BABY'S OWN TABLETS
OF GREAT HELP
 Mothers, if your baby or growing child
 is sickly; if he does not sleep well at
 night; if he cries a great deal; is consti-
 pated and his little bowels and stomach
 are not working right, give him Baby's
 Own Tablets—they have proved of great
 help to thousands of mothers. Concerning
 the Tablets Mrs. W. H. Decater, Corson's
 Siding, Ont., says:—"I have used Baby's
 Own Tablets and have found them ex-
 cellent for the little ones and would
 not be without them." The tablets are a
 mild but thorough laxative and are
 guaranteed to contain no harmful drug—
 that is why they always do good and
 never harm. They are sold by medicine
 dealer or by mail at 25c a box from the
 Dr. Williams' Medicine Co., Brockville,
 Ont.
KERWOOD
 Miss Fern Waddell spent the week end
 with Miss Coke of Brooke.
 Miss Harrison of Brooke called on
 friends in the village.
 Miss Freda Richardson is holidaying
 in Hamilton.
 A number from the village motored
 and spent Sunday at Grand Bend.
 The Epworth League will hold their
 next meeting Thursday evening. Mr.
 Russell Johnston has the topic for the
 evening.
 The Methodist Sunday school will be
 held in the morning at 10.30 instead of
 the afternoon. Everyone is invited to
 attend this morning service. Service in
 the evening as usual at 7.30.
 Mr. and Mrs. Gast have returned from
 Indiana where they were called to the
 sick bed of Mrs. Stone. Mrs. Gast's
 mother, who visited her daughter here
 recently and made many friends who
 were shocked to hear of her sudden death.
 Mrs. Gast has the sympathy of the com-
 munity in her recent bereavement.
 The Methodist Ladies' Aid picnic and
 bazaar was held at the home of Mr. John
 Johnson, the grounds being tastefully
 decorated for the occasion. Both old and
 young joined in the sports, and a very
 enjoyable time was spent. The proceeds
 were upwards of \$100.00. The Ladies'
 Aid wish to express their gratitude to
 Mr. and Mrs. Johnson for the use of their
 home and their kind hospitality. The
 Ladies' Aid of the Methodist Church will
 hold their next meeting at the home of
 Mrs. Albert Fuller on Thursday, July
 3rd, instead of Wednesday. Don't forget
 the date.
 The big plant of the Bruner-Mond
 Company which has been under construc-
 tion for three years at Amherstburg, will
 be put into operation it is expected some
 time during July, when soda-ash will be
 manufactured in Canada on a large scale
 for the first time.

ARKONA
 Stanley Hodder from overseas was in
 Arkona this week.
 Miss Sarah McKay has gone to London
 where she has secured a position.
 Miss Bella Knisley, of Ailsa Craig spent
 the week end at her home here.
 Mr. McCutcheon of London visited
 friends in the Ark last week.
 Miss Georgia Davidson has been secured
 to take the High School work for the
 coming season.
 Mr. and Mrs. W. Stillington, arrived last
 week from Craigville, Alta., and intend
 making Arkona their future home.
 A Tennis Club has been organized and
 are now ready to accept a challenge from
 any local club.
 Mr. Henry Barnes of Regina, Sask.,
 paid a flying visit to the Ark last Friday
 on his way home from New York.
 Shoe Sale—150 pairs from broken lines,
 all good styles at bargain prices.—Brown
 Bros.
 Mr. and Mrs. Williams have returned
 after spending a couple of weeks with
 friends in London.
 The Presbyterian church will hold
 their annual garden party on the church
 grounds, Wednesday evening, July 2nd.
 Good program.
 Kindly remember the new closing time
 Monday and Friday night at 6 o'clock
 and Wednesday at 12 o'clock noon.
 Store will be open Tuesday, Thursday
 and Saturday evening.—Brown Bros.

HAD UNIQUE HONOR.
Toronto Officer Led Way Into Sea of
Marmora.
 The first unit of the British navy
 to pass up to ports on the Sea of
 Marmora after the declaration of the
 armistice was a motor patrol
 launch, which was in command of a
 Canadian officer—Lieut. Lawrence
 Goad, of the Royal Motor Boat Pa-
 trol, who comes from Toronto.
 As the launch landed its crew, the
 Greek women of the district strewed
 the way with flowers, and an old
 Greek priest came and paid homage.
 Evidences of the Turkish abomina-
 tions were to be seen on the passage
 through the Dardanelles, the bodies
 of Anzacs and Imperial troops, who
 had fallen in the glorious attempt at
 Gallipoli, having been dug up merely
 for the clothing which was upon them.
 At the time the armistice was
 signed Lieut. Goad was patrolling the
 Bulgarian coast. A great attack had
 been planned, and preliminary pre-
 parations were being made, but the
 cessation of hostilities frustrated this.
 For over three years Lieut. Goad
 had been on this patrol work in
 the Aegean Sea. At Mudros he
 frequently came in contact with the
 Canadian hospitals, one of which
 came from Toronto. In addition to
 keeping a constant vigilance for
 mines and submarines, he carried
 British spies, landed them, and then
 picked them up again when they had
 spent a week or two on shore. He
 was busy on mine sweeping after
 peace was declared, and said there
 were probably about ten thousand
 mines strewn in these seas.
 This record is more interesting
 when the circumstances surrounding
 his joining the navy are known. A
 Toronto friend in London, Mr. Lech-
 lan Gibb—approached the Admir-
 alty and enquired whether Mr. Goad
 could enter the Royal Motorboat
 Patrol. The latter had had consider-
 able yachting experience. A verbal
 assurance was given, and Mr. Goad
 reached London, and went with con-
 fidence, to the Admiralty. But there
 was a rebuff; there was no room, it
 was said, and he could not be ac-
 cepted.
 The sympathy of the late Earl
 Grey was enlisted, and through the
 medium of his nephew, Capt. Rex
 Benson, Whitehall red tape was fin-
 ally vanquished. Lieut. Goad was
 put in charge of a patrol. It was
 only a converted collier. At Malta
 waiting. These "got" two of the col-
 liers, but Lieut. Goad's was the
 lucky third, though he had that try-
 ing experience of seeing his com-
 panions hit while, acting under Ad-
 miralty orders, they were obliged to
 get themselves out of danger.
 With him was also A. C. Turner,
 of Toronto, but although they were
 both accepted, their ways parted
 after the initial stages. After three
 years of such active service without
 a leave, Lieut. Goad has returned to
 be demobilized.

HUN CHILDREN DECEIVED.
What Their Geographies Taught
About Canada.
 Germany has captured all the
 United States and a part of Canada,
 startlingly announces the Rocky
 Mountain News. The conquest took
 place ten years ago, all on the quiet
 and unknown to the inhabitants. The
 Kaiser at the time admitted the oc-
 cupation and subjection of this ter-
 ritory and issued maps for the edifi-
 cation of the little Hun in the pub-
 lic schools. The "got" two of the col-
 liers, but Lieut. Goad's was the
 lucky third, though he had that try-
 ing experience of seeing his com-
 panions hit while, acting under Ad-
 miralty orders, they were obliged to
 get themselves out of danger.
 With him was also A. C. Turner,
 of Toronto, but although they were
 both accepted, their ways parted
 after the initial stages. After three
 years of such active service without
 a leave, Lieut. Goad has returned to
 be demobilized.

Similarly, there is undoubtedly a
 large field for developments along the
 line of actual photography, both in
 conjunction with forest protection
 and independently. The recent ad-
 dress of Col. Cull before the Geodetic
 Society of Ottawa showed some of
 the possibilities of aircraft in fur-
 therming the line of work with which
 the Geodetic Survey is partially con-
 cerned.
 The possibilities in connection
 with forestry work are also very
 great. There are vast areas of rel-
 atively inaccessible lands in all the
 provinces, where only fragmentary
 data are available as to drainage and
 topography, or as to the extent, com-
 position and volume of the forests.
 As a result of war developments, the
 importance of our forests in the na-
 tional economy is now recognized as
 never before. An adequate knowl-
 edge of the character, location and
 extent of the forests of Canada is es-
 sential to the proper administration
 and exploitation of this vital re-
 source.
 The Commission of Conservation
 made a survey of the forest resources
 of British Columbia and Saskatche-
 wan, although the data available as
 to extensive areas were of the most
 fragmentary character. Similar work
 in other provinces is planned, as
 rapidly as the necessary funds are
 secured. The prosecution of such
 projects would be enormously sim-
 plified, and the results would be
 much more accurate and valuable, if
 necessary work on the ground could
 be supplemented by systematic sur-
 veys made by means of aerial photo-
 graphy. Such surveys might of
 course serve other public purposes
 as well. This suggests the extreme
 desirability of co-operation between
 all agencies interested, Dominion
 and Provincial, as well as private.—
 Conservation.

Not a Swimmer.
 The orderly officer was on his
 usual round. "Any complaints?"
 His voice sounded above the din of
 knives and forks.
 "Yes, sir," answered a healthy
 looking representative of the Tommy
 Atkins tribe. "This 'ere blinking
 joint's raw!"
 "Look here, my man," said the
 officer, after due examination, with
 proved this complaint to be justified.
 "Do you know that Capt. Webb
 trained on raw beef in order to swim
 the channel?"
 "Oh," said Tommy Atkins, "I
 thought as 'ow we was goin'
 across in boats!"

COLD AIDS EXPLORERS.
Vilhjalmur Stefansson Explains the
Reason.
 One of the curious errors about
 the north that are prevalent among
 those few who have any ideas about
 the north at all, writes Vilhjalmur
 Stefansson in Harper's Magazine, is
 that cold is the chief enemy we have
 to fight beyond the Arctic Circle. I
 am sure that all those who have
 traveled extensively on the moving
 polar ice would agree with me that
 the cold is our best friend. For that
 reason February is a better month
 than March for sledge travel, and
 January would be as good as Feb-
 ruary were it not for the fact that
 it is then too dark for safe working
 among broken ice, where waterholes
 are a danger everywhere. In April,
 when the temperature seldom goes
 lower than 30 degrees below zero for
 a night, if a gale breaks up the ice,
 as often happens, forming open leads
 that crisscross each other in all di-
 rections, it takes several days for the
 frost to cement the broken places
 and to form ice over the lanes, which
 are impassable moats while they re-
 main unfrozen, but which become
 smooth boulevards when covered by
 six inches of young ice. In February,
 when the temperature is seldom
 above—30 degrees and frequently
 goes down to—50 degrees, the same
 lanes would freeze over in a night,
 saving many a tedious delay.
 It was therefore heart-breaking
 to lose by the delays in outfitting, as
 it proved, the whole month of
 March, for, although we were ready
 to start on the 22nd, a gale which
 had just swept the country had broken
 up all the ice to eastward, and
 with regular March temperature
 —30 degrees, the gale would have
 delayed us only two or three days.

Aircraft for Surveys.
 Among the peace time possibilities
 of aircraft are forest fire patrol and
 aerial photography. It is now
 expected that fire patrols by flying
 boats will be established during the
 present year by the British Columbia
 Forest Branch and by one or more of
 the forest protective associations of
 Quebec, assisted by the Quebec Gov-
 ernment. The St. Maurice Forest
 Protective Association is the leader
 in this respect in the east, as the
 British Columbia Forest Branch has
 proved in the west. It is believed
 that there are large possibilities also
 in connection with aerial fire patrol
 on Dominion lands in the west,
 through the Dominion Forestry and
 Parks Branches. Many men, whose
 experience in aviation overseas
 should qualify them to express thor-
 oughly practical opinions, state that,
 beyond question, these things are
 eminently feasible.

Similarly, there is undoubtedly a
 large field for developments along the
 line of actual photography, both in
 conjunction with forest protection
 and independently. The recent ad-
 dress of Col. Cull before the Geodetic
 Society of Ottawa showed some of
 the possibilities of aircraft in fur-
 therming the line of work with which
 the Geodetic Survey is partially con-
 cerned.
 The possibilities in connection
 with forestry work are also very
 great. There are vast areas of rel-
 atively inaccessible lands in all the
 provinces, where only fragmentary
 data are available as to drainage and
 topography, or as to the extent, com-
 position and volume of the forests.
 As a result of war developments, the
 importance of our forests in the na-
 tional economy is now recognized as
 never before. An adequate knowl-
 edge of the character, location and
 extent of the forests of Canada is es-
 sential to the proper administration
 and exploitation of this vital re-
 source.
 The Commission of Conservation
 made a survey of the forest resources
 of British Columbia and Saskatche-
 wan, although the data available as
