

Town.	Generators installed.	Number dis-continued.	Number in use.	Period of Use.	Capacity in Lights.	Number of Accidents.	Advantages.	Disadvantages.	Remarks.
Multnick, Ont.	2	0	2	six mos.					Explosion caused while charging machine while in operation.
Madoc, Ont.	4	0	4	3 mos.	25 & 60 lbs.	One.	Hotel can have it. Higher cost than Electric Light, dangerous, disagreeable odor. Costs more. Plant only runs till 12 p.m.		Parties regret putting in Acetylene.
Morden, Man.	10	4	6	12 mos.	From 20 to 100 lbs ea.	One explosion - done much damage.	Offensive odor; sooty deposit; nuisance of having to clean out and charge at regular periods. Costs twice amount of Elec. Lt. without counting man's time. Irregular supply of carbide. The fact of an explosion which shook a large 3-story stone building is enough.		
Napanee, Ont.	1	1	0			One explosion; man's face scorched, also head.	Explosion first time used; never tried again.		
Northwood, Ont.	1	0	1	2 mos.	20 lbs.		Claimed cheaper.	Labor in connection with it.	
Orangeville, Ont.	2	1	1	8 mos.			Cheapness.	Danger from explosion.	
Owen Sound, Ont.	0	0	0						
Oxford Elec. Lt. Co.	1	0	1	4 mos.	50 lbs.	None.	Cheapness and efficiency.		One party bought Acetylene Plant, but after enquiry purchaser refused to take it. People here have no use for Acetylene Gas.
Parkhill, Ont.	3	0	3	1 year.	100 lbs ea.	One; nearly blinded man.	Don't know that any are claimed now.	Trouble keeping pipes clean and generator in good working order.	
Parry Sound, Ont.	1	0	1	2½ mos.	30 lbs.	None.	Cheapness.	Unpleasant odor; comparative inconvenience and more or less danger. Light also, although strong, is unpleasantly glaring.	
Pembroke, Ont.	0	0	0						People will not use it here on account of reported accidents.
Perth, Ont.	3	0	3	4, 6, & 12 mos.	20, 20, & 60 lbs. lights.	None.	Cheap; good light; local control.	Danger of explosion. Disagreeable odor throughout premises; trouble in lighting.	
Prince Albert, N.W.T.	2	2	0		50 & 7 lbs.	None.	Less cost.	Dangerous; unclean; destroy goods by smoke. Supplies cannot be obtained when wanted.	
Port Hope, Ont.	1	0	1	9 mos.	10 lbs.	None.	Say it is cheap.	No cheaper than Electric Light here, while it is a dangerous explosive and very offensive.	Explosion blew out front of building, which put effect-ual stop to installations of Gas Plants.
Rat Portage, Ont.	4	2	2	18 mos.	10, 20 & 40 lbs. light.	Escaping gas caused explosion.	Not any; would stop if money were not invested.	Trouble of frost in winter. Burners blocking with carbon and fluctuating.	
Regina, N.W.T.	2	1	1	6 mos.	60 to 80 lbs. each.	None.	Cheap light.	Have to protect generators from frost; generator located in cellar where furnace is. Ins. Co. will not allow this. Burners clog up; require too much attention. Foul smell, which in one case ruined stock of groceries. Plant thrown out.	Electric Light substituted and vendor of plant com-pelled to stand damages. Adjusted by arbitration.
Sackville, N.B.	1	0	1	6 mos.	25 lbs.	None.	Cheapness.	Bad odor, and also that water in gasometer freezes in bad weather.	
St. Mary's, Ont.	7	1	6	1 to 2 years;	10 to 20 lbs.	None, but looking for them daily.	Economy, able to light when de-sired.	Danger, smell, soot, smoke, apt to freeze up, as they nearly all did here last winter.	Claims for economy thought to be false. If Electricity were used as carefully as Gas the economy cry must stop.
Sarnia, Ont.	2	1	1	Few mos.		None.	A refuge when one quarrels with the local company.		
Seaforth, Ont.	4	2	2	6 mos and 1 year.	16 & 20 lb.	None.	Cheaper than elec. light.	Hard on eyes when reading. Amt. of attention and expensive.	Only way to make it cheap is not to burn it. Parties who have discontinued use of gas now use elec. light.
Shelburne, Ont.	1	0	1	5 mos.	10 or 12 jets.	None so far.		Trouble in charging and disagreeable odor.	Not overly satisfied with the gas.
Smith's Falls, Ont.	5	0	5	18 mos.		One or two explosions.	Cheapness.	Cost of attention and danger from explosion.	Acetylene people are trying to introduce and push their business, apprehensive that they will injure electric lighting very materially.
Stayner, Ont.	0	0	0						Reports of accidents knocked prospects of Acetylene Gas out.
Strathroy, Ont.	1	0	1	1½ years.	15 or 20.		Have heard of none.	Lights not burning sometimes; do not know cause; trouble, inconvenient, bad odor. Some person has to take charge of it.	About 1½ years ago Plant was started for exhibition. Something went wrong with generator, which was taken outdoors, where it exploded.
