

PERSONAL TO SUBSCRIBERS.

Weigh Carefully

The argument we present as to why you should use Vitæ-Ore. Constitute yourself a jury of one, and reflect wisely and unprejudicedly upon the fairness of our offer, the best evidence we can put forward in proof of our claims. Be just to yourself and us, and, being just, can you do otherwise than give it a trial, a trial at our risk?

Your Fellow Subscribers,

hundreds of them, have taken advantage of this offer and been satisfied, and told us so in a substantial way, else we could not repeat the offer, as we now do and have been doing in this paper for months. You will be satisfied, but you must make up your mind to take the first step along the right path—send for the V.-O.! Weigh carefully our special offer to subscribers and readers of this paper. You are to be the judge!

Read Our Special Offer.

WE WILL SEND to every subscriber or reader of "THE NORTHERN MESSENGER," or worthy person recommended by a subscriber or reader, a full-sized One Dollar package of VITÆ-ORE, by mail, postpaid, sufficient for one month's treatment, to be paid for within one month's time after receipt, if the receiver can truthfully say that its use has done him or her more good than all the drugs and dopes of quacks or good doctors or patent medicines he or she has ever used. Read this over again carefully, and understand that we ask our pay only when it has done you good, and not before. We take all the risk; you have nothing to lose. If it does not benefit you, you pay us nothing. Vitæ-Ore is a natural, hard, adamantine, rock-like substance—mineral—Ore—mined from the ground like gold and silver, and requires about twenty years for oxidization. It contains free iron, free sulphur and magnesium, and one package will equal in medicinal strength and curative value 800 gallons of the most powerful, efficacious mineral water drunk fresh at the springs. It is a geological discovery, to which there is nothing added or taken from. It is the marvel of the century for curing such diseases as Rheumatism, Bright's Disease, Blood Poisoning, Heart Trouble, Dropsy, Catarrh and Throat Affections, Liver, Kidney and Bladder Ailments, Stomach and Female Disorders, La Grippe, Malarial fever, Nervous Prostration, and General Debility, as

thousands testify, and as no one, answering this, writing for a package, will deny after using. Vitæ-Ore has cured more chronic, obstinate, pronounced incurable cases than any other known medicine and will reach such cases with a more rapid and powerful curative action than any medicine, combination of medicines, or doctor's prescriptions which it is possible to procure.

Vitæ-Ore will do the same for you as it has for hundreds of readers of "THE NORTHERN MESSENGER" if you will give it a trial. Send for a \$1 package at our risk. You have nothing to lose but the stamp to answer this announcement. We want no one's money whom Vitæ-Ore cannot benefit. You are to be the judge! Can anything be more fair? What sensible person, no matter how prejudiced he or she may be, who desires a cure and is willing to pay for it, would hesitate to try Vitæ-Ore on this liberal offer? One package is usually sufficient to cure ordinary cases; two or three for chronic, obstinate cases. We mean just what we say in this announcement, and will do just as we agree. Write to-day for a package at our risk and expense, giving your age and ailments, and mention "THE NORTHERN MESSENGER," so we may know that you are entitled to this liberal offer.

This offer will challenge the attention and consideration, and afterward the gratitude of every living person who desires better health or who suffers pains, ills, and diseases which have defied the medical world and grown worse with age. We care not for your skepticism, but ask only your investigation, and at our expense, regardless of what ills you have, by sending to us for a package.

TORONTO.

FROM DEATH UNTO LIFE.

The Experience of a Portage Lady Who Was Given Up to Die.

A Remarkable Recovery and a Signal Triumph For a Well-known Remedy.

It is never a pleasant prospect to have death staring you in the face, and to have doctors tell you that you are so far gone with disease as to be beyond the reach of medicine. The words of one who has been through this experience must prove interesting reading to suffering humanity and be at once a pleasure and a profit.

Miss Bella Galbraith is a young lady who is well known in town, having lived here for a number of years. A news representative, having heard of her wonderful recovery to health, visited her and obtained her story, which we will give in her own words. She said:

I have been sick for nine years, and been attended by fourteen doctors, for over a dozen different diseases. Different doctors called my ailments by different names—Indigestion, Liver Trouble, Catarrh of the Stomach, Spinal Trouble and Rheumatism were some of the diseases. I had my stomach pumped out 150 times. I was hung up with pulleys, and put in a plaster cast, for spinal trouble, and remained in the plaster for six months, at the end of which time I was no better than at first. I wore a wide leather belt to support the spine for three years. During this time I was attacked by erysipelas of the bone in the wrist. The hand was lanced twenty-seven times in six places.

Three years ago I was attacked by tuberculosis which started in the foot. I was sent to the hospital in Winnipeg and the doctors there wanted to cut off the foot. It was all that could be done, they said, and even that would not prevent the disease from developing in some other part of the body, and that it would start every spring in a new place, until the disease killed me, as they said it was impossible to cure it. Medical skill might in the future learn to deal with it, but at present no doctor could do anything with it. They put the foot in a plaster cast, but had to remove it on account of the foot swelling.

I was sent home as incurable. On arriving home a doctor had the foot put in a cast, which was renewed every three months for about the space of nine months.

I had to keep my foot upon a chair in a horizontal position for a space of two years and eight months.

Two years ago, after having failed to obtain relief from the sufferings and been given up by the doctors as incurable, I had my attention drawn to Vitæ-Ore, which had been making some wonderful cures. I did not have much faith in its power to help me, but determined to try it.

After taking Vitæ-Ore for about a month the foot broke out in a rash, which healed up again in a few days and then broke out again, and continued for a few months in this way until it broke every day all over the foot and green matter broke from it. During the time I was taking Vitæ-Ore my general health began to improve. The stomach became strong and my appetite returned. The spine became so strong that I could go without the belt, and have not worn it since. Last July I began to walk with the aid of crutches, and in October I was able to take a few steps alone. To-day I am able to walk with a cane and my health in general is good, in fact I feel better than I have ever been in nine years. The foot has healed up and there is not a scar on it. I owe my life to Vitæ-Ore and its Preparations and will gladly testify to its merits. Any one who would like information further than is here given can write to me and I will be pleased to tell them how I used it and what it has done for me.—(From the 'News' and 'Portage La Prairie Review,' Portage La Prairie, Manitoba.)
