We are hoping to have Mrs. Lowthian with us again in the near future to give an illustrated talk on the Passion Play, that was held at Ober Ammergan ast year in July.

CAUSE OF BACKACHES

Every muscle in the body needs a supply of rich, red blood in proportion to the work it does. The muscles of the back are under a heavy strain and have but little rest. When the blood is thin they lack nourishment and rebel. The result is a sensation of pain in these muscles.

Many people are frightned into believing that backaches are due to kidney trouble, but the best medical authorities agree that backache is very seldom due to kidney trouble.In fact not more than one backache in a hundred has anything to do with the kidneys. The whole trouble is due to thin or impure blood, and those who are troubled with pains in the back loins, either frequent or occasional should look to the condition of the blood. It will be found in most cases that Dr. Williams' Pink Pills by building up the blood and feeding the starved nerves and muscles will banish the pains and make you feel better in every other way. How much better it is to try Dr. Williams' Pink Pills for your blood than to give way to unreasonable alarm about your kidneys any doctor can make a test in ten minutes, that will set your fears at rest, or tell you the worst

All dealers in medicine sell Dr. Williams' Pink Pills, or you can get them by mail at 50 cents a box from The Williams' Medicine Co., Brock-
