JAMES PRICE was killed by a falling tree at Elkaska, Mich.

SAGINAW mill men are making contracts to saw logs at \$1.75 to \$2 a thousand

JOHN MURRAY has put in 12,000,000 feet of logs at his camp near Roscommon, Mich.

It is stated that there are 400,000,000 feet of logs on and in the Monominee, Mich., river, ready to be run down to the mills.

The lumber piled at Selkirk, Manitoba, was lately removed to high ground to prevent its being washed away by the spring freshet.

ED. WHITE, employed in Bellant's camp, Cheboygan district, Mich., was so injured by a log rolling over him that his recovery was considered doubtful.

The farmers in Victoria and Madawask, Me., have got out during the past winter 45,000 railroad ties, which have found their way into the hands of A. B. Spence, of St. Stephens, N.B.

The largest cedar camp on the Lake Michigan shores is said to be that on Drummond Island, Mich., conducted by Warren Bailly for himself and Joseph Smith. About 80 men are employed.

JAMES DUNBAR is building a mill at Sunbridge, Muskoka district, Ont. There is pine in the vicinity tributary to the mill amounting to 60,000,000 feet, standing within McArthur Brothers' limits.

An effort is being made to save the Duluth & Winnipeg land grant by building the road within the required time—three years—and meetings in promotion of that endeavor have been held at Duluth and Grand Forks.

The total estimated value of lumber shipped from Puget Sound ports during Feb. was \$41,547. There cleared from Burrard Inlet, British Columbia, during the same month, five cargoes, mostly from Australia, containing lumber of the estimated value of \$43,229.

It is proposed to form a company with a capital stock of \$75,000, for the purpose of doing the towing on the Erie canal in a wholesale way. It will require 600 mules, and by the proposed system 350 boats can be towed at 13 cents a mile for the season, whereas under the present practice of individual towing it cost 23 cents per mile.

Some Wood-Work.

In the house of Potter Palmer in Chicago, which is approaching completion, the fine wood work is a prominent feature. Among the rooms of special design is one called the Japanese room. Not only is it Japanese in style but in construction also. The finishing and furniture is imported from Japan, all ready to be set up. The mantel and the rest of the trim is in Japan teak, elaborately carved. The wood is not particularly handsome, looking much like dark and coarse red oak, but the distance from which it was brought, and the work on it, brought up its cost to \$3,000, which is said to be the price paid by Mr. Palmer.—*Northwestern Lumberman.*

How Pale You Are!

A frequently the exclamation of one lady to another. The fact is not a pleasant one to have mentioned, but still the act may be a kindly one, for it sets the one addressed to thinking, appraises her of the fact that she is not in good health, and leads her to seek a reason therefor. Pallor is almost always attendant upon the first stages of consumption. The system is enfeebled, and the blood is impoverished. Dr. Pierce's "Golden Medical Discovery" will act as a tonic upon the system, will enrich the impoverished blood, and restore roses to the cheek.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Dr. Winslow's Soothing Syrup for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind, colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste, and is the prescription of one of the oldest and best physicians and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Catarrah—A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern science has been attained by the Dixon treatment for Catarrah. Out of 2,000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of the patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination, this accomplished the Catarrah is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure Catarrah in this manner, and no other treatment has ever cured Catarrah. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure. The majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. DIXON & SON, 305 King Street West, Toronto, Canada, and enclose a stamp for their treatise on Catarrah. *Montreal Star.* 1912.

PETERBOROUGH, October 15, 1883.
A. NORMAN.—Dear Sir, Soon after I commenced to use your Electric Appliances, they opened my bowels, cured my cough and cold, relieved my head and considerably relieved my catarrh in consequence. The discharge from my head and chest are now easy, and I feel altogether better. My digestion has improved, my stomach less sour and windy, and I am less troubled with lassitude and vivid dreams. I had previously tried almost all the advertised patent medicines without deriving any good.

Yours truly, J. GREEN.
