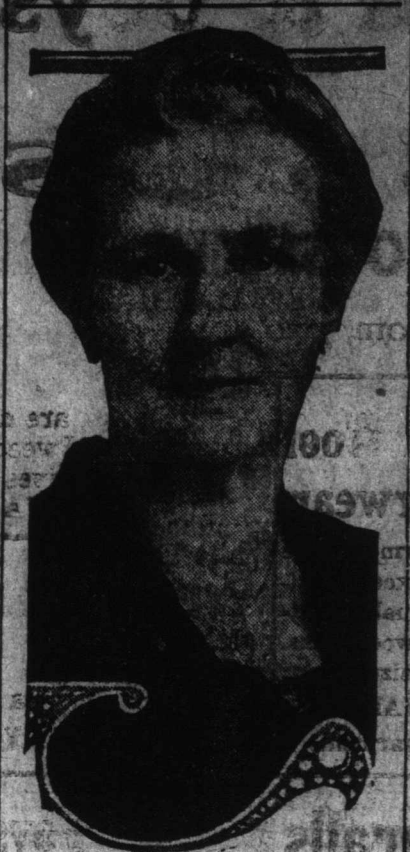

From Helpless Invalid to Complete Restoration of Health, Strength and Happiness Is Wonderful Change Mrs. Root Experienced in Three Weeks—Statement One of Most Remarkable On Record.

Just a week before I started taking Tanlac I was down in bed so completely up with rheumatism I could not move without help. My son had taken Tanlac and it had done him a world of good, so one day he brought me a bottle and said, "Mother, I want you to take this." When I had finished that bottle, I felt like a new woman, and by the time I had finished my second bottle, I was out in the garden hoeing.

Tanlac has simply done wonders for me. It almost seems like a miracle. This is the remarkable statement made recently by Mrs. Jennie Root, residing at 1408, Fowlers Road, Portland, Oregon, and is only one of thousands from well-known men and women who are daily testifying to the powers of Tanlac.

Continuing her wonderful statement, Mrs. Root said, "For years I suffered terribly with rheumatism, and would often be down in bed for days at a time. In the last few years there was not a time that I didn't feel those rheumatic pains all through my body. About two months ago I was much worse and my arms and legs were so bad I was almost helpless and couldn't even hold a pen to sign my name. I was so weak I could not do any housework. I couldn't even sleep, and had no rest day or night. Even to walk a few steps would tire me out completely. When I tried to walk I would stagger and when I did walk a little way and get down I could not get up without some one helping me. I had no appetite and hardly ate anything. I kept alive. I could not sleep over far enough to get my shoes on.

"I never knew what a night's sleep was, and would lie awake for hours. At times I would get very cold and would have to get up and sit by the fire all huddled up, and my daughters would put hot water bottles all around me. I was treated by four doctors, and took all kinds of medicine.

MRS. JENNIE ROOT.

Nothing ever did me any good. I am just like a different person now. All those terrible aches and pains have left me, and only the other day I was able to walk up four flights of stairs in an office building when the elevator was out of order.

"My appetite is just splendid now, and just to-day for the first time in years, I felt so hungry that I had to go and eat a piece of pie between meals. In fact, I can't remember the time that I have felt as well as I do now. I have not only regained my health and strength, but I have gained fourteen pounds in weight. To tell you the truth, I wouldn't exchange the benefit I have received from Tanlac for the best ranch in Oregon, and I will praise it as long as I live."

Tanlac is sold by leading druggists everywhere.

C. L. B. Cadets.

The Battalion was going strong last night with the Colonel in charge of the main floor. The Brass Band under Capt. Morris was playing extra choice selections for the physical drill and musical. The following officers were present:—Lieuts. Ash, Hunt, Motter, Harold Hayward, Reeves, Major Williams, Lt. A. B. Perlin, (Acting Adjutant).

Lieut. P. B. Rendell is on leave until October 6th, and the following ladies transferred to the Bugle Band under Capt. Bandmaster, Sergt. Hennebury, who has volunteered to make his new Bugle Band music "better" than the best. Privates H. Wiseman, G. Keats, W. Williams, W. Farmer, H. Oakley, W. Whitten, Lance Corporal Barst.

The Quartermaster has had a report that the Brigade Armoury building needs two thousand dollars' repairs, painting, glass, wire screens and chimneys for heating. Arrangements have been made to start repairs promptly when the winter weather comes along. The finance committee are working out plans to try and raise the money badly needed to keep the premises in repair. They are prepared to have a series of concerts, dances, etc., on Brigade Anniversary week in November and make an urgent need an objective to try and raise the cash. The Brigade has "passed around the hat" since the war and does not want to unless as a resource, but voluntary contributions towards the maintenance of the Armoury would be welcomed. Paymaster Lewis, Captain Outerbridge and Colonel Goodridge have the matter in hand and Major Williams has started with the work that is absolutely necessary.

The Battalion school re-opens next Tuesday with Lieut. R. G. Ash as Brigade Schoolmaster-in-command. All pupils will please apply for enrollment.

Sergt. Major Rendell, in charge of the swimming class, reports that the forty paying members to date and the aggregation will be known in the future as "Rendell's Bathing Recruits."

They will have a bathing parade every week, Wednesday and Friday, from 9 to 10 a.m. in the King George Institute, from 9 to 9.30 o'clock. Sergt. Major hopes to give an exhibition of water polo, etc., in a short time. The Brigade will have a parade on Sunday morning the Battalion and Old Comrades will parade at 10 a.m. sharp for Divine Service at St. John's Church. The Old Comrades will be under command of their newly elected Commanding Officer, President C. G. G. and we expect to see the "Old Boys" gather in great numbers. "Old Guides" will not be on duty next Sunday as the Corps has not sufficient drill lately, since the

"Tough and grow fat" is an old axiom. We advise the use of a good tonic.

"BRICK'S TASTELESS"

is a wonderful tonic and will certainly improve your health. The selection of a tonic is a matter of great importance, as your health depends upon it. To fight disease successfully during the changeable autumn months the system should be "giving up." The facts we state about Brick's Tasteless silence all criticism.

With yourself the day you come home, take Brick's Tasteless, then weigh yourself two (2) weeks later and note the increase.

Society of United Fishermen.

Some of its Principles and Practices
—Flag Will Soon be Flying Over
Dominion of Canada.

ARTICLE II.

(Special Correspondence Sydney Post)

St. John's, Nfld., Sept. 23.—The Society of United Fishermen as at present constituted, had its origin in the Cable Town of Heart's Content, Trinity Bay, and grew out of a smaller organization known as the Fishermen's Benefit Club, the which, however, did not appear to meet with the desires of the promoters, nor yet respond to their ambitions for a wider local scope. Hence in the year 1873, Rev. George Gardiner, a Church of England clergyman, and one of the principal members of the club, drew up a form of Constitution followed by an initial Ritual, and submitted both to those clerical and lay associates of his who were willing to erect a greater fraternal structure along the lines of a Secret Society, in which every man, before being admitted to its fellowship, had to take an obligation promising to respect its principles and pledge himself to the virtues of and duties of Religion, Loyalty and Benevolence. Subsequently an enlargement was made to the original Ritual, and three degrees were elaborated, Red, White and Blue each with its distinct form of ceremonial and obligation, those of the White and Blue degrees, whilst amplifying the Red, not however interfering with or eliminating any of the basic principles of its character, but rather, as it were, becoming the stepping stones by which the brother of the first degree—the neophyte—gradually came to the full light and knowledge of a Master of his craft.

We are giving away no secrets in furnishing this information, as will be readily recognized by every "fisherman" who has travelled via the Triangle.

Why the Triangle?

As every Secret Association has its own distinctive, recognizable and symbolic emblem, so that of the Society of United Fishermen is the Triangle. Any student of geography or any other student for that matter, will at first glance at a map of British North America, immediately note that in shape Newfoundland roughly resembles an irregular triangle. Its three chief points being Cape Bauld, Cape Ray and Cape Race, each of these three being almost equidistant from the other. Hence an equilateral triangle was adopted as the main outward symbol of the Order, but in order to relieve it of its bareness and nakedness, a minor symbol was necessary as an adjunct. This was created by the adoption of the Cross of the Knights of Malta—the Maltese Cross, formed by the junction of four arrow heads meeting at their sharp points, the eight points of the bases being symbolised by the eight beatitudes, which all Fishermen are taught in their progression through the various degrees to learn and observe. (And might it be said "here that these eight makes the only number not divisible by three in the internal working of the Order). Now having found the main outward symbol, it was necessary to arrange an appropriate motto, of not less than three words, typifying certain principles for which the order stood. These were found in the triad, LOVE, PURITY, FIDELITY, as has been explained in a former article. Thus the Triangle, enclosing the Maltese Cross, and with both sides and base containing the three emblematical words, naming the three principal degrees, found acceptance as the outward and visible emblem of the Society of United Fishermen. The Color scheme of the Order is National, and true to the principle of heraldry. On a Red background a Blue Triangle enclosing a White Maltese Cross. One might give this definition in the quaint and archaic language of Heraldry itself, but to do so would be perhaps to baffle upon the premises of the Herald's College which had no part whatever in the making of the design described above.

The Mystic Number.

Nearly everything in connection with the esoteric work of the Order of United Fishermen is performed by threes, the figure 3 being the cardinal perfect number of the Association. Those who have passed the Blue will appreciate this, and those who have yet to receive that privilege will understand it afterwards.

Such, then, in brief, are a few of the main historical features of the Society of United Fishermen. Details may—must—be scanty, and these few impressions, written entirely from memory, may possibly prompt some wiser genius to criticize them. But the writer hopes not. He has done his best in two all too short articles, to familiarize the people of Sydney with the object and purposes of an organization of which he trusts they will know more within a short period. Statistics must perforce be left over now, as too much space, in the enthusiasm of the moment and love of the subject has been used in describing the primary objects, and anyway we hope to have the pleasure of handing out figures orally in the very near future.

Neat Tea Aprons

Very pretty and low priced is this little Tea Apron of White Lawn, trimmed with wide hem, stitched pointed tucks and showing a deep hem all around; waistband extends into ties at back.

Price, 39c

All-Wool Scarfs
