Report by the Committee of the Legislature Upon Its Present Condition.

Differences Between the Archite at and Contractor-The Progress Not Satisfactory.

The following is the rep art presented to the Legislative Assembly Friday aftermoon by the select com' althee appointed to inquire into the affairs, there dealt with : MR. SPEAKER :- Your Select Committee

wit this, their second report.

Your Gemmi' tee held ten sittings, and examined, und ar eath, the following wit-

cenbury, Jabez Spittlehouse. E. C. Howell, T. Luebe, A. Paterson, and R. Drake. The contract for stone and brick work was awarded to F. Adams for the sum of \$380,-

All tenders were to be accompanied by a certified cheque for an amount equal to morrgage upon the said quarry (see page 96 two per cent. of the amount of tender, and of avidence) the persons getting the contract were to give bonds, with sufficient sureties for the due completion of the contract, in a sum equal to fifteen per cent. of the contract price. All tenders accepted were accompanied by the requisite marked cheque, and all contractors furnished necessary security by bond, with the exception of Mr. Adams, the contractor for the mason's work, in whose case the bond was dispensed with, in con-sideration of the reduction of the amount of the tender by the sum of \$15,000. The reasons for the dispensing with the security, as stated by Mr. Rattenbury on page 40 of

ce, are as follows: In the first instance it was not intended

done that? A.—Simply to expedite

Q -You found It impracticable, did you not? A.—Perfectly.
Q.—So that the largest portion of your security is gone? A.—As to the security upon the building?

Q.-It is gone? A.- Yes sir. A return made by the Architect to the Chief Commissioner of Lands and Works on all work done under this contract up to Frincy, Janu-ary 11th, 1895, shows the value of the work done 1,500 00

Leaving a balance due Mr. Adams without any retention......

And this balance is supposing there are no cheques outstanding (see pages 41 and 42 of he evidence). The Contractor, Adams, claims he has not been fairly dealt with, and that the Archi-tect has subjected him to very harsh and

unfair treatment, unnecessarily preventing him from preceding with the work; ordering extras without, in many cases, fixing prices, and in other cases allowing him very inadequate prices. This is denied by the Architec', who evinces his determination to compel the contractor to live up to the letter and spirit of the contract. The disputes thus existing between the parties should, in the opinion of your Committee, be arranged and settled without delay, otherwise serious omplications may arise.

It is impossible for your Committee to arrive at any conclusions as to the amount already allowed for extras, or what is likely to be required therefor. The evidence of the Architect and Contractor Adams is very conflicting. The latter claims large sums for extra work (see page 12 of the evidence), and for change in stone: that is, for the rejection of the Koksilah stone and the substitution of the Haddington stone (see pages 24 and 35 of the evidence). The Architect claims the deductions in work and materials will offset the extras, and that substitution of stone will not entail any additional or any extra cost to the contract

two parties are widely at variance.

The tenders for this contract were based upon fixed prices for Haddington and Koksilah stone, which was offered to the Gov. silah stone, which was offered to the Government and accepted by them at the following prices:—For Koksilah, 50 cents per cubic foot of dimension stone; for Haddington stone, 58 cents for the same. The Koksilah stone was rejected, and only a very small quantity used in the building, and none in this contract. But as the mather is now the subject of litigation between the Koksilah Quarry Company, Limited, and the Government, your Committee deem it advisable not to make further comments, but merely to submit the evidence and coples of correspondence and documents as con-tained in the Exhibit "A" referred to in

to the satisfaction of Adams for the delivery of the stone, in accordance with their agree-ment, the then Chief Commissioner of Lands and Works, the Hon. F. G. Vernon, by a letter dated the 31st day of January, 1894 (see page 37 of evidence), directed the said Contractor Adams to proceed to bring the Contractor Adams to proceed to bring the stone from the Haddington Island

the said Contractor Adams and the F. G. Vernon and the said Huson. A dge, and Gray, dated the 12th June, 1894 copy of which is annexed to the evidence, by which, after certain recitals therein made, possession of the quarry was rendered to the said Adams by the said owners thereof and the said Commissioner of Lands thereof and the said Commissioner of Lands and Works; and the said Adams agreed to work and operate the quarry, taking there-from, from time to time, all stone required in the erection of the new Parliament Buildings, and agreeing to pay to the Hon. the Minister, for the use of said quarry and plant, a royalty of five cents per cubic foot upon all stone extracted from the quarry for use in the buildings, which royalty was to be held by the Minister for the use and benefit of the owners of the quarry. It was also agreed that the Contractor should have the use of all the engines, plant, and ma-terial found upon the site of the quarry for terial found upon the site of the quarry for the purpose of extracting stone to be used upon the building, and upon termination of the contract he was to restore the example of the same to the example of the contract he was to restore the example of the same to the example of the contract he was to restore the example of the same to the example of the contract he contract he example of the contract he contract he example of the contract he con

by the said agreement the Contractor released the Minister from all liability and responsibility for damage or otherwise in responsion is possible or structured to Ottawa.

As anticipated, the case against Thomas J. Waters has been postponed by the police magistrate another week, bail being responsively.
