

two are at the "advanced" level.

- (ii) Commonwealth: A student from a Commonwealth country will usually be considered eligible for admission to a Canadian university if he has the standing prescribed for admission to a university in his own country outlined in the *Commonwealth Universities Yearbook*. The Cambridge Overseas School Certificate and the Cambridge Higher School Certificate, commonly obtained in countries of the Commonwealth outside Britain, are usually treated as equivalent to junior and senior matriculation respectively, provided the selection of subjects and the level of attainment are satisfactory. Some universities, however, require the completion of an undergraduate degree from a university in a student's home country as a prerequisite for admission to their own first-degree programs.
- (iii) United States: Graduation from a U.S. high school is generally equated with junior matriculation, if the choice of subjects and level of attainment are satisfactory. Completion of one year of college work beyond high-school graduation is frequently accepted by universities requiring senior matriculation for admission. A statement is often required from the high-school principal who recommends a student for admission to university.
- (iv) Europe: Students who have completed the requirements for admission to a European university are generally considered eligible for admission to a Canadian university at senior-matriculation level. Special written and oral tests of facility in English or French may be required.
- (v) Middle East, Asia, South American and non-Commonwealth African countries: Applicants from countries in these areas must produce evidence of having passed a widely-recognized examination such as the British GCE, the U.S. College Entrance Examination Board Tests, the *Bacillerato* or other examinations that would admit them to university in their own countries.
- (vi) International Baccalaureate: Most Canadian universities recognize the International Baccalaureate within the framework of their own admission requirements.
