CAPITAL \$5,000,000. To own such fast passenger boats as may be found necessary to convey passengers as the mails to and from Europe, and to obtain the services of such other ocean boats as the exigencies of the cattle, freight and merchandise require in these hurried days of necessarily rapid transport from America to Europe.

The survey of the intended line of road has been made and received the approval of the Government of N.S.

The contract for the building of the road has been awarded and the construction will be fully completed at an early day.

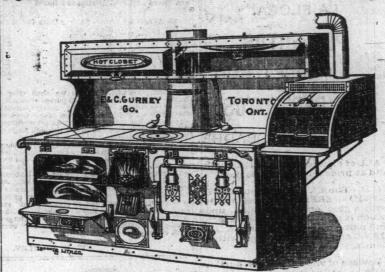

The contract also for building four fast ocean boats is being placed in Scotland.

The coal mines are being worked at a good profit to the company. These mines, when fully worked, will give employment to many hundred Canadians and give large returns to the syndicate.

This syndicate have received from the Government of N.S. a grant of 8 square miles of coal lands and own a stretch of land-along the strait of 6 miles by a depth of 3 miles.

A head office for Canada will be opened in this city in a few days, when maps, charts, prospectuses and fuller information of the property and possibilities of this syndicate will be given.
