

JOBLESS ROBBED IN FLOPS
JOINT

The Unemployed workers who are unfortunate enough to be housed in the Muerling flop house have to undergo the humiliating process of having their clothes taken away from them. Those in charge say this is for the purpose of fumigating the clothes and killing the vermin.

But the fumigation takes the form of searching the pockets of those staying there. Anyone who has anything in their pockets that might have something to do with labor organisation, leaflets, membership cards or anything else is taken away. If this is not robbery then will someone enlighten us as to what it is. The fumigation is merely an excuse to go through the pockets and see what they can find, in other words it is organised stoll-pigeoning.

Not content with setting themselves up as the "preservers" of the mental status of the workers, (Ideological quacks), but they add to this the filthy occupation of stealing.

It is bad enough that the jobless should be compelled to stay there, but to be treated as criminals makes the existence even more miserable. When one enters that joint one cannot say a word. You cannot talk to those around you. The treatment in Bordeaux is good compared to this. And this is called relief for the unemployed.

It is about time that the unemployed there did some kicking against those conditions and demand that they be treated more like human beings and less like cattle. These conditions will prevail so long as the unemployed permit them. The remedy rests with the unemployed. They alone can alter them. This can only be done by putting up a militant fight. Organise against this treatment and fight for better conditions.

YOUNG UNEMPLOYED JOIN
THE UNEMPLOYED ORGANISATION

Among the ranks of the unemployed there are thousands of young workers, who have been discarded by the boss as being of no further use for them. At this time with the preparations for another imperialist war these young unemployed workers will be called upon to serve as cannon fodder. By joining the National Unemployed Workers Association we can put a stop to this little game. Join NOW

DEMAND EQUASHING OF SENTENCE
OF UNEMPLOYED LEADERS

Five of the leaders of the unemployed in Montreal, namely Chalmers, Miller-Rose, Ritchie and Kashton have been found of the crime of trying to organize the unemployed for the fight for adequate relief and sentenced to a year's hard labor.

The workers saw the necessity of an unemployed organisation, saw that without an organisation the unemployed would be at the mercy of the bosses, and the prey of the vultures who live a parasitic existence on the misery and poverty of the workers in the name of charity. They saw that the unemployed fight was a class fight of the employed and unemployed and endeavoured to unify the ranks of the workers for this fight, and for this they were framed on the lying testimony of the police thugs and stools and railroaded to jail for a year.

They are appealing this sentence through the medium of the Canadian Labor Defense League, the organisation that is defending them. Unemployed workers, lend your voice to the appeal by protesting against the savage sentence given and demand that the sentence be immediately quashed.

Support the Canadian Labor Defense League.

The VANCOUVER UNEMPLOYED
LEAD THE WAY

Not content with organising themselves for the fight against the belly-robbing policies of the City Council, a fight that has led them into many clashes with the police and gained for them a certain measure of relief, they have organised a Workers Sports Association.

The Montreal Unemployed should do likewise and organise their own sports. There is a Workers Sports Association in Montreal and it is about time that it got busy and organised sports among the unemployed.

Winnipeg is also following the lead of Vancouver as well as other centres so so can we.
