The Kind of Woman to Know The woman with a loving heart is sure to ook upon the bright side of lile, and by her example induce others to do so. She sees a good reason for all the unwelme events which others call bad luck. She believes in silver linings, and likes to point them out to others. A week of rain or fog, an avalanche of un-

The Household.

The young man hesitated for the millionth part of a second and drew a long breath. xpected guests, a dishonest servant, an unning bonnet, or any other of the thous. It was against the rules of the house for an and minor inflictions of every day life, have no power to disturb the deep calm of her The love-light is still in her eyes, whether he looked up with an icy glare in his eyes.

the days be dark or bright. It is she who conquers the grim old uncle and the dyspeptic aunt. The crossest baby reaches out its arms to her, and is comforted. Old people and strangers always ask the way of her in the crowded street. She has

who is under the world's ban of reproach. Gossip pains her, and she never voluntarily Her gentle heart helps her to see the reason for every poor sinner's misstep, and con-dones every fault. She might not serve with distinction on the judge's bench, but she is a very agreeable person to know.

Dressmakers' Chat. The present mode of wearing extremely full sleeves is most decidedly unbecoming to

stout, broad shoulders, while the space between the ruffles or bands is a great im-provement to those requiring a long skirt (42 inches and over), but it tends to make a short and stout figure more dumpy looking. around the skirts or waists, unless a very narrow trimming on the bottom of the skirt. Narrow stripes in the material, running vertically, give the figure a much taller ef

Sleeves as full as possible, with wide ruffies falling over, improve the figure of a narrow shouldered, slender person who is tall, but they must be graduated smaller for those who are short and slender. A stout person should never wear a large plaid, check or polka dot, whatever the

fashion, while these are very becoming to those who are thin or tall. A brunette makes a great mistake in wearing delicate or light shades if she has an olive or "muddy" complexion. The haircloth in present use for stiffening the skirt at the bottom comes so narrow that.

it requires four yards for a single skirt; consequently 21 yards of linen canvas cut bias comes much cheaper and answers just as well for the purpose. It is best to get the velveteen also on the bias, and three-eighths of a yard will be suffcient to bind the bottom of a dress if cut in four strips.

Apples as Medicine. Chemically, the apple is composed of vegetable fiber, albumen, sugar, gum, chloro-phyl, malic acid, gallic acid, lime, and much water. Furthermore, the German analysts' say that the apple contains a larger percentage of of phosphorus than any other fruit or vegetable. The phosphorus is admirably

adapted for renewing the essential nervous matter, lecithin of the brain and spinal cord It is, perhaps, for the same reason, rudely understood, that old Scandinavian traditions represent the apple the food of the gods. who when they felt themselves growing feeble and infirm, resorted to the fruit for renewing their powers of mind and body. Also, the acids of the apple are of signal use are sluggish in action, those acids serving to liminate from the body noxious matters, which, if retained, would make the brain heavy and dull, or bring about jaundice or skin eruptions and other allied troubles. Some such an experience must have led to ur custom of taking apple sauce with roast pork, rich goose, and like dishes. The malic acid of ripe apples, either raw or cooked. will neutralize any excess of chalky matter engendered by eating too much meat. It is also a fact that such fresh fruits as the ap-

all for 25 cts. in stamps; five boxes \$1.00. DR. 1. I HNSON & CO., 22 Custom House St., Boston, Mass. A CUTE CHILD.

A well-known captain, who sails out of 8t. John, returned home one day last week, after a year's absence. Picking up his favorite child, a bright little tot of five summers, he was surprised to find that her weight and stature had not increased as it should. Looking into her eyes, the father said, "Polly, what a little craft you are! Why don't you grow, dear, like your mother?" "Why, papa," said the tot, "I haven't dyspepsia. Mamma uses Groder for dys-
