Life and Character Reading.

People born on this date will be gifted in many directions far above the average, if educated thoroughly. They have a very intelligent superiority and an aptitude for learning new things and working out new principles. They are generous and full of sympathy for the public good, but they demand a full independence to develop the same. They are often capricious, and frequently change their occupation.

A few harmonious people are found in this sign, who as far as known have not given any especial attention to mental or spiritual development, but generally speaking, the genius of the Cancer sign is exceedingly difficult to explain.

The governing sign of this date is Cancer, the head sign of the Water Triplicity, and the governing planet is the Moon, which gives this person a very changeable temperament. The birthstone is an emerald.

Household furniture, automobiles, and real estate will be on the market at considerably reduced prices this month, and it will be well for any one considering purchasing new things, to use the Want Ads.
