CANCHALAGUA;

FOR THE COMPLETE CURE OF Coughs, Colds, Influenza, Asthma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to

CONSUMPTION.

E regret that we have not room to publish in full the entire his new of the in full the eatire history of the care of Mrs. Eggert, as it shows conclusively the controlling power of this Medicine in the being and CURING apparently the most hopeless cases. Want of space obliges us to abridge her statements.

READ AND BE CONVINCED.

Mrs Eggert state, that for the last six years she has been consumptive, but during the past year the disease had worn her down extremely low; all remedies having failed to stop its piogress. The Cough was dies having failed to stop its progress. The Cough was most distressing, with a continual Pain in the breast. Cold, claiming Night Sweats and Hectic Fever alternated with Cold Chills every day. She became weak and debilitated, and reduced so low that she weighed only ninety pounds. All her Physicians had despaired of her recovery, as their temedies had failed to do any mod. The of them called in a chilful consulting Physical One of them called in a skilful consulting Physteian to examine her Lungs, and he pronounced that one of her Lungs was entirely gone; that the other was wasting away, and there was no hope of her recovery. About the first of last August, the Tubercles in her Lungs ulcerated both internally and externally.

in her Lungs ulcerated both internally and externally. The quantity of matter thrown up almost suffocated her. The Blood now settled under her nails, so that some of them afterwards festered and came off. Many of her friends came to take their last leave.

After this crisis (20th Aug.) she commenced using Dr. Rogers' Syrup of Liverwort, Tur, and Canchalgua, with only a faint hope, as her Physician said it contained no virtues. But what a happy change!! It STOPPFD the distressing Cough; the Pain in the breast; the cold Night Sweats; the Heetic Fever, and Cold Chills, in a cery short time. It also enabled her to raise the large quantity of Matter and Phlegm which oppressed her Lungs. From that moment she has continued to get better and better; until such is the great change, even her friends and Physicians now pass her in the street without recognizing her. She pass her in the street without recognizing her. She also says, that she has never felt so well as she now does since she was fourteen years of age; that the Ulcers me her Lungs have entirely healed, and are restored apparently as well as ever. She has also gained in flesh for the last three months, so that instead of 90, she now weighs 140 lbs., and invites all those who doubt the virtues of Dr. Rogers' Liverwort, Tar and Canchalagua, to call and see her, on Llim, three doors above Cooper sts., Cincinnati, Ohio.

We, the undersigned, state that we are acquainted with and visited Mrs. Eggert during her sickness, and believe the above statements to be true in every parti-

McAlistor's All-Healing Ointment.

MHE action which this Ointment has upon the Human cuticle, demonstrates its grand effica-cy and healing power. It is the first and only discovery of an external preparation that has power to restore the "Inscasible Perspiration." The skin restore the "Inscasible Perspiration." The skins being the medium through which the blood drives off its impurities, is often locked up by cold, whence occur Rheumatism, Cr. mp, Coughs, Colds, Head-acke, Fevers, and a thought other complaints. Unstop the poies, and permisshe humous to physical, and although diseases vanish.

the pores, and permissio numbers to preson, and there diseases vanish.

The superiority of the All-Healing Ointment ove other remedies, lies in one thing—the restoration of the Insensible Perspiration. This will be seen by contemplating the following facts:

1st. That five-eighths of all we receive into the stomach, pass off through the porce of the skin, it becomible Perspiration.

Insensible Perspiration.

Insensible Perspiration.

2d. That the skin evacuates more matter than the ungs, Kidneys and Bowels put together.

3d. That the Skin discharges more matter in twenty four hours, than the Bowels do in fourteen days and that, by severe exercise, a man will lose three, four, and even five pounds in one hour.

4th. That the Creator pierced the human cutiele with pores or small openings to the almost incredible number of 600 millions, making this the grand outlet of all the redundant matter of the body.

of all the redundant matter of the body.

5th. That through these pores are constantly exuding the old, altered, and worn-out particles of the blood,

the umours of the body and the waste of the blood, the umours of the body and the waste of the system, 6th. That to stop up these pores, twenty-four hours, would cause instant death.

7th. That sudden changes of weather, and exposure to cold, closes these pores in part, and hence the long catalogue of discases over the land.
