The facts of the matter are this the western farmers are going to hav a worse time this year in getting their crops harvested than ever before, because there is so much ground under cultivation and the wheat belt stretch; es in every direction. There is no reason for a main to be idie in the west for the next six weeks or two months. there is no work in the cities, le them go out to the farmers, who will be practically helpless without them.

"The wheat is now turned to the richest golden hue and the great fields for miles and miles make one of the dest pictures the west has to offer And the only cloud on this wonderfr canvas is the dearth of field labor," Commissioner Walker describes conditions, thruout the west.
