No. 4 or dark honey. As a rule those that are not two-thirds sealed over had better be extracted and the combs kept till another season. In shipping this honey, I send only one grade to one commission merchant, preferring not to consign the different grades to the same party, for when I have done so it often happens that No. 2 will sell at from two to four cents per pound less than No. 1, while if No. 2 is sent to another party he will sell it for nearly if not the same price that No. 1 sold at. Here comes in the point of comparison again. I might go on and multiply words by citing many instances in confirmation of the correctness of the above conclusions, but I think that this will be sufficient, so that the reader will "catch on," and if nothing else will convince him or her that the above is correct, I am sure that one trial of the matter will prove the above course to be the a lvisable one: Borodino, N. Y.

Toronto Industrial Exhibition Prize List for 1895.

HONEY AND APIARY SUPPLIES.

COMMITTEE.—Mr. R. J. Score (Chairman), Messrs Geo. Vair, Jas. Crocker and R. F. Holtermann.

All honey exhibited must be the product of the exhibitor, and with the exception of Secs. 1 and 2, the production of 1895.

The quantities specified in the various sections are the amount of honey on which the award of the prize is to be made, but this rule does not apply to Sec. 17, in which

the quentity is not limited.

Exhibitors selling honey during the Exhibition (for which right a small fee will be charged) will not be allowed to make any removal from their regular exhibit, but may have a special supply at hand from which their houey sold may be taken.

Exhibitors must not change their exhibits after the judges have given their awards.

In the solicitation of customers no un-

seemly noise will be pe mitted.
Exhibitors must have their exhibits arranged by the time stated in the general

A breach of these rules will forfeit any

prizes that may be awarded.
