Spring and Summer Prices

A Big Combination of Cattle Shippers Successfully Formed.

The Bottom Out of the Egg Busines -Botter Outlook for Good Cattle in England—The Flour Market Still Unsettled.

[Special to the ADVERTISER.]

MONTREAL, April 25.—The initial step of what will no doubt prove to be the most important move in the history of the live stock trade has been made by Robt. Bicker-dike and John Crowc. They are applying stock trade has been made by Robt. Bickerdike and John Crowc. They are applying
for letters patent granting them a charter
to carry on business in live stock, fodder,
igricultural and other products under the
came of the Bickerdike & Crowe Cattle
Company, with a capital of \$100,000.
These two gentlemen controlled nearly onehalf the cattle shipped last season, and the
competition between them has been keen.
Efforts will be made to bring other large
operators into line, making a concern strong
enough to control the trade in all its
branches. Their main object appears to be
to get concessions from the carriers which
cannot now be obtained owing to the competition among themselves and the small
shippers outside the ring. If the scheme is
unccessful the cattle feeders and small
shippers will suffer materially owing to
there being no competition as heretofore to
boost up prices in the country. Advices
from the British markets are more encouraging. A cable to-day says the prospects
are better for good cattle. Americans sold
in Liverpool to-day at 52d or 2d higher
than last week.

The local markets are glutted with cattle,
and the drovers lost heavily to-day. Choice

in Liverpool to-day at 5½d or ¼d higher than last week.

The local markets are glutted with cattle, and the drovers lost heavily to-day. Choice steers sold at ½c to 4½c; medium steers, 4c to 4½c; large oxen and bulls at 3c to 4c, and sommon stock at 2½c to 3c. There was an own supply of hogs, and prices eased off bout 10c per cwt in consequence, \$5.50 o \$5.65 being the range. Sheep and dambs are in demand at 4c to 5c per lb, and common calves are a drug on the market.

There are rumors afloat about shippers buying extensively in the country, but the Montreal men say positively they are doing nothing. The first boat to load will be the Fremona, which will take 700 head for John Crowe to Newcastle. By the time my mext letter reaches you the season will be in full swing. The outlook is none too bright, but the shippers say one of the most successful seasons in the history of the trade opened up three years ago with the condition of affairs almost identical with those of the present.

The Allan, Domninon and Beaver lines have made their rate for May 60s, which is 10s higher than that of last season. The Allans are charging 5s extra for insurance.

BUTTER, CHEESE, ETC.

New cheese is coming in more freely in lots of 40 and 50 boxes, which is costing 10c to 11c per 1b, according to quality. The new goods compare favorably with that of last season, and if the warm weather continues the season will be earlier. The report about the Ingersoil shipments is denied. Advices from London and Liverpool report the market dull. The Liverpool cable is down to 54s. Bids are being made from 10c to 10½c, but if the cable keeps going down it is likely to have a deterrent effect. Last year new cheese was a factor in the English market, and at this time the cable was 59s.

The movement in butter is still confined to a small jobbing trade. Receipts of new butter are small, and all offering sells at good prices. Old creamery remains as it was. The stocks are still heavy and have a depressing effect, but they have worked down to a better

The bottom has dropped out of the egg market. The supply is heavy in the country, and buying is being done at 9c or 10c on the cars. Business is slow here at 11c in single case lots.

country, and buying is being done at 9c or 10c on the cars. Business is slow here at 11c in single case lots.

FLOUR AND GRAIN.

The flour market is still in an unsettled ondition, no arrangement having yet been tome to concerning the Newfoundland difficulty. Some dealers say that the trouble will have the effect of building up our export trade with Great Britain; but prices must advance on the other side before business can be done at a profit. Sales are being made at low prices here. Consignments of straight rollers have been closed out at \$4 35 to \$4 50, according to size of lot and quality. Manitobas are offering freely at reduced prices, but are moving slowly. The range for strong bakers' is very wide, choice city brands selling from \$4 75 to \$4 90, and other qualities at \$4 35 to \$4 70. Western millers are competing for business in oatmeal, and are cutting prices right and left; but the movement is small. Mill feed is quiet and steady, quotations being as follows: Bran \$15 to \$15 50; shorts \$16 to \$16 50, and middlings \$17 to \$18.

The grain market is quiet. Sales of No. I regular Manitoba wheat are reported at 77 to 78c for May; red and white winter is selling in the West at prices ranging from \$5 to \$7c. Corn is quiet at 51c to 53c in bond. There is a good inquiry for peas for export. Advices from the Stratford district are easier, at 58c to 59c per 60 lbs; prices here are 76c to 78c per 66 lbs afloat May, and 74c to 75c in store. Feed barley as been sold during the week at 42½c, and malting at 58c. Several transactions ire reported in oats on private terms for May shipment; but 334c to 34c per 32 lbs is about the idea. No. 2 sare quoted at 33c, and others at 30c to 32c per 34c lbs. Malt is seiling at 70c to 75c. Buckwheat is quiet at 54c to 55c on spot, and 56c to 68c for May. There is no change in seed, quotations being as follows: Red clover, \$7.50 to \$8; Alisike, \$7 to \$9; Canadian timothy, \$2 to \$2.15, and American, \$1.85 to \$1.90. A sale of ten bales of hops is reported at \$21c.

Wm. Martin, hotelkeeper, of Vancouver, is dead. He was born at Colborne, county of Huron, Ont., in 1834. He leaves four sons and three daughters.

The following are the officers for 1992-3, in connection with the Wingham branch of the Upper Canada Bible Society: President, Peter Fisher: secretary, John Ritchie, jun; treasurer, Dr. W. B. Towler. Board of directors—Baptist, A. McGregor, Alex. Kelly; Episcopalian, E. C. Clarke, A. E. Smith: Presbyterian, Gilbert McIntyre, Alex. Ross; Congregational, Robert Currie, sen., Michael Robertson. Auditors, J. J. Homuth and Alex. Ross.

and was fined \$20 and costs.

PERTH

It is reported that the Congregational Church, Stratford, will shortly be sold. There is said to be a debt of \$8,200 on the building, and the congregation is unable to make the interest.

Amos Shier, produce merchant, of St. Marys, has made an assignment for the benefit of his creditors, to Mr. John Clark, barrister, of that "place.

Andrew Forch, while running the shaper in the Listowel furniture factory, had one of his hands badly lacerated with the machine. The first finger is much torn, but it is thought the will not lose it entirely.

WENTWORTH

wentrely.

WENTWORTH.

The will of James Blake, of Beverly, has been entered for probate by John Blake, of Puslinch. The property is valued at \$7,025—\$3,750 of it being realty. It is divided among the children, after \$50 is spent in procuring a new communion service for Beverly Presbyterian Church.

CRIMINAL CARELESSNESS!

Families Suffer from Bereavement.

What a vast amount of sickness and disease in our Canadian homes! Men, women and children dring.

What a vast amount of sickness and disease in our Canadian homes! Men, women and children dying every day through carelessness and improper treatment! Families are mourning the loss of loved ones who have been consigned to the grave through want of thought and commonsense treatment.

Kidney and liver troubles, impure blood, sluggish circulation, dyspepsia, nervousness, heart troubles and rheumatism, are taking off our people at an alarming rate. Our people place too much reliance on the common advertised remedies of the day, which only fan the fire of disease into an unquenchable flame. No wonder that honest doctors are sometimes disgusted with popular ignorance.

The tendency is for people to rush after anything new that is advertised. Pills, powders and fluids are swallowed in abundance in the hope that sickness will be banished. Reader, the hope is vain, your work is foolish, you are but shortening your life.

If you are honestly desiring a new life and freedom from your present troubles, medical experts and testimony clearly indicate the common sense plan, and point unmistakably to the great and honest remedy. This God-given agent is Paine's Celery Compound, the people's unfailing life renewer. Thousands of our people who were once slaves to suffering and disease stand ready to speak in its favor.

Paine's Celery Compound is the strong tower of defense for Canadians when troubles assail and dangers threaten. It never fails in its glorious work; it cures, recuperates and strengthens the man or woman who longs or pines for freedom from disease. It is worthy of a trial, sufferer; it will do all it promises.

The Talmud is a collection of the ancient

George Washington—the George Washington—the George Washington—the George Washington of Fitzhugh Lee of Virginia, because he had big hands and feet and also because he mitered a toom awkardly.

We have no hesitation in raying that Dr. I. D. Kellogg's Lycentery Cordial is withat doubt the best medicine ever introduced for dysentery, diarrhoa, cholera and all tummer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a positive cure. Mothers should never lew thout a bottle when their children are sething.

Sons & Co., Montreal, wholesale and put in first-class order at Gurd's Gun Shop, 185 Dundas street. Mowers sething.

How to Develop Good Traits in Horses

It is very desirable and important to be able to catch a horse in the pasture field, which can most always be done when he is treated with uniform kindness. It is often necessary to get up a horse quickly, and if he is hard to catch, the delay thus occasioned may result quite seriously to his master's interest. I never go into a field to catch a horse without a nibble of corn, bit of apple, handful of oats or something else he likes, and as a consequence, never have the slightest trouble in catching him.

In turning a horse out to pasture, never frighten him and make him run away from you by striking him with the haiter or bridle and yelling at him. This is a mean, heartless habit, and is apt to make a horse horses cannot be caught in the field, and the only way they can be stabled is to get the dogs after them and drive them in. Should the dogs be away from home some day (or night) when he wants to go for a doctor or to see a sick neighbor, he would doubtless realize what it was to be "in a pickle."

BRAHT.

Paris is to have better fire protection.
The three excellent iron bridges in Paris cost \$33,036, repairs on which for the past ten years amounted to \$3,501.

Geo. Jones, tailor, arrested for the Ridgetown police, is wanted for stealing a watch from Donald Campbell some time ago at the M. C. R. station there.

A young man representing himself to be John D. Martin, of the Home Supply Association, Chicago, has been victimizing a number of citizens of St. Thomas and other places with ah enticing book scheme.
There are at present 51 inmates in the Elgin House of Industry, the lowest for years. Last year the average number of immates was 72.

A horse belonging to Mr. Hendershott, Middlemarch, ran away on Monday afternoon. It was stopped in front of Smith's liquor store. The buggy was badly wrecked.

Six coal oil street lamps have been put

doubtless realize what it was to be "in a pickle."

Of the many bad traits the horse may possess that of being breachy may be classed as one of the worst. I think that the author of the expression, "an ounce of prevention is worth a pound of cure," must have had some experience with breachy horses; at any rate the adage holds good in this connection. Ordinarily it is no difficult matter to keep the horses from becoming breachy when managed with discretion—discretion, "aye, there's the rub," for many farmers possess but very little of this essential characteristic. They buy a horse or colt and take it home and turn it right out in a poorly fenced field before it becomes accustomed to the place, and being discontented and anxious to get back to its old home, it pushes down or jumps over the weak, low fences and bounds away like a deer in the direction of its old home. Then the farmer goes after it again and brings it back and turns it out in the same field, after having slightly repaired the fence. But it has now become breachy and has but little respect for fences. It thene-forth goes whithersoever it pleases, regard-less of fences or volkes. wrecked.
Six coal oil street lamps have been put up in Fingal.
A St. Thomas man named Wm. J. Purdy had one of his legs crushed by the cars at Buffalo a day or two ago. He was an employe of the West Shore Railroad.
