

The British have an atomic energy project. They are  
 applying about the production of fissile material  
 and have announced that they are developing and intend to  
 produce atomic weapons. I am sure they will be successful  
 in this undertaking. They have all of the technical  
 know-how, all of the scientific background that is necessary  
 for such a development, and I believe it is only a question  
 of time until they do produce bombs.
