

35000 KILLED IN BATTLE GENERAL IS ASSASSINATED

Further Details of Tremendous Clash of Arms in Central America.

Mexico City, July 17.—News was received yesterday that a rumor was current in Salvador that General Regalado was assassinated by two men who formed part of his escort, and that these men were Guatemalans employed for the purpose.

The following despatch was received yesterday from San Salvador: "Never before in the history of Central America has there been such hard fighting. Salvador, as a government, was not prepared, and Guatemala had about three men to one. Notwithstanding the great odds, Salvador won every battle. The loss on both sides was great, Salvador losing about 700 killed, and 1100 wounded, and Guatemala about 2800 killed and 3000 wounded. General Regalado, when killed, was over a mile in advance. He had fifty picked officers and men with him. Every one was killed, and after the rear troops came up and drove the Guatemalan troops forward, they found over 600 dead Guatemalan soldiers, including several officers. In that battle, Salvador captured the enemy's artillery. Then Guatemala asked for peace. Salvador refused, but 12 hours later a telegram from President Roosevelt changed conditions."

When this despatch was filed, the two armies were facing each other, resting on their arms, awaiting the result of President Roosevelt's telegram.

The state department received despatches to-day from the City of Mexico, from Guatemala City and from San Salvador, indicating that the powers involved in the war are willing to agree upon an armistice, but some difficulty in fixing the time when it shall begin has been encountered because of the scattered condition of the warring troops and the scarcity of means of communication between the parts of the warring countries. It is stated by state department officials, however, that to-morrow evening seems to be acceptable to all the powers.

Honduras was not a party originally to the attempt of the United States to bring the warring nations together, but after it became clear that Honduras was involved in the difficulties the state department made overtures to that country, and the reply was in effect that Honduras would be governed by the action of Salvador, its ally.

As a country signatory to the Hague conference the United States is held by the state department to be duly bound to exert every possible effort to bring about peace, and it is maintained that the United States cannot be charged with interfering in any way with Central American affairs, ever to direct negotiations, but has merely offered, its good offices and exerted all its influence in getting the fighting nations to accept their differences by peaceful methods.

AGREE TO ARMISTICE. San Salvador, Sunday, July 16, 6 p.m.—(Delayed in transmission.) The belligerents to-day agreed upon an armistice. It is claimed that the Guatemalans during the recent fighting used explosive bullets, notwithstanding the fact that Guatemala signed the Geneva convention.

ALLIED ARMY IN GUATEMALA. New Orleans, July 17.—An alleged coalition of the Central American Republics against Guatemala is reported in a special despatch from Mexico City. The despatch, which quotes a friend of General Barrios as authority, says: "Some time last March Salvador, Honduras and Nicaragua entered into an offensive and defensive coalition against Guatemala, agreeing that the moment there was an infringement by Guatemala of territorial rights of either of the three confederates a declaration of war against Guatemala should follow."

It is stated that posters have been placed in Guatemala City calling for the assassination of President Cabrera, and some of these posters have even been placed opposite the walls of the president's residence, which is guarded by about 2000 picked men. Cabrera is said to be practically a prisoner in his residence and to have his food tested for poison before eating it.

It is a very simple thing in ordering your camp supplies at Michie's to tell them to include a case of fifty to the top around it so that the railway companies can check it to your destination. DEATH AND DESTRUCTION SPREAD THROUGHOUT RUSSIA

Agrarian Disorders and Revolutionary Outrage Are on the Increase—Peasants in Many Places Apply Torch to Estates of Crown.

St. Petersburg, July 17.—The daily budget of revolutionary outrages and agrarian disorders is larger than usual to-day. In many places the peasants are wontonly applying the torch to estates belonging to the crown and to private forests.

At Natchatkin, in Simbirsk Province, the town hall was set on fire yesterday, and the entire village, consisting of three hundred houses, was consumed. Throughout Poland systematic pillaging of the government spirit shops is in progress. The central police office at Warsaw was robbed yesterday and a gendarme was killed.

At Lublin, Russian Poland, revolutionists yesterday executed a workman who was suspected of being a spy, and at Nizhni-Novgorod and Vasilyka the cashiers of the spirit monopoly were robbed and killed. A bank at Sosnitsa, Province of Tomsk, was robbed yesterday, and at Tomsk an Armenian locomotive engineer was shot in his cab by an assassin concealed in the neighboring woods.

Workmen at Rostoff, Province of Yaroslavl, killed an alleged government provost at Filagorova, a Tartar woman, who was baptised in the Orthodox Church, was murdered, and at Yaroslavl bombs were exploded at the residence of the chief of police and an officer of the gendarmerie.

The monastery of the Nativity has been plundered of all its jewels and sacred relics and \$10,000 in cash. In the village of Kunikoff, two hundred houses have been burned in disturbances incident to the agrarian movement. The crown forests have been set on fire in sixteen different places.

The family of M. Krupenikoff have been driven out of their estate near here by peasants, who announced that they intended to harvest the crop themselves, but would allow M. Krupenikoff to take his cattle.

Police on Strike. Considerable alarm has been caused by the inauguration of a strike of the police in the districts of the capital to-day, the policemen refused to appear for duty and last night one squad whose captain was lecturing them on declining to break up a meeting drove down their arms and left the station. The strike is ostensibly based on economic grounds, including an announcement of the men's savings, which, it is claimed, are withheld without interest. The authorities, however, declare that the strike is merely a pretext for an attempt to start anti-Jewish outbreaks at Kherson, Nicoloff and Baternofsky, but that it was promptly and effectually suppressed by the authorities. The strikes continue to spread on all sides.

Crops a Failure. The government crop reports show a continued deterioration in the Volga Provinces, and that the partial or total failure of the crops has extended in the "Tatarskaya, Penza and Nizhni-Novgorod districts, and in some of the districts of the Don, where the rains came too late to save the crops. The government last night approved the bill of the lower house of parliament, which was adopted by the upper house, appropriating \$7,500,000 for famine relief, thus supporting the contention of both houses of parliament against his own ministers. This law is the first enactment of the Russian parliament, the net legal result of a session of over two months.

Urges Expropriation. The lower house of parliament to-day began consideration of the agrarian committee's address to the country, in answer to the government's agrarian proposals. Over 90 speakers asked to G. Alladin, one of the leaders of the group of Toll, offered a substitute in sharper language. In the half of the group, urging the house not to appeal to the peasants to exercise patience, but to pledge parliament never to agree to any agrarian measure not providing a clause providing for the forced expropriation of land.

TWENTY ESTATES BURNED. Bobruisk Province of Voronezh.—The troubles in the whole of this district, covering 135 miles square, are becoming more serious daily. The destruction of one man, and last night over twenty estates were burned. The town is filled with frightened proprietors, who were about to escape yesterday's carnage by fleeing from their estates. Ten miles from here 15 estates were burned, and many of the proprietors killed. The governor has arrived with Co-sacks, but order has not been restored.

WILL NEVER STAND TRIAL NO DOUBT THAT'S INSANE

Authoritative Statement After Conference of Friends and Counsel of Murderer.

New York, July 17.—The World to-morrow will say: "Harry Thaw will never be placed on trial for the murder of Stanford White. An application will be made for the appointment of a commission to inquire into his sanity. There is no doubt but that he will be declared insane and sent to the hospital for the criminal insane at Mattawan."

This authoritative statement was made last night, immediately after the conclusion of a conference at the Hotel Lorraine by one who had been present. At this conference were Mrs. Wm. Thaw, Miss L. B. Belding, her personal friend, Mr. K. Olcott of Black Olcott, Gruber and Bonynge, Young Thaw's former counsel, Joseph Thaw, George F. Carnegie, son and heir-at-law of Mr. Wm. Thaw, Mrs. Elizabeth Nesbitt Thaw was present, but took no part in the conference.

MRS. THAW'S STATEMENT. Montreal, July 17.—(Special.)—The French papers of the province, and especially La Presse, are drawing attention to what they call the very humiliating position occupied by the compatriots in the New England States. It appears that the Fall River, Mass., of St. Ann's parish, French Canadian, have built a church costing \$300,000, and in dedication, the representatives of that nationality occupied quite a second place.

The same paper declares that, while Mr. F. K. O'Brien, the apostolic delegate, Mr. Stas, Bishop of Fall River, and a great many Irish priests were present, both at the dedication and the banquet which took place later on, the only speech in French and not a single health was proposed in that tongue. Not a single French-Canadian layman was at the table of honor, and the French priests, while ten seats were vacant, a French member of the legislature, Hon. Mr. Pelletier, and other prominent citizens, Messrs. Hugo and Dubucque, were simply spectators in the audience.

LIPTON NOT LOOKING TO CANADA Has Had Offer From Winnipeg, But is Planning Nothing. (Canadian Associated Press Cable.) London, July 17.—Regarding a report that Lipton was about to start a cannery factory at Winnipeg, Lipton's secretary says the form of the message is somewhat misleading. All that has happened is that certain parties in Canada have approached Lipton with an offer of land, etc. Whether Sir Thomas will, in some future year, extend his business in that direction, the secretary does not definitely say. At present, so far as is known, there is no such intention, nor are any negotiations to that end in progress.

RESTRAINING ORDER. John D. Gleason, one of Thaw's counsel appeared before Justice Blanchard of the supreme court, and today secured a writ restraining the district attorney and the grand jury from taking any evidence as to the killing of Stanford White.

GLIDDEN TOURISTS AT BORDER Autoists in Trophy Run Met by Customs Inspectors. Bluff Point, N.Y., July 17.—Revenue inspectors of the United States and Canada met the Glidden Trophy Tourists on their arrival at Hotel Champlain to-day, and will accompany them over the Canadian border. This plan was arranged in order to simplify the customs formalities.

Co. have accepted the offer of the company, namely, an increase of three-quarters of a cent per hour for men who have been in the employ for two years and over, and half a cent an hour for men employed under two years.
