Why Do We Advance— Three Thousand Shares at

The price of shares from 10c to 15c? We reply: The success of any Mines Development Company depends on the accumulation of a large cash capital, in order to take advantage of buying at a reasonable price valuable mining properties, or obtaining control of valuable properties on payment of small sums in cash and working under a lease Rossland to prove the value of the ground before purchasing.

Joney Is Power in Mining

We have secured the necessary cash capital. Therefore, our stock is worth more. We offer a limited amount of stock at 15c per share, fully paid and non-assessable, subject to further advance without notice.

MINING ENGINEERS: For Ontario, Mr. J. H. Chewett; for British Columbia, Mr. J. K. Clark and Mr. H. Stevenson.

CENERAL MANAGER: Mr. Edwin Wallace, M.E.

DEVELOPMENT COMPANY

The first issue subscribed for twice over, proving the confidence of the public in a company on our lines—subscribers from Vancouver to Prince Edward Island. Those who failed to get our stock before the raise had better do so at once, as another raise will shortly take place.

We expect to announce in a few days a dividend of one-half a cent per share from profits already made.

The only company that has issued the whole of its share capital at its par value of one dollar, which positively makes its shares absolutely non-assessable.

Mr. Sawyer of Sawyer, Murphey & Co. has just returned from a visit to the Wahnapitae district. In an interview with The World he stated:

"You can readily understand that it is difficult to pronounce upon the capabilities of even an old and well-developed mining district, when snow is on the ground. My examination of the Wahnapitae gold region was a hasty one: I only saw three or four properties and only upon two of them had any development work been done. I am, therefore, not prepared to express any decided opinion regarding the gold deposits there.

"The great trouble with those who fave mining claims for sale is that so opened up to show whether or not they have any real value. Besides this some of them are asking as much for prospects as developed mines can be purchased for elsewhere. One reason why chased for elsewhere can be purchased for elsewhere. BOARD OF DIRECTORS-Sir W. P. Howland. Robert Jaffray, Esq., Robert John Fleming, Esq. (Mayor of Toronto), Edward Trout, Esq., G. G. S. Lindsey, Esq., of Toronto; Hon. T. Mayne Daly, Q.C. (former Minister of the Interior), John McMartin, Esq., Railway Contractor, Rossland, B.C.; A. W. McDougald, Esq., Chicago, and W. A. Henry, Esq., Barrister, Halifax, N.S.

The Company purposes to engage in and carry on the business of mining for Gold and Silver in Ontario and in British Columbia. For that purpose it has already bought and paid for the valuable Trilby and Prince of Wales Group, which it is now equipping with a machinery plant. These properties give every present indication of developing into rich producing mines at an early date, but the company will not confine its operations and its chances of ultimate success to these properties. It is Primarily a Development and Exploration Company, and its present holdings were acquired on that basis. Having highly promising mines with which to commence its business, the initial risk upon which, to a large amount, was carried by its organizers (and is still being so carried, as they receive stock for their interests and no cash out of the Treasury), and an unusually large and safe allotment of shares having been made into the Treasury of the Company, it is confident of realizing ample capital with which to transact a large and profitable general mining business without exhausting its large holdings of Treasury Stock.

All the valuable features of the ordinary DEVELOPMENT Company are combined with the prime advantage of low capitalization and an ample

It is estimated that during 1897 not exceeding 200,000 shares of the Treasury Stock will be needed to be sold, in which event only 800,000 shares in all would remain outstanding against the Company's assets and working capital.
