Europe it would be excellent policy to Navigation and Railways have a powerful arm put out where could promptly strike England if she France could undertake this nicely because of her geographical position; but, since she might not al together relish having Europe overrun with the Northeastern barbarians, her scruples must be overcome. If she were assured of being made custodian of Great Britain, and promised the lon's share when the partition of Germany should take place, it was reasonable to suppose that she would stand by Russia. The fact that such delicate hints as were dropped to France by her Muscovite guests gave no offense ent the latter home in high glee. Not long ago, when the Czar made a tour of Europe, it was done entirely for the purpose of giving him a personal opportunity to sound the French feeling toward Russia.

A preliminary test of Russia's general power over Europe in connection with these plans, the true inwardness of which seems to have escaped the eyes of all outspoken observers, has

against the Arctic Ocean, with no seaward exit available throughout the It began with Russia's interference year. She has never been ignorant of in the matter of the concessions grant-ed by China to Japan in the recent war between these two far Eastern coun tries and was clearly visible in the trickery by which Russia practically displaced Japan in Corea. Still no one outside the small circle which knew the facts seemed to see anything suspicious in this until it became known into relieving this, but as she has altat Russia ad agreed to stand as guarantor for China in the coloss ways been lacking in any high order of business ability, he has never been lcan which the latter country wished to negotiate in Europe toward paying of business ability, she has never been cope with her wants in times of peace her war indemnity to the Japanese Then a great deal of moderately curate guessing was done throughout the world, and the Czarina saw that vaster empire, in some golden age, more might be disclosed than would suit her purpose unless Russia ceased when the domain of her eagles should range from the Orkneys to Behring Sea, and from Nova Zembla to Gibto act as China's indorser.

The woman's wit prevailed. So far as humanity at large could see. Mongols were left to flounder in their deserved helplessness. Privately, though, they received directly from the friends of teh Czar and Czarina a loan

raltar; but the magic agent which alone could change this pretty dream gold itself-has ever been beyond her No feasible way of alleviating the sufficient to smooth out a great many country's lack of money ever occurred of their most pressing difficulties. to any Russian ruler. Whatever genius This retreat left so small a scar t other directions. About the middle of the reign of the father of the presenmark its place of exit that it made the Czar a little reckless in the recent Czar a little reckress in "moral support" he gave to Turkey in the Armenian affair. He hoped that, Czar an American with more know ledge than sense breathed something if Russia seemed to be the power be into the ears of the imperial autocrat which changed everything. It was at hind the Mohammedan throne, the rest of the world would keep its hands off. explanation of the fact that in Siberia His purpose in this was two-fold—te prevent a partition of Turkey, which are richer mineral deposits than have ever yet been mined-many times more gold than the coinage of the world rould permanently settle an interna ould amount to. Alexander put these tioanlarmament exactly were he had statements to the severest scientific entirely undisturbed until the mines of test, only to be convinced that his Amliberia have made Russia rich enough erican informant had understated the to undertake her desired modifications case, if anything. Even then, for a f the map of Europe. If, in the meantime, so particularly opaque is Musco time, she has dandled Turkey on her protecting knees, she believes that just himself to the idea of devoting the national dumping ground for poli when the expedient hour strikes she will be allowed to occupy the key of tical offenders to more laudable purthe Bosphorus with no more than a formal protest. The plan did the Czar credit, but his wife soon saw that there must be an.

City Bindery...

After much reflection he grasped the fact that herein was a means to th end of attaining Russia's perpetual ambition. Then he began evolving other Muscovite retreat, for Russia plans, which were still in the process of elaboration the day of his death. was not yet ready for the interna tional brawl which must ensue unless the villainies of the Kurds were frown-They pointed to the utter subjugation of the continent and England, with a kind of modified "home rule" for such powers as would submit gracefully to So again the mistress spoke, and the master obeyed, but not with any very Russian control with no preliminary good grace. What ominous thing shall befall Eurpassage-at-arms. pe when some future Czar is on the

The late Emperor discussed these plans frequently and freely with the present Empress while she was still a German princess, with alleged English tastes. Strange to say, in spite of her German blood, they met her entire approval; for though it is little known, Princess Alix of Hesse, from the moment when her elevation to a share the Russian throne became a settled oertainty, has been the most ambitious woman in Europe. Because he fully understood this, Alexander considered her very much more the probable The latter, however, was thrown into a state of mild delirium as soon as he grasped these gigantic schemes, and his desire for precipitate action on them even since the death of hi father, has only been delayed by the restraining influence of his wife. She realizes the full magnitude of the undertaking, and is much too shrewd to have it imperiled by haste. The possibility of being Empress of Europe is much too sweet a confection to sacrifice to a boy's feverish impatience In 1893 there was a kind of love feast between the French and Russian navies which was the initial step toward the unification of Europe under Russian auspices. It was held in Russia that, like itself, France stood very much apart from the rest of Europe. datestation of England and her yearn-ing toward the subjugation of Germany were also duly considered. There was, It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to de me any good."

1 certainly believed it saved my life.

1 too, a considerable natural sympathy between France and Russia. When Pussia-decided that she was in fit condition to begin the readjustment of
